Human Flourishing Greg Forster, Anthony R. Cross, 2020-08-28 Beyond an internal transformation or mere moment of salvation how does Christian faith envision the good life This question demands not only a Christian view of how individuals should live but of how social institutions are best arranged for human flourishing In the advanced modern world our common public life is mainly lived out in the domains of work and commerce so a Christian view of economic life is essential to a modern Christian view of human flourishing In this volume established evangelical scholars in theology biblical studies and history explore their disciplines in connection with economic wisdom to yield insights about what it means to live wholly fruitfully and well Faithful and provocative these essays uncover fresh ground on topics ranging from poverty to work ethic to capitalism socialism to slavery to non profit entities to the medieval indulgence industry

The Counterinsurgent's Constitution Ganesh Sitaraman, 2013 Since the surge in Iraq in 2006 counterinsurgency effectively became America's dominant approach for fighting wars Yet many of the major controversies and debates surrounding counterinsurgency have turned not on military questions but on legal ones Who can the military attack with drones Is the occupation of Iraq legitimate What tradeoffs should the military make between self protection and civilian casualties What is the right framework for negotiating with the Taliban How can we build the rule of law in Afghanistan The Counterinsurgent's Constitution tackles this wide range of legal issues from the vantage point of counterinsurgency strategy Ganesh Sitaraman explains why law matters in counterinsurgency how it operates on the ground and how law and counterinsurgency strategy can be better integrated Counterinsurgency Sitaraman notes focuses on winning over the population providing essential

services building political and legal institutions and fostering economic development So unlike in conventional war where law places humanitarian restraints on combat law and counterinsurgency are well aligned and reinforce one another Indeed following the law and building the rule of law is not just the right thing to do it is strategically beneficial Moreover reconciliation with enemies can both help to end the conflict and preserve the possibility of justice for war crimes Following the rule of law is an important element of success The first book on law and counterinsurgency strategy The

Crafting Transnational Policing Andrew Goldsmith, James Sheptycki, 2007-11-16 The book examines the phenomenon of crafting transnational policing By this term is meant the different forms of engagement in policing reform by international donors national governments foreign police and law enforcement agencies in the domestic policing agencies and programs of recipient countries It includes inter alia peace keeping in post conflict situations reconstruction and capacity building as part of nation or state building exercises and the provision of technical assistance in relation to certain aspects of law enforcement In each instance there is a cross border provision of resources with a view to shaping the kind of policing provided in recipient nations Why do some countries engage in these activities Why has policing become a preferred form of foreign policy engagement in some countries What forms of policing development are provided How are they delivered And how are they received How should these kinds of assistance and or interventions be conducted in future In this regard is there a non negotiable core of good policing that needs to be developed and nurtured as an integral part of all defensible transnational policing engagements These are some of the questions raised by the contributions to this book The book arises primarily from papers presented at a workshop held in Onati Spain in July 2004 on the emergence of a global constabulary ethic The book has also been supplemented by two solicited chapters

On the Move Tim Cresswell, 2006 *On the Move* presents a rich history of one of the key

concepts of modern life mobility Increasing mobility has been a constant throughout the modern era evident in mass car ownership plane travel and the rise of the Internet Typically people have equated increasing mobility with increasing freedom However as Cresswell shows while mobility has certainly increased in modern times attempts to control and restrict mobility are just as characteristic of modernity Through a series of fascinating historical episodes Cresswell shows how mobility and its regulation have been central to the experience of modernity **In the Shadow of War and Empire**

Görkem Akgöz,2023-12-14 In the Shadow of War and Empire offers a site specific history of Ottoman and Turkish industrialisation through the lens of a mid nineteenth century cotton factory in the Turkish Manchester the name chosen by the Ottomans for the industrial complex they built in the 1840s in Istanbul which in the contemporary words of one of the country's most prominent contemporary Marxist theorists became the secret to and the basis of Turkish capitalism in the 1930s **The Oxford Handbook of Ethics of AI** Markus Dirk Dubber, Frank Pasquale, Sunit Das,2020 This

