successful innovation by one side eventually produces a countermeasure by the other in a lethal struggle for supremacy Development was not a straight line wrong ideas and assumptions led to defeat and disaster Iconography with dozens of photographs and often large format diagrams a vast bibliography and a complete and documented general approach make this volume a work of great quality and of great interest for all enthusiasts and scholars of this very interesting subject Storia Militare The modeller will not only find the text engaging but there is a superb collection of photographs and illustrations which of course include submarines corvettes and destroyers Subjects which the modeller increasingly appreciates Highly recommended Model Boats *Submarine Diary* Corwin Mendenhall,2013-07-31 A vividly detailed account of life aboard U S submarines in the Pacific during World War II *Torpedoes Away!* Maxwell Hawkins,2018-11-16 *Torpedoes Away* details US Navy submarine operations during the first 18 months of World War Two Author Maxwell Hawkins breathlessly covers the tense dangerous missions of submarines USS Trout Sea Raven Pollack Skipjack Cuttlefish and others Between these first hand reports stitched together from interviews with crewmen Hawkins describes the mechanical workings of submarines as well as the history of submersibles beginning in the 17th Century He spent over a year sifting through the archives of the Navy Department and conducted extensive interviews with many veteran submariners about their experiences in the Pacific during World War Two The result is a classic study of underwater warfare a must read for military historians and World War 2 buffs **Two Thousand Questions and Answers about the War** Julius Washington Muller,1918 **All Hands** ,1959

Scattered Far and Wide Justin Laborde,2025-09-02 *Scattered Far and Wide* follows the U S Naval Academy Class of 1938 as they rise from junior officers to combat leaders in World War II s most pivotal battles Through firsthand accounts and deep research Justin Laborde brings their stories of courage sacrifice and survival vividly to life *Scattered Far and Wide* tells the war stories of U S Naval Academy midshipmen from the Class of 1938 Commissioned on the eve of World War II they faced the trials of combat as new officers from the early days of American involvement and as ships captains pilots in leadership positions and submariners in charge by VJ Day Tested as young leaders they bore the new burden of command while at the fore of the Pacific War s largest and most pivotal campaigns They felt the wind and spray in their faces and the percussion of ships guns and depth charges at the pivotal moment in their lives and careers making their experiences unusually compelling heartbreaking and most assuredly instructive From Pearl Harbor through the end of the war these men fought and struggled for survival as part of the U S Navy s Asiatic Fleet In the early months of the conflict they tried to stem the onslaught of the Imperial Japanese Navy Some were captured and sent to brutal prisoner of war camps Others took to the air from aircraft carriers as members of torpedo bomber and fighter squadrons during the Battles of the Coral Sea and Midway Later in the war a number served aboard submarines experiencing some of the most legendary patrols in the history of the Silent Service Author Justin Laborde s grandfather Alden Laborde was a member of the Class of 1938 Upon his death Justin obtained a 1938 edition of *The Lucky Bag* the Naval Academy s yearbook Reading the memoirs of Alden s classmates

Justin realized he was well placed to tell the fascinating and unreported story of this class's experiences in World War II. He spent five years gathering primary materials and researching the histories and wartime tales. The young men who graduated from the Naval Academy in 1938 left Annapolis on the eve of war and faced its perils around the world. In the process, these junior officers earned medals and fame, left legacies of heroism and loss, and sparked tales of renown and bravery that reverberate today.

**Flying**, 1921      **International Marine Engineering**, 1915      **Japanese Submarines in World War Two**

Terry C Treadwell, 2022-06-30

The Imperial Japanese Navy developed the submarine faster than any other country in the world. But as a result of rivalries between the two military hierarchies, the Army and the Navy, they never utilized the submarine to its full extent. Nevertheless, during the Second World War, Japan deployed a number of unique submarines. These included the Type B1, which carried a Yokosuka E14Y1 reconnaissance seaplane in a watertight capsule attached to the deck of the submarine. One of these aircraft carried out two bomb attacks on a forest in Oregon by dropping six incendiary bombs, taking the war to the American mainland. The use of aircraft from submarines as scout planes proved not to be as successful as hoped, mainly because of the difficulty after launching the aircraft of finding the submarine again in the vast Pacific and Indian Oceans. The Japanese also developed the giant I-400 class submarines, which carried three Sieran bombers. There were other notable actions involving IJN submarines. This included I-17, which attempted to shell unsuccessfully an oil refinery off the coast of Santa Barbara, causing a major panic along the West Coast of America. Also memorable are the midget submarines that attempted to attack Pearl Harbor and the submarines that carried the one-man submarines, Kaitens, and the human torpedoes. The submarine losses suffered by the Japanese Navy as the war progressed, when Allied and in particular US destroyers and aircraft hunted them down, are all recorded in this comprehensive account of a fascinating element of the war at sea.
