Scottish Society 1707 1830:

Scottish Society, 1707-1830 Christopher A. Whatley, 2000 This book challenges conventional wisdom and provides new insights into Scottish social and economic history Christopher A Whatley argues that the Union of 1707 was vital for Scottish success but in ways which have hitherto been overlooked He proposes that the central place of Jacobitism in the historiography of the period should be revised Comprehensive in its coverage the book is based not only on an exhaustive reading of secondary material but also incorporates a wealth of new evidence from previously little used or unused primary sources

Police in the Age of Improvement David Barrie, 2008-05-01 The study of police history in Scotland has largely been neglected Little is known about the Scottish police s origins development and character despite growing interest in the machinery of law enforcement in other parts of the United Kingdom This book seeks to remedy this deficiency Based on extensive archival research its central aim is to provide an in depth analysis of the economic social intellectual and political factors that shaped police reform development and policy in Scottish burghs during the Age of Improvement The key issues addressed include the workings of traditional forms of law enforcement and why these were increasingly deemed to be unsuitable by the late eighteenth and early nineteenth centuries why and in what ways the pattern nature and origins of police development in urban Scotland differed from elsewhere in Britain in what ways the Scottish police model compared and contrasted with other British models the impact of police reform on urban governance and the struggle between social groups for control of the local state the concerns and priorities behind police policy In addressing these questions Police in the Age of Improvement moves beyond many of the problem response interpretations which have preoccupied many police historians

and locates reform within the wider contexts of urban improvement municipal administration and Scottish Enlightenment thought It will be essential reading for anyone interested in the history of policing urban management and social change in the late eighteenth and nineteenth centuries *The Radical War of 1820* David M. post Culloden decades This ground breaking study reveals some radical differences from trends across the rest of the Highlands Foremost was the role of the indigenous entrepreneurial tacksmen in driving the rapidly growing commercial economy as cattle graziers drovers and agricultural improvers inevitably provoking confrontation with the absentee and ostentatious Dukes of Gordon Meanwhile the common people still operated within a subsistence farming economy heavily dependent on a surprisingly sophisticated use of their mountain environment Though suffering great hardship they too were quick to exploit any potential commercial opportunities Economic forces social ambition and post Culloden legislation created intolerable pressures within the old clan hierarchy as Duke tacksmen and erstwhile clansmen tried to forge their individual and often irreconcilable destinies in a rapidly changing world In doing so all were increasingly drawn into the wider and often lucrative dimensions of British state and empire
