discusses her techniques for world predictions including her prediction of Japan's catastrophic earthquake before it occurred March 11 2011 There is an explanation of the grand cycles siphoning down to the smaller cycles for the specific timing of these events There are cycles within cycles of the planetary patterns in the heavens It ranges from the grand cycle of Precession of the Equinoxes to the cycles of the outer planets cycle of Saturn and Jupiter Rahu and Ketu eclipses retrograde planets and the cycles of the faster planets Mars Venus and Mercury But the most specific timer that predicts down to the day is seen through the Moon The second part of the book breaks down the incredible predictive power of Vedic astrology using the nakshatras and how they determine the cycles of a person's life This complicated system of prediction used in Vedic astrology is broken down to a step by step system that can be understood by even a novice To bring home the predictive value and accuracy of this system Joni explores the well documented lives of the Kennedy family Beginning with Joseph Kennedy Sr through the trials and tribulations of the tragic deaths of his children to the traumas of Jacqueline Kennedy Onassis John Kennedy Jr and Caroline Kennedy Through the scandals and affairs you will come to glean the insights of a soul through the prediction of astrology From beginning to end of this compilation of essential tools for prediction you will come to appreciate the power and insights of astrology With this surfaces the sense of destiny and free will Coming back full circle to November 1963 arises the age old question concerning fate and free will Could this be avoided with information ahead of time What if President Kennedy listened to Jeane Dixon This has haunted Dallas astrologer Joni Patry her entire life as she delved into understanding the cyclic process of humankind and the Universe through the profound study of astrology

*Astrological Secrets of the Decans* Sifa Avcin,2014-03      How to Predict Your Future James T. Braha,1995 How to use the vishotri dasa system the predictive method that allows startlingly accurate predictions about periods in a person's life Publisher description      **MUNDANE STELLAR ASTROLOGY: The ancient science of Hermes on the secret**

**connections between the stars and their reflections on earthly beings and events** GIACOMO ALBANO,2021-08-25 The techniques of mundane astrology inherited from tradition are not the most suitable for explaining and predicting events as in reality they only capture the last links in the chain of celestial causes that underlie them In fact the primary causes of all events always and only reside in the Eighth Sphere that is in the sky of the constellations and fixed stars In this book the Stellar Astrology techniques are developed and applied to the real prediction of world events but also to natal charts Heaven and the stars that populate it are living beings The various parts of the starry sky constellations parts of constellations

asterisms and single stars are not isolated but communicate with each other and therefore must be conceived as parts of a community similarly to the relations between men who live on this earth Indeed our communities and our earthly bonds are nothing but the reflection and manifestation of these celestial bonds And just as happens between men and between specific groups of men between some of these parts of the sky there are privileged relationships This book explains which are the astronomical and astrological factors that highlight these ties of kinship thus also indicating the existence of similar relations existing between the things of the world linked to those stars It is a real science based on rigorous criteria and in this book it is illustrated by providing the student with a general method that he can then apply to any person thing or event he intends to study in depth It will be seen how the identification of these stellar links is also essential for correctly interpreting a birth chart Only in this way astrology becomes what it should always be that is the sapiential matter par excellence as the only one capable of explaining and demonstrating the true nature and origin of earthly reality     The O.B.
