Yorgason,2003-09-24 In the late nineteenth century the Mormon culture region of the American West was considered radical characterized by sexual immorality communalism and anti Americanism Today social conservatism marks the region How did this shift occur In this unique study Ethan R Yorgason foregrounds the concept of region and traces the conformist conservative trajectory that arose from intense moral and ideological clashes between Mormons and non Mormons from 1880 to 1920 Non Mormons worried that Mormons would establish an un American society in the West while Mormons feared for the very existence of their church An example of the new regional geography Yorgason s work treats culture as an arena of political struggle Looking through the lenses of regional geography history and cultural studies Yorgason investigates shifting moral orders relating to gender authority economic responsibility and national loyalty He particularly focuses on Mormon feminism communitarianism nationalism and home life *Transformation of the Mormon Culture Region* charts the cultural contradictions of both Mormons and non Mormons and how they were resolved over time by a progressive narrowing of the range of moral positions on gender in favor of Victorian gender relations the economy in favor of individual economics and the nation identifying with national power and might Mormons and non Mormons together constructed a regime of effective coexistence while retaining regional distinctiveness      **The Intelligence of Woman** Walter Lionel George,2019-12-04 In *The Intelligence of Woman* Walter Lionel George embarks on a bold intellectual journey challenging the prevailing notions of femininity and intellectual capacity in early 20th century society With a blend of rigorous analysis and evocative prose George explores the multifaceted nature of women s intelligence deftly weaving together historical context psychological insights and sociocultural critiques His work emerges as a significant contribution to feminist literature breaking new ground and seeking to elevate the discourse surrounding women s roles across various domains thereby illuminating their potential as both thinkers and creators Walter Lionel George a notable figure in the early feminist movement used his keen analytical skills to dissect the biases faced by women in academia and beyond His own experiences and observations shaped his understanding of gender dynamics propelling him to write this important work Drawing upon contemporary theories and philosophical frameworks George s background in literature and social sciences informs his compelling arguments about the undervalued intellectual contributions of women throughout history Readers interested in feminist thought social justice and gender studies will find *The Intelligence of Woman* to be an enlightening read This text not only serves as an intellectual provocation but also as a call to recognize and celebrate the intellectual capabilities of women making it essential for anyone seeking to broaden their understanding of gender issues and the ongoing struggle for equality      *Slang and Its Analogues Past and Present: Stra to Z* John Stephen Farmer,1904      *A Woman's Inheritance* Amanda Minnie Douglas,1885      **The Book of Woman's Power, with an Introdvction by Ida M.**

Lee Thayer**, 1911      Echo and Narcissus Amy Lawrence, 1991-07-23 Do women in classical Hollywood cinema ever truly speak for themselves In *Echo and Narcissus* Amy Lawrence examines eight classic films to show how women's speech is repeatedly constructed as a problem an affront to male authority This book expands feminist studies of the representation of women in film enabling us to see individual films in new ways and to ask new questions of other films Using *Sadie Thompson* 1928 *Blackmail* 1929 *Rain* 1932 *The Spiral Staircase* *Sorry Wrong Number* *Notorious* *Sunset Boulevard* 1950 and *To Kill a Mockingbird* 1962 Lawrence illustrates how women's voices are positioned within narratives that require their submission to patriarchal roles and how their attempts to speak provoke increasingly severe repression She also shows how women's natural ability to speak is interrupted made difficult or conditioned to a suffocating degree by sound technology itself Telephones phonographs voice overs and dubbing are foregrounded called upon to silence women and to restore the primacy of the image Unlike the usage of voice by feminist and literary critics to discuss broad issues of authorship and point of view in film studies the physical voice itself is a primary focus *Echo and Narcissus* shows how assumptions about the deficiencies of women's voices and speech are embedded in sound's history technology uses and marketing Moreover the construction of the woman's voice is inserted into the ideologically loaded cinematic and narrative conventions governing the representation of women in Hollywood film      *Traditions of the Arikara*
