the philosopher Eric Schwitzgebel is not that exposure to black and white media made people misremember their dreams It is that we simply don't know whether or not we dream in color In *Perplexities of Consciousness* Schwitzgebel examines various aspects of inner life dreams mental imagery emotions and other subjective phenomena and argues that we know very little about our stream of conscious experience Drawing broadly from historical and recent philosophy and psychology to examine such topics as visual perspective and the unreliability of introspection Schwitzgebel finds us singularly inept in our judgments about conscious experience
