## **Sectarianism Analysis Of Religious And Non Religious Sects:**

Sectarianism Roy Wallis, 1975 One of the more extraordinary trends to have emerged in the West in the 1970s and one that has created considerable interest and curiosity particularly among sociologists is the proliferation of new religious sects. Their followers are often young people disenchanted with the drug culture but seeking a new spirituality in an intensely materialistic society. Sectarianism is a collection of essays studying this development. Edited by Roy Wallis, Lecturer in Sociology at the University of Stirling, it is written by leading sociologists from Britain, Canada and the USA and covers a wide range of sectarian movements in both the religious and the secular domains. Included are case studies of The Aetherius Society, a flying saucer cult, the Hare Krishna movement, the Jehovah's Witnesses and the United Family, an investigation of societal reaction to Scientology and a fascinating study contrasting modern communitarian movements with the Shakers, a once flourishing communitarian sect in the USA. In the secular domain, the book investigates organizations that though nonreligious exhibit characteristics of religious sects. These include the Concept Houses, one of the latest methods for rehabilitating drug addicts; two contemporary left wing political groups; and two ex-patient therapeutic groups, Neurotics Nomine and Recovery Inc. Sectarianism will be indispensable to the sociologists of religion; it should also prove of immense interest to the layman wishing to deepen his knowledge of this phenomenon beyond the superficial and often hysterical reporting in the press. Publisher: Sectarianism in Early Judaism David J. Chalcraft, 2014-12-05 Sectarianism in Early Judaism applies recent developments in sociological analysis to sect formation and development in early Judaism. The essays examine sectarianism in a wide range of different forms: the many layers of redaction in religious texts; the development arcs of sectarian groups; the role of sectarianism across Jewish history as well as in the time of the Second Temple and the relations within and between sects and between sects and wider society. The book aims to establish a conceptual framework for the analysis of sects and in doing so makes particular use of the work of Max Weber and Bryan Wilson, exploring the limits of their typologies and sociological theories. Sects and Sectarianism in Jewish History Sacha Stern, 2011-04-21 Several Jewish groups from Antiquity until today have been traditionally identified as sects or as sectarian, most famously the Qumran community and the Qaraites. This volume questions the appropriateness of this interpretation of social and religious movements in Jewish history. The Oxford Handbook of the Dead Sea Scrolls Timothy H. Lim, John J. Collins, 2012-10-11 In 1946 the first of the Dead Sea Scroll discoveries was made near the site of Qumran at the northern end of the Dead Sea. Despite the much publicized delays in the publication and editing of the Scrolls, practically all of them had been made public by the time of the fiftieth anniversary of the first discovery. That occasion was marked by a spate of major publications that attempted to sum up the state of scholarship at the end of the twentieth century, including The Encyclopedia of the Dead Sea Scrolls OUP 2000. These publications produced an authoritative synthesis to which the majority of scholars in the field subscribed, granted disagreements in detail. A decade or so later The Oxford Handbook of the Dead Sea Scrolls has a different

objective and character It seeks to probe the main disputed issues in the study of the Scrolls Lively debate continues over the archaeology and history of the site the nature and identity of the sect and its relation to the broader world of Second Temple Judaism and to later Jewish and Christian tradition It is the Handbook s intention here to reflect on diverse opinions and viewpoints highlight the points of disagreement and point to promising directions for future research **The Sociology of Religion**
