**White House Conference on the Humanities** United States. Congress. House. Committee on Education and Labor. Subcommittee on Select Education, 1978 **Crime-Terror Nexus in South Asia** Ryan Clarke, 2011-04-12 This book examines the crime terror nexus in South Asia focusing in particular on the activities of non state actors that operate out of Pakistan and challenges the conventional wisdom that the Pakistan Taliban TTP and Al Qaeda are Pakistan's most serious security threats Much research has focused on the policies of India and Pakistan towards Kashmir But surprisingly little attention has been paid to several notable Pakistan based non state actors who are increasingly operating on their own and who have the potential to greatly inhibit if not derail the peace process there These groups blur the line between terrorism and organized crime with serious implications for policy in the region India and Pakistan can engage in confidence building measures but if criminal actors such as Lashkar i Taiba LeT and D Company cannot effectively be controlled a lack of trust between both sides will remain Although the role of regular military forces is not to be discounted many of the non state actors in Indian Held Kashmir such as LeT are not confined by the same restraints as state forces thus allowing them engage in more violent actions without fear of reprisal In order for lawmakers

security personnel and others to develop sound comprehensive policies these forces and their potential to undermine political initiatives must be fully appreciated This book explores the dynamics of the relationship between Pakistan D Company and LeT and how it affects strategic thought decision making and security interests in the region and explains the triangular relationships between states terrorist groups and organized criminal syndicates in general and in India and Pakistan in particular This book will of much interest to students of South Asian politics terrorism organised crime war and conflict studies and Security Studies in general      **Managing the Return of the Wild** Michaela Fenske, Bernhard

Hoffman, Thomas G. Weiss, 2006-03-03 Arguing forcefully that changing times are a clarion call for new thinking this book convincingly shows that if humanitarian organizations continue to operate as they have in the past they will fail to help the very victims whom they try to save Focusing especially on the emergence of new wars Hoffman and Weiss insist that humanitarian organizations must recognize that they live in a political world and that their actions and goals are invariably affected by military action The brand of warfare that erupted in the 1990s marked by civil or transnational armed conflicts featuring potent non state actors altered political economies a high proportion of civilian casualties and a globalized media produced horrors that shocked consciences and led humanitarian agencies to question their unyielding stance of neutrality and impartiality Indeed in a departure from earlier norms and practices some have reinvented their policies and tools and created new humanitarianisms This authoritative book traces the evolution of the international humanitarian system from its inception in the 1860s parses the dynamics of war and emergency response from the 1980s through the current disasters in Afghanistan and Iraq and provides a strategic roadmap for practitioners By bringing historical perspective to bear this volume provides an invaluable analytical framework for grasping the nature of humanitarian crises and how agencies can

respond strategically rather than reactively to change Students will find its blend of clearly presented theory and case studies a powerful tool for understanding the roles of state and non state actors in international relations By charting the tides of continuity and change this book will prepare agencies to dodge both figurative and actual bullets that threaten humanitarian action at the outset of the millennium **Your Pretty Face Is Going to Hell** Dave Thompson,2009-10-01
