the process of rethinking progressive rock alive and vibrant as a hybrid open form **Moving in Stereo** Peter Aaron, 2025-09-18 The sounds of new wave pop music and the early days of MTV were defined by the work of a handful of iconic musicians and few stood taller in that era than Ric Ocasek frontman and primary songwriter for the Cars The band charted thirteen Top 40 singles in the U S from 1978 to 1987 the music video for their song You Might Think won MTV's first ever Video of the Year award and their biggest hit Drive became a Top 10 hit across the globe They would ultimately be inducted into the Rock and Roll Hall of Fame Following the band's breakup in 1988 Ocasek continued to have a lively professional as well as personal life dating supermodels publishing poetry and appearing in movies He enjoyed enormous success as a producer working with such bands as Weezer No Doubt Guided by Voices and the Bad Brains Moving in Stereo The Life of Ric Ocasek the Driving Force of the Cars serves as an in depth guide to Ocasek's life and catalog as a musician Drawing on interviews personal reminiscences and the journalistic coverage he so reliably inspired it gives a memorable portrait of one of the most essential voices in pop music during the MTV era and beyond Divine Simplicity Steven J. Duby, 2015-12-17 Steven J Duby examines the doctrine of divine simplicity This discussion is centered around the three distinguishing features grounding in biblical exegesis use of Thomas Aquinas and the Reformed Orthodox and the writings of modern systematic and philosophical theologians Duby outlines the general history of the Christian doctrine of divine simplicity and discusses the methodological traits and essential contents of the dogmatic account He substantiates the claims of the doctrine of divine simplicity by demonstrating that they are implied and required by the scriptural account of God Duby considers how simplicity is inferred from God's singularity and aseity as well as how it is inferred from God's immutability and infinity and the Christian doctrine of creation The discussion ends with the response to major objections to simplicity namely that the doctrine does not pay heed to the plurality of the divine attributes that it eradicates God's freedom in creating the world and acting toward us and that it does not cohere with the personal distinctions to be made in the doctrine of the Trinity Fashion History Linda Welters, Abby Lillethun, 2018-02-08 Fashion History A Global View proposes a new perspective on fashion history Arguing that fashion has occurred in cultures beyond the West throughout history this groundbreaking book explores the geographic places and historical spaces that have been largely neglected by contemporary fashion studies bringing them together for the first time Reversing the dominant narrative that privileges Western Europe in the history of dress Welters and Lillethun adopt a cross cultural approach to explore a vast array of cultures around the globe They explore key issues affecting fashion systems ranging from innovation production and consumption to identity formation and the effects of colonization Case studies include the cross cultural trade of silk textiles in Central Asia the indigenous dress of the Americas and of Hawai'i the cosmetics of the Tang Dynasty in China and stylistic innovation in sub Saharan Africa Examining the new lessons that can be deciphered from archaeological findings and theoretical advancements the book shows that fashion history should be understood as a global phenomenon originating well before and beyond the

fourteenth century European court which is continually and erroneously cited as fashion's birthplace Providing a fresh framework for fashion history scholarship Fashion History A Global View will inspire inclusive dress narratives for students and scholars of fashion anthropology and cultural studies
