White People, Indians, and Highlanders Colin G. Calloway, 2008-07-03 In nineteenth century paintings the proud Indian warrior and the Scottish Highland chief appear in similar ways colorful and wild righteous and warlike the last of their kind Earlier accounts depict both as barbarians lacking in culture and in need of civilization By the nineteenth century intermarriage and cultural contact between the two described during the Seven Years War as cousins was such that Cree Mohawk Cherokee and Salish were often spoken with Gaelic accents In this imaginative work of imperial and tribal history Colin Calloway examines why these two seemingly wildly disparate groups appear to have so much in common Both Highland clans and Native American societies underwent parallel experiences on the peripheries of Britain's empire and often encountered one another on the frontier Indeed Highlanders and American Indians fought traded and lived together Both groups were treated as tribal peoples remnants of a barbaric past and eventually forced from their ancestral lands as their traditional food sources cattle in the Highlands and bison on the Great Plains were decimated to make way for livestock farming In a familiar pattern the cultures that conquered them would later romanticize the very ways of life they had destroyed White People Indians and Highlanders illustrates how these groups alternately resisted and accommodated the cultural and economic assault of colonialism before their eventual dispossession during the Highland Clearances and Indian Removals What emerges is a finely drawn portrait of how indigenous peoples with their own rich identities experienced cultural change economic transformation and demographic dislocation amidst the growing power of the British and American empires

Structure and Development of the Greenland-Scotland Ridge Martin H. P. Bott, Svend Saxov, Manik Talwani, Jörn Thiede, 2013-11-11 A group of geoscientists from a number of NATO countries met under NATO sponsorship in Copenhagen on February 27 and 28 1978 and formulated a proposal entitled EVOLUTION OF THE GREENLAND ICELAND FAEROE SCOTLAND RIDGE A KEY AREA IN MARINE GEOSCIENCE This part of the North Atlantic Ocean is of particular interest because of its anomalously shallow bathymetry which has profoundly influenced many aspects of the evolution of the North Atlantic The proposed investigations therefore aim to study the deep crustal structure including relationship of continental and oceanic crust history of subsidence of the ridge including its past role as a land bridge age of the oceanic basement along it and its history of formation and the influence of the ridge on Tertiary and Quaternary depositional palaeoenvironments In furtherance of this proposal it is intended to carry out a series of seismic and drilling operations on the Ridge during the

coming years These major marine investigations will be mainly funded from national sources An important preliminary stage to the project is the collection and synthesis of available data NATO has already approved a small budget for this purpose which has enabled a geoscientist to work partly at the Department of Geological Sciences of Durham University UK and partly at Lamont Doherty Geological Observatory of Columbia University Palisades USA for about six months to compile the data The most important map showing magnetic anomalies and lineations in the area is included in a pocket at the back of this volume

The complete island guide for South Uist (Scotland - United Kingdom) YouGuide Ltd, **Hollywood or History?** Scott L. Roberts, Charles J. Elfer, 2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses are a part of many if not most K 12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students' lives not just temporally but often geographically and culturally Thus the rationale for the present text **Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History** The reviews of the first volume **Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History** strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the **Hollywood or History** strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students' connection to film along with teachers' ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans grades 6-12 that address nine eras in world history
