Corporate Security Management Marko Cabric, 2015-03-30 Corporate Security Management provides practical advice on efficiently and effectively protecting an organization's processes, tangible and intangible assets, and people. The book merges business and security perspectives to help transform this often conflicted relationship into a successful and sustainable partnership. It combines security doctrine, business priorities, and best practices to uniquely answer the Who, What, Where, Why, When, and How of corporate security. Corporate Security Management explores the diverse structures of security organizations in different industries. It shows the crucial corporate security competencies needed and demonstrates how they blend with the competencies of the entire organization. This book shows how to identify, understand, evaluate, and anticipate the specific risks that threaten enterprises and how to design successful protection strategies against them. It guides readers in developing a systematic approach to assessing, analyzing, planning, quantifying, administering, and measuring the security function. Addresses the often opposing objectives between the security department and the rest of the business concerning risk protection, outsourcing, and more. Shows security managers how to develop business acumen in a corporate security environment. Analyzes the management and communication skills needed for the corporate security manager. Focuses on simplicity, logic, and creativity instead of security technology. Shows the true challenges of performing security in a profit-oriented environment, suggesting ways to successfully overcome them. Illustrates the numerous security approaches and requirements in a wide variety of industries. Includes case studies, glossary, chapter objectives, discussion questions, and exercises.

Loss Prevention and Security Procedures Robert J. Fischer, Richard J. Janoski, 1999-12-13 This manual is intended to assist executive officers and loss prevention specialists in dealing with loss. While losses in an organization may originate from a variety of threats, including natural disasters, many assets are threatened by man in the forms of violence, theft, and fraud.
