Scientific Papers Of Asa Gray Volume 1:

Scientific Papers of Asa Gray Asa Gray 1810-1888, HardPress, 2013-06 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

Scientific Papers of Asa Gray, Vol. 2 (Classic Reprint) Asa Gray, 2015-07-28 Excerpt from Scientific Papers of Asa Gray Vol 2 The vegetable productions of North America in common with those of most other parts of the world have generally been first described by European botanists either from the collections of travelers or from specimens communicated by residents of the country who induced by an enlightened curiosity the love of flowers or in some instances by no inconsiderable scientific acquirements have thus sought to contribute according to their opportunities to the promotion of botanical knowledge From the increase in the number of known plants it very frequently happens that the brief descriptions and even the figures of older authors are found quite insufficient for the satisfactory determination of the particular species they had in view and hence it becomes necessary to refer to the herbaria where the original specimens were preserved In this respect the collections of the early authors possess an importance far exceeding their intrinsic value since they are seldom large and the specimens often imperfect With the introduction of the Linnaean nomenclature a rule absolutely essential to the perpetuation of its advantages was also established namely that the name under which a genus or species is first published shall be retained except in certain cases of obvious and paramount necessity About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

SCIENTIFIC PAPERS OF ASA GRAY Asa Gray 1810-1888 Gray, Charles Sprague 1841-1927 Sargent, 2016-08-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars

Letters of Asa Gray Asa Gray, 1894 **The American Naturalist** , 1905 **Journal of Botany, British and Foreign** , 1890 *Frontier Naturalist* Russell M. Lawson, 2012-11-01 This is a true story of discovery and discoverers in what was the northern frontier region of Mexico in the years before the Mexican War In 1826 when the story begins the region was claimed by both Mexico and the United States Neither country knew much about the lands crossed by such rivers as the Guadalupe Brazos Nueces Trinity and Rio Grande Jean Louis Berlandier a French naturalist was part of a team sent out by the Mexican Boundary Commission to explore the area His role was to collect specimens of flora and fauna and to record detailed observations of the landscapes and peoples through which the exploring party traveled His observations including sketches and paintings of plants landmarks and American Indians were the first compendium of scientific observations of the region to be collected and eventually published Here historian Russell Lawson tells the story of this multinational expedition using Berlandier's copious records as a way of conveying his view of the natural environment Lawson's narrative allows us to peer over Berlandier's shoulder as he traveled and recorded his experiences Berlandier and Lawson show us an America that no longer exists *Monad to Man* Michael Ruse, 2009-06-30 In interviews with today's major figures in evolutionary biology including Stephen Jay Gould E O Wilson Ernst Mayr and John Maynard Smith Ruse offers an unparalleled account of evolutionary theory from popular books to museums to the most complex theorizing at a time when its status as science is under greater scrutiny than ever before [Bibliographical Contributions from the Lloyd Library, Cincinnati, Ohio](#) Lloyd Library (Cincinnati, Ohio), Lloyd Library and Museum, 1917 *Gaither's Dictionary of*

Scientific Quotations Carl C. Gaither, Alma E. Cavazos-Gaither, 2012-01-05 This unprecedented collection of 27 000 quotations is the most comprehensive and carefully researched of its kind covering all fields of science and mathematics With this vast compendium you can readily conceptualize and embrace the written images of scientists laymen politicians novelists playwrights and poets about humankind s scientific achievements Approximately 9000 high quality entries have been added to this new edition to provide a rich selection of quotations for the student the educator and the scientist who would like to introduce a presentation with a relevant quotation that provides perspective and historical background on his subject Gaither s *Dictionary of Scientific Quotations Second Edition* provides the finest reference source of science quotations for all audiences The new edition adds greater depth to the number of quotations in the various thematic arrangements and also provides new thematic categories

Bulletin of Bibliography and Dramatic Index, 1923 *Catalogue of the Library of the Arnold Arboretum of Harvard University* Arnold Arboretum. Library, 1917 *Beyond the Mountains* Drew A. Swanson, 2018 *Beyond the Mountains* explores the ways in which Appalachia often served as a laboratory for the exploration and practice of American conceptions of nature The region operated alternately as frontier wilderness rural hinterland region of subsistence agriculture bastion of yeoman farmers and place to experiment with modernization In these various takes on the southern mountains scattered across time and space both mountain residents and outsiders consistently believed that the region s environment made Appalachia distinctive for better or worse With chapters dedicated to microhistories focused on particular commodities Drew A Swanson builds upon recent Appalachian studies scholarship emphasizing the diversity of a region so long considered a homogenous backwater While Appalachia has a recognizable and real coherence rooted in folkways agriculture and politics among other things it is also a region of varied environments people and histories These discrete stories are however linked through the power of conceptualizing nature and work together to reveal the ways in which ideas and uses of nature often created a sense of identity in Appalachia Delving into the environmental history of the region reveals that Appalachian environments rather than separating the mountains from the broader world often served to connect the region to outside places

Delphi Complete Works of Charles Darwin (Illustrated) Charles Darwin, 2015-06-01 One of the most influential scientists of world history the naturalist Charles Darwin gained widespread fame and notoriety with the 1859 publication of *On the Origin of Species* At first shocking his Victorian readers by suggesting that animals and humans shared a common ancestry Darwin s theory of evolution by natural selection became the foundation of modern evolutionary studies For the first time in publishing history this comprehensive eBook presents Darwin s complete works with numerous illustrations rare texts appearing in digital print for the first time informative introductions and the usual Delphi bonus material Version 1 Beautifully illustrated with images relating to Darwin s life and works New introductions specially written for this collection by Professor Kenneth Richard Seddon OBE QUILL The Queen s University of Belfast ALL of Darwin s published books with individual contents tables Images of how the books were first published giving your eReader a taste of

the original texts Excellent formatting of the books Famous works are fully illustrated with their original drawings and diagrams Multiple editions for the same books including three editions for the groundbreaking On the Origin of Species first second and definitive sixth edition Includes Darwin s letters and autobiographies spend hours exploring the scientist s personal correspondence Special criticism section with 11 essays evaluating Darwin s contribution to science Features Bettany s seminal biography discover Darwin s life Scholarly ordering of texts into chronological order and genres Please visit www.delphiclassics.com to browse through our range of exciting titles
