Scheg, 2016-04-15 Teaching any subject in a digital venue must be more than simply an upload of the face to face classroom and requires more flexibility than the typical learning management system affords. *Applied Pedagogies* examines the pedagogical practices employed by successful writing instructors in digital classrooms at a variety of institutions and provides research grounded approaches to online writing instruction. This is a practical text providing ways to employ the best instructional strategies possible for today's diverse and dynamic digital writing courses. Organized into three sections: Course Conceptualization and Support, Fostering Student Engagement, and MOOCs, chapters explore principles of rhetorically savvy writing crossed with examples of effective digital teaching contexts and genres of digital text. Contributors consider not only pedagogy but also the demographics of online students and the special constraints of the online environments for common writing assignments. The scope of online learning and its place within higher education is continually evolving. *Applied Pedagogies* offers tools for the online writing classrooms of today and anticipates the needs of students in digital contexts yet to come. This book is a valuable resource for established and emerging writing instructors as they continue to transition to the digital learning environment. Contributors: Kristine L. Blair, Jessie C. Borgman, Mary Lynn Chambers, Katherine Ericsson, Chris Friend, Tamara Girardi, Heidi Skurat Harris, Kimberley M. Holloway, Angela Laflen, Leni Marshall, Sean Michael Morris, Danielle Nielsen, Dani Nier Weber, Daniel Ruefman, Abigail G. Scheg, Jesse Stommel. Electronic Literacies Mark Warschauer, 1998-11-01 *Electronic Literacies* is an insightful study of the challenges and contradictions that arise as culturally and linguistically diverse learners engage in new language and literacy practices in online environments. The role of the Internet in changing literacy and education has been a topic of much speculation but very little concrete research. This book is one of the first attempts to document the role of the Internet and other new digital technologies in the development of language and literacy. Warschauer looks at how the nature of reading and writing is changing and how those changes are being addressed in the classroom. His focus is on the experiences of culturally and linguistically diverse learners who are at special risk of being marginalized from the information society. Based on a two year ethnographic study of the uses of the Internet in four language and writing classrooms in the state of Hawaii: a Hawaiian language class of Native Hawaiian students seeking to revitalize their language and culture, an ESL class of students from Pacific Island and Latin American countries, an ESL class of students from Asian countries, and an English composition class of working class students from diverse ethnic backgrounds, the book includes data from interviews with students and teachers, classroom observations, and analysis of student texts. This rich ethnographic data is combined with theories from a broad range of disciplines to develop conclusions about the relationship of technology to language literacy education and culture. Central to Warschauer's discussion and conclusions is how contradictions of language culture and class affect the impact of Internet based education. While Hawaii is a special place, the issues confronted here are similar in many ways to those that exist throughout the United States and many other countries. How to provide culturally and linguistically diverse students traditionally on the educational

and technological margins with the literacies they need to fully participate in public community and economic life in the 21st century The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Create, Compose, Connect!* Jeremy Hyler, Troy Hicks, 2014-04-16 Find out how to incorporate digital tools into your English language arts class to improve students reading writing listening and speaking skills Authors Jeremy Hyler and Troy Hicks show you that technology is not just about making a lesson engaging it's about helping students become effective creators and consumers of information in today's fast paced world You'll learn how to use mobile technologies to teach narrative informational and argument writing as well as visual literacy and multimodal research Each chapter is filled with exciting lesson plans and tech tool suggestions that you can take back to your own classroom immediately See Jeremy Hyler's TEDx <https://www.youtube.com/watch?v=WHtXIjvSSAA>

Virtual Mentoring for K-12 Literacy Instruction Paula Saine, 2018-10-12 There is no research based text that provides a model for teaching and learning in a virtual environment with literacy learners Therefore this book will focus on preparing challenging students to be successful independent learners for the twenty first century This will involve one where students are constructing their own meaning not only within the traditional brick and mortar environment with the assistance of the classroom teacher but also in an online environment scaffolded by a virtual tutor Today virtual environments are a common alternative space for students in K-12 to engage in meaningful online literacy learning with their tutors Boxie 2004 Hurst 2007 Williams Witte 2007

Literacy Online Myron C. Tuman, 1992 In the midst of ideological debates in the 1980s concerning literacy an entirely different kind of revolution in the practice of literacy was occurring Everyone students teachers authors and their readers was starting to use computers to compose texts The very notions of reading and writing were being altered with the use of online library catalogues computer databases and electronic mail With access to laser printing and desktop publishing software writers were also able to control not only what they said but how it looked

Handbook of Research on Digital Tools for Writing Instruction in K-12 Settings Anderson, Rebecca S., Mims, Cliff, 2014-04-30 More emphasis is being placed on writing instruction in K-12 schools than ever before With the growing number of digital tools in the classroom it is important that K-12 teachers learn how to use these tools to effectively teach writing in all content areas The Handbook of Research on Digital Tools for Writing Instruction in K-12 Settings will provide research about how students use digital tools to write both in and out of school settings as well as discuss issues and concerns related to the use of these learning methods This publication is beneficial to educators professionals and researchers working in the field of K-12 and teacher education
