Freak Show Legacies Gary S. Cross,2021-05-06 Society has long been fascinated with the freakish shocking and strange In this book Gary Cross shows how freakish elements have been embedded in modern popular culture over the course of the 20th century despite the evident disenchantment with this once widespread cultural outlet Exploring how the spectacle of freakishness conflicted with genteel culture he shows how the condemnation of the freak show by middle class America led to a transformation and merging of genteel and freak culture through the cute the camp and the creepy Though the carnival and circus freak was marginalised by the 1960s and had largely disappeared by the 1980s forms of freakish culture survived and today appear in reality TV horror movies dark comedies and the popularity of tattoos Freak Show Legacies will focus less on the individual freak as the other in society and more on the audience for the freakish and the transformation of wonder sensibility and sensitivity that this phenomenon entailed It will use the phenomenon of the freak to understand the transformation of American popular culture across the 20th century identify elements of the freak in popular culture both past and present and ask how it has prevailed despite its apparent unpopularity

claimant's responsibility to provide the extraordinary proof required in such extraordinary cases. *Adventures in Paranormal Investigation* features Nickell's on-site explorations in unusual phenomena. Among the forty unique cases, Nickell examines mysteries ranging from snake charmers who purport to hold influence over the reptiles to the Holocaust victims who reportedly haunt a gas chamber in Dachau to Lake Simcoe's resident lake monster, Igopogo in Canada. In addition to the case studies, Nickell analyzes how the propensity to fantasize can affect human perceptions of and belief in paranormal activity and how his personal experience with the paranormal was altered when intuition led to the discovery of a daughter he didn't know existed. More than just another myth-busting text, *Adventures in Paranormal Investigation* brings together reason and scientific analyses to explain both the phenomena and the role of human perception therein, establishing Nickell as the foremost paranormal investigator of our time.

Canadian Carnival Freaks and the Extraordinary Body, 1900-1970s
Jane Nicholas, 2018-05-04. In 1973, a five-year-old girl known as Pookie was exhibited as The Monkey Girl at the Canadian National Exhibition. Pookie was the last of a number of children exhibited as freaks in twentieth-century Canada. Jane Nicholas takes us on a search for answers about how and why the freak show persisted into the 1970s. In *Canadian Carnival Freaks and the Extraordinary Body, 1900-1970s*, Nicholas offers a sophisticated analysis of the place of the freak show in twentieth-century culture. Freak shows survived and thrived because of their flexible business model, government support, and by mobilizing cultural and medical ideas of the body and normalcy. This book is the first full-length study of the freak show in Canada and is a significant contribution to our understanding of the history of Canadian popular culture, attitudes toward children, and the social construction of able-bodiedness. Based on an impressive research foundation, the book will be of particular interest to anyone interested in the history of disability, the history of childhood, and the history of consumer culture.

Attack of the Killer Facts!
Eric Gryzymkowski, 2011-04-18. Factoid Attack: Inherent sadistic streak in dentists confirmed. The electric chair was invented by a dentist, Dr. Alfred Southwick. Not surprising, dentists have been perfecting torture devices for centuries. Factoid Attack: Galaxy at risk. Intelligent life in short supply. In 1961, astronomer Frank Drake estimated the number of probable intelligent civilizations inhabiting our galaxy. Using conservative numbers, that estimate came to 10,000. Unfortunately, we are not included in that total. Factoid Attack: Colorblind bulls hate all matadors equally. The color of a matador's cape or muleta is traditionally red, which is widely believed to irritate the bull. In reality, bulls are colorblind, so it is irrelevant what color cape a matador uses to antagonize them. Shot in the dark, but maybe it's the being stabbed with swords that pisses them off. Forget Fringe Warehouse 13 and The X-Files. In this book, you'll find more weird and wacky truths than in all those combined. From golden poison dart frogs with enough venom to kill ten grown humans to cockroaches that can survive radiation 15 times stronger than what kills people, scary and strange just got scarier and stranger.
