Secular Christ A Contemporary Interpretation Of Jesus:

Secular Christ John J. Vincent, 1968 **Radical Disciple** Ian K. Duffield, Robert P. Hoch-Yidokodilona, 2025-08-14 In Radical Disciple readers will be introduced to John Vincent's work by way of those who knew him best: students, friends, and colleagues. Each tells a story or offers a kind of testament, and all as John would put it. In John Vincent's thinking, this is a serious kind of book; it relays the facts without missing the many splendored things. So along with the facts, readers will find the dramatic, amusing, serious, and anecdotal. Most importantly, they will find a living testament to John Vincent's vision of radical urban theology and discipleship.

Voices from the Borderland Chris Shannahan, 2016-04-01 Urban theology affirms the importance of context, notably the place of the city in theological reflection. However, it has often been confined to particular contexts or theological camps and thus failed to engage with the fluidity of contemporary urban societies. *Voices from the Borderland* presents an overview of urban theology, arguing that the twenty-first century demands a dialogical model of theology that enacts progressive change. The volume draws on studies of the multicultural and multi-faith British urban experience and situates these within the wider international context. The works of influential theologians in the field are examined, and the dialogue between theology, globalisation, post-colonialism, postmodernism, and post-religious urban culture critically explored. The volume is unique in bringing together urban liberation theology, urban black theology, reformist urban theology, globalisation, urban theology, and post-religious urban theology.

Building a People of Power Robert C. Linthicum, 2015-09-15 Jesus never intended the church to become an institution; he intended it to be a people of power transforming the world. Power is the capacity, ability, and the willingness to act. Most people and systems use power to dominate and control, but others have used it relationally to liberate, transform, and even save. Built around a biblical exploration of shalom, *Building a People of Power* explains how local churches can use power to transform their communities and their cities. Detailed power strategies are presented, enabling churches to build productive relationships to address the primary issues of the people they serve and to develop strong leaders, faithful organizations, and redeemed neighborhoods that live out shalom.

The Human Face of God John Arthur Thomas Robinson, 1973 From the author of *Honest to God* and *The Priority of John*.

Contemporary Theology: An Introduction, Revised Edition Kirk R. MacGregor, 2020-07-28 Accessible and comprehensive, *Contemporary Theology: An Introduction* by professor and author Kirk R. MacGregor provides a chronological survey of the major thinkers and schools of thought in modern theology in a manner that is both approachable and intriguing. Unique among introductions to contemporary theology, MacGregor includes Evangelical perspectives alongside mainline and liberal developments. The influence of philosophy and the recent Christian philosophical renaissance on theology, global contributions, recent developments in exegetical theology, the implications of theological shifts on ethics and church life—*Contemporary Theology: An Introduction* is noteworthy for making complex thought understandable and for tracing the landscape of modern theology in a well-organized and easy-to-follow manner. Theological Book List 1971 Theological Education Fund, 1971 *Christ Actually* James Carroll, 2014-11-13 A New York Times bestselling and widely admired Catholic writer explores how we can retrieve transcendent faith in modern times Critically acclaimed and bestselling author James Carroll has explored every aspect of Christianity faith and Jesus Christ except this central one What can we believe about and how can we believe in Jesus in the twenty first century in light of the Holocaust and other atrocities of the twentieth century and the drift from religion that followed What Carroll has discovered through decades of writing and lecturing is that he is far from alone in clinging to a received memory of Jesus that separates him from his crucial identity as a Jew and therefore as a human Yet if Jesus was not taken as divine he would be of no interest to us What can that mean now Paradoxically the key is his permanent Jewishness No Christian himself Jesus actually transcends Christianity Drawing on both a wide range of scholarship as well as his own acute searching as a believer Carroll takes a fresh look at the most familiar narratives of all Matthew Mark Luke and John Far from another book about the historical Jesus he takes the challenges of science and contemporary philosophy seriously He retrieves the power of Jesus profound ordinariness as an answer to his own last question what is the future of Jesus Christ as the key to a renewal of faith

Contemporary Authors Hal May, James Lesniak, 1989 This volume of Contemporary Authors R New Revision Series brings you up to date information on approximately 250 writers Editors have scoured dozens of leading journals magazines newspapers and online sources in search of the latest news and criticism Writers appearing in this volume include Elizabeth Bishop Erica Jong Jack Kerouac Roger Zelazny **The Theology of Wolfhart Pannenberg** Carl E. Braaten, Philip Clayton, 2016-07-30 How deep has Pannenberg's influence been on American theology Which particular ideas or themes from his work have been most pervasive to American thinkers and which have encountered the greatest resistance What implications does his work have beyond explicitly theological contexts e.g. for philosophy ethics environmental concerns political action and the natural sciences What new forms have his ideas taken as they have been adapted to fit the very different context of American theology The authors of the twelve critiques in this volume represent a broad cross section of American thought on religion The essays cover virtually all of the major areas in which Pannenberg has published An introductory survey provides a comprehensive overview of the critical literature on Pannenberg from the early 1960s to 1986 Together the essays represent an accurate barometer of the influence Pannenberg has had in America as well as the sorts of reservations that the English speaking world brings to his work It has now been many years since Pannenberg's first visit to the United States At that time the discussion with Pannenberg focused on the radically historical character of his proposal for theology centering around revelation and resurrection In the meantime Pannenberg's thought has expanded almost encyclopedically into most of the major disciplines studied in a modern university Without doubt the most comprehensive theologian at work today his place in the history of twentieth century theology is well assured Evangelical Dictionary of Theology (Baker Reference Library) Walter A. Elwell, 2001-05-01 Fifteen years after its original publication comes a

