Bibliography of Agriculture with Subject Index, 1993-11 **Why Agriculture Productivity Falls** Rashed Al Mahmud Titumir, 2023-06-15 Why Agriculture Productivity Falls The Political Economy of Agrarian Transition in Developing Countries offers a new explanation for the decline in agricultural productivity in developing countries Transcending the conventional approaches to understanding productivity using agricultural inputs and factors of production this work brings in the role of formal and informal institutions that govern transactions property rights and accumulation This more robust methodology leads to a comprehensive well balanced lens to perceive agrarian transition in developing countries It argues that the existing process of accumulation has resulted in unsustainable agriculture because of market failures the result of asymmetries of power diseconomies of scale and unstable property rights The book covers the historical shifts in land relations productivity and class relations that have led to present day challenges in sustainability The result is arrested productivity growth Agrarian transition should be understood in the context of the wider economic development in society including how political settlement and primitive accumulation inhibited the kind of property rights that encourage growth Why Agriculture Productivity Falls is a much needed corrective to the traditional understanding because before we can increase productivity we must understand the root causes of those challenges Energy Research Abstracts, 1979 From Agriculture to Agricolgy Professor Dani Wadada Nabudere, Mapungubwe Institute for Strategic Reflection (MISTRA), 2013-07-01 In this meditation respected Ugandan academic Dani Wadada Nabudere traces the roots of the global economic crisis and warns of the threat that the decline of Western nations poses to the African continent the final frontier for those in search of new lands and resources to exploit As a deterrent to what he sees as the encroachment of super profiteers looking to Africa for the land to increase their profits in industrial agriculture Nabudere advocates for what he terms community sites of knowledge that is the use of indigenous tools and knowledge to revitalize the lives of Africa s people The book puts forth the belief that any dependence on imported knowledge and material instruments will only lead to the entrenchment of colonial stereotypes and that indigenous knowledge is imbued with the roots of complex ecosystems that require the inputs of a diversity of expertise and experiences and that are capable of producing the knowledge necessary for the residents of the African continent to reclaim the future **Farming Systems Research** Jayne T. MacLean, 1989 **The Agrarian Question in Southern Africa and "accumulation from Below"** M.
