Basedow,Toshiyuki Kono,2000-01-26 The phenomenon of increased interconnectedness of the world s societies generally referred to as globalisation is not only changing our everyday life it also influences the legal framework we are living in The challenges brought about by this process are especially great in fields of law which are by their very nature international such as Private International Law the Law of Capital Markets International Insolvency Law or the Law of the Internet Can for example established conflict of law rules survive in a globalised world What options exist for regulating capital markets in the era of globalisation Are national laws on international insolvencies prepared for the increasing number of cross border insolvency proceedings or does the UNCITRAL Model Law on Cross Border Insolvency show the way How can national or international legislators react to the new forms of torts and copyright infringements via the World Wide Web These are some of the questions which eminent scholars from Japan and Germany try to answer in this volume All essays are based on contributions to a symposium which took place in Fukuoka Japan on 28 29 March 1999 Regulating Investor Protection under EU Law Antonio Marcacci,2018-06-27 This book analyzes the legal system for the protection of retail investors under the European Union law of investment services It identifies the regulatory leitmotiv driving the EU lawmaker and ascertains

whether and to what extent such a system is self sufficient using a set of EU made and EU enforced rules that is essentially different and autonomous from the domestic legal orders In this regard the book takes a double perspective comparative and intra firm Given the federal dimension of the US legal system and thus the role model it plays vis vis the EU the book compares the two systems To fully highlight the existing gaps and measure how self sufficient the EU system is against its American counterpart the Union Federal level as such is analyzed i e detached from the national in EU terms and State in US terms level Regulating Investor Protection under EU Law also showcases the unique intra firm perspective from a European investment firm and analyzes how EU produced public law rules become a set of compliance requirements for investment services providers This within the firm angle gauges the self sufficiency of the EU system of retail investor protection from the standpoint of an EU regulated entity The book is intended for both compliance professionals and academic scholars interested in this topic while also including illustrative sections intended to provide a broader regulatory view for less experienced readers