thoroughly revised edition of the Evangelical Dictionary of Theology Every article from the original edition has been revisited With some articles being removed others revised and many new articles added the result is a completely new dictionary covering systematic historical and philosophical theology as well as theological ethics **Companion Encyclopedia of Theology** Peter Byrne, Leslie Houlden, Rev Prof Leslie Houlden, 2002-09-11 In 48 separately authored self contained articles by an international team of both Christian and Jewish theologians and practitioners this Companion provides a thorough examination of the place of Christianity in the modern world **Understanding Bonhoeffer** Peter Frick, 2017-05-23 How are we to understand Bonhoeffer In these essays Peter Frick attempts to answer this question by examining different aspects of Bonhoeffer s thought thus illuminating the hermeneutical philosophical theological and social dimensions of his writings All sixteen essays collected here were written between 2007 and 2014 some of them address the question of methodology others contribute to Bonhoeffer s intellectual formation and still others seek to connect with contemporary questions The aim of the volume is to present Bonhoeffer s key theological and philosophical ideas and to emphasize their contemporary relevance The New Testament and Its Modern Interpreters Eldon Jay Epp, George W. MacRae, 1989 The Secular as Methodology Robert L. Montgomery, 2018-08-14 Secularization is a process that has been taking place throughout the world but especially in the West It refers to limitations of various types to religious thoughts activities ownership and power but does not necessarily mean limitation on religious freedom Because of this contested double effect secularization is perceived both negatively and positively I propose that the secular be viewed primarily as a methodology in various areas of life beginning most clearly with science but extending to many other areas of thought and activity When this is done I believe people then have the clear option to apply their faith to all of their thought and action and at the same time to allow for correction and improvement to their thought and action These corrections and improvements will be debated but in the end for Christians they are dependent on interpretations of the Bible Furthermore I believe the broad result for all people is to clarify the choice to believe in God or rather that we are chosen by God revealed in the Bible who is seeking to have fellowship with us **Interpreting the Parables** Craig L. Blomberg, 2012-07-16 Craig Blomberg surveys the contemporary critical approaches to the parables including those that have emerged in the twenty years since the first edition This widely used text has taken a minority perspective and made it mainstream with Blomberg ably defending a limited allegorical approach and offering brief interpretations of all the major parables *Major Themes in the Reformed Tradition* Donald K. McKim, 1998-03-11 A compilation of thirty seven essays outlining and exemplifying Reformed views on the major Christian doctrines and practices As editor Donald McKim notes this volume constitutes the only substantial theological reference tool for studying the major emphases of Reformed theology *M.M. Thomas's Secular Commentaries on Scripture* Thomas Philip, 2025-08-18 This book investigates M M Thomas s biblical commentaries and their unique position at the intersection of religion and society It explores how Thomas inspired in part by Bonhoeffer s religionless Christianity adapted Western

theological ideas and transformed them to reflect the social political and religious complexities of his own pluralistic context By examining these commentaries the book offers a fresh perspective on how Thomas engaged with the dynamic relationship between faith and society It also contributes a new dimension to the study of Indian Christianity marking the first in depth study of Thomas s secular biblical commentaries This book provides a pioneering contribution to the field of the study of Indian Christianity and the study of non Western contextual theologies It enriches the growing literature on biblical hermeneutics by offering new insights into how scripture can be interpreted in diverse cultural and political contexts By focusing on Thomas s unique theological approach this work not only enhances our understanding of Indian Christian thought but also broadens the scope of contemporary theological studies particularly within the global South It invites readers to consider how the intersection of theology and society shapes religious thought in pluralistic settings This book is intended for scholars graduate students and those involved in church studies as well as anyone interested in contextual theology and hermeneutics It is especially relevant for readers keen on understanding Indian Christianity and exploring how theology interacts with the social and political issues present in non Western contexts The book will appeal to those looking to deepen their understanding of how faith adapts to and engages with the complexities of modern society Mormonism in Dialogue with Contemporary Christian Theologies David Lamont Paulsen,Donald W. Musser,2007 This volume brings together for the first time a broad range of scholars from Mormon and other Christian traditions Replacing polemics and apologetics with dialogue these exchanges show how the full spectrum of contemporary theologies can be informed by uniquely Mormon ideas and correlatively how Mormon thought can be illuminated through the study of key ideas of the foremost theologians of the twentieth and twenty first centuries **The Christian Doctrine of the Church, Faith, and the Consummation** Emil Brunner,2014-10-10 Emil Brunner 1889 1966 was the most widely read theologian in the English speaking world throughout the mid twentieth century Brunner was Professor of Systematic and Practical Theology at the University of Zurich from 1924 55 His key works The Mediator The Divine Imperative and Man in Revolt were standard texts for Protestant seminaries for decades
