Britain by Britrail 2012/13 LaVerne Ferguson-Kosinski, C. Darren Price, 2012-01-10 Readers will become their own tour guides and set their own paces with this book in hand It is the perfect traveling companion for unhurried comfortable and scenic train travel in Britain **British Rail** Tanya Jackson, 2013-10-01 British Rail was a success British Rail is a contentious company as controversial as Dr Beeching and his axe However this examination of BR's passenger services shows just how vital the organisation was It successfully carried millions of commuters to and from their jobs every day organised its trunk route services to yield a profit under the brand name Inter City and pioneered world beating research and technological development through its own research centre and engineering subsidiary It transformed the railway system of Britain from a post Second World War state of collapse into a modern technologically advanced railway And it did all this despite being starved of cash and being subjected to the whims of ever fickle politicians British Rail The Nation's Railway is a story expertly weaved by Tanya Jackson of how all this was achieved against the odds Complemented by stunning black and white and colour images this is certainly a volume that no rail enthusiast should be without *The Engineering Index* John Butler Johnson, Henry Harrison Supplee, Johannes H. Cuntz, Charles Buxton Going, 1901 **Spirit of Northern Rails** David Goodyear, 2024-04-30 This book endeavours to capture the very essence of the railways in the northern UK exploring in photographs their imprint upon the landscape Railways are illustrated as they traverse the bleak fells pass by traditional cotton mills and industrial heritage stride over iconic viaducts crossing vast windswept valleys and coastal estuaries and as they share the grandeur of iconic cathedrals of both religious and railway station designs while not forgetting the intricate network of canals intertwining with the rails that eventually carried the very traffic that kept these waterways in use Here is a personal selection which I trust helps explore all that characterises and reveals the moods and atmosphere which conjure the heart and Spirit of railways traversing our northern climes Locomotives train designs and liveries past and present will help recall the rails of the 1980's and 90's and offer an interesting contrast to the more modern images of the present millennium With a mix of traction and train fleets both in use on passenger and freight consists this selection of images reveals their participation in capturing the heart of railways in the north Readers are invited to share this fascinating adventure and indeed the inherent Northern Spirit which permeates throughout such a journey *A New History of British Documentary* J. Chapman, 2015-03-11 A New History of British Documentary is the first comprehensive overview of documentary production in Britain from early film to the present day It covers both the film and television industries and demonstrates how documentary practice has adapted to changing institutional and ideological contexts *Britain by BritRail* George Wright Ferguson, LaVerne Ferguson, 1989-12 **Shadow Sites** Kitty Hauser, 2007-03-29 At certain times of the day at sunrise and sunset the outlines of prehistoric fields barrows and hill forts in the British landscape may be thrown into relief Such shadow sites best seen from above and captured by an airborne camera are both examples of and metaphors

for a particular way of seeing the landscape At a time of rapid modernisation and urbanisation in mid twentieth century Britain an archaeological vision of the British landscape reassured and enchanted a number of writers artists photographers and film makers From John Piper Eric Ravilious and Shell guide books to photographs of bomb damage aerial archaeology and *The Wizard of Oz* Kitty Hauser delves into evocative interpretations of the landscape and looks at the affinities between photography as a medium to capture traces of the past as well as their absence