interdisciplinary and international handbook captures and shapes much needed reflection on normative frameworks for the production application and use of artificial intelligence in all spheres of individual commercial social and public life *The Socialist Life of Modern Architecture* Juliana Maxim,2018-12-07 The Socialist Life of Modern Architecture is the first systematic architectural history of Romania under socialism written in English It examines the mechanisms through which modern architecture was invested with political meaning and in reverse how specific architectural solutions came to define the socialist experience Each of the book's three parts traces the historical development of one key aspect of Romania's architectural culture between the years 1949-1964 the planning and construction of housing districts in Bucharest the role of typification of design and standardization of construction in a project of cultural transformation the production and management of a folk architectural tradition Going beyond buildings and architects to consider the use of photography painting and novels as well as narrations of history and the formation of an ethnographic architectural heritage the author explores how buildings came to participate in the cultural imagination of socialism and became in fact a privileged medium of socialism Part of the growing interest in the significance of Soviet Bloc architecture this is an important contribution to the fields of architectural history cultural history and visual culture *Seeing Like a Citizen* Kara Moskowitz,2019-11-12 In *Seeing Like a Citizen* Kara Moskowitz approaches Kenya's late colonial and early postcolonial eras as a single period of political economic and social transition In focusing on rural Kenyans the vast majority of the populace and the main targets of development interventions as they actively sought access to aid she offers new insights into the texture of political life in decolonizing Kenya and the early postcolonial world Using multisited archival sources and oral histories focused on the western Rift Valley *Seeing Like a Citizen* makes three fundamental contributions to our understanding of African and Kenyan history First it challenges the widely accepted idea of the gatekeeper state revealing that state control remained limited and that the postcolonial state was an internally varied and often dissonant institution Second it transforms our understanding of

postcolonial citizenship showing that its balance of rights and duties was neither claimed nor imposed but negotiated and differentiated Third it reorients Kenyan historiography away from central Kenya and elite postcolonial politics The result is a powerful investigation of experiences of independence of the meaning and form of development and of how global political practices were composed and recomposed on the ground in local settings Regulating Business for Peace Jolyon Ford, 2015-02-05 This book addresses gaps in thinking and practice on how the private sector can both help and hinder the process of building peace after armed conflict It argues that weak governance in fragile and conflict affected societies creates a need for international authorities to regulate the social impact of business activity in these places as a special interim duty Policymaking should seek appropriate opportunities to engage with business while harnessing its positive contributions to sustainable peace However scholars have not offered frameworks for what is considered appropriate engagement or properly theorised techniques for how best to influence responsible business conduct United Nations peace operations are peak symbols of international regulatory responsibilities in conflict settings and debate continues to grow around the private sector's role in development generally This book is the first to study how peace operations have engaged with business to influence its peace building impact **Imperial Desert Dreams** Julia Obertreis, 2017-12-11 Beamte Ingenieure und Wissenschaftler des Russischen Reiches und später der Sowjetunion planten die Ausweitung und Modernisierung der Bewässerungssysteme und des Baumwollanbaus in Zentralasien Die Studie die das heutige Usbekistan und Turkmenistan untersucht betont die diskursiven und politischen Kontinuitäten über die Zsur von 1917 hinweg Einer der zentralen Topoi war die Umwandlung von toten Steppen und Wüsten in blühende Oasen Der high modernism erreichte seinen Höhepunkt in den Nachkriegsjahrzehnten Seit den 1970er Jahren entwickelte sich eine Kritik an der sowjetischen Modernisierung die in der Perestrojkazeit an Fahrt aufnahm Letztendlich trugen die ökologischen und ökonomischen sowie sozialen Folgewirkungen der wachstumsfixierten Modernisierung zum Zusammenbruch des kommunistischen Regimes bei Officials engineers and scientists in the Russian Empire and later the Soviet Union envisaged the expansion and modernization of irrigation systems and cotton growing in Central Asia Focusing on the region of today's Uzbekistan and Turkmenistan this book highlights the continuities in discourse and policies beyond the historical divide of 1917 One of the central topoi was the transformation of dead lands into blossoming oases High modernism policies hit their peak in the post war decades From the 1970s an ecological critique evolved which gained momentum in the Perestroika period Ultimately the grave ecological economic and social consequences of the growth fixated modernization contributed to the downfall of the Communist regime *Colonialism in Question* Frederick Cooper, 2005-06-06 Probably the most important historian of Africa currently writing in the English language His intellectual reach and ambition have even taken influence far beyond African studies as such and he has become one of the major voices contributing to debates over empire colonialism and their aftermaths This book is a call to reinvigorate the critical way in which history can be written Cooper takes on many of the

standard beliefs passing as postcolonial theory and breathes fresh air onto them Michael Watts Director of the Institute of International Studies Berkeley This is a very much needed book on Africa on intellectual artisanship and on engagement in emancipatory projects Drawing on his enormous erudition in colonial history Cooper brings together an intellectual and a moral political argument against a series of linked developments that privilege taking a stance and in favor of studying processes of struggle through engaged scholarship Jane I Guyer author of *Marginal Gains* Reimagining Social Medicine from the South Abigail H. Neely, 2021-07-12 In *Reimagining Social Medicine from the South* Abigail H Neely explores social medicine's possibilities and limitations at one of its most important origin sites the Pholela Community Health Centre PCHC in South Africa The PCHC's focus on medical and social factors of health yielded remarkable success And yet South Africa's systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences To understand Pholela's successes and failures Neely interrogates the social in social medicine She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela's residents and their environment played in the development and success of its program At the same time the PCHC's reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged By rewriting the story of social medicine from Pholela Neely challenges global health practitioners to recognize the multiple worlds and actors that shape health and healing in Africa and beyond
