Seeing Things as They Are Duncan Reyburn, 2017-08-31 The jovial journalist, philosopher, and theologian G. K. Chesterton felt that the world was almost always in permanent danger of being misjudged or even overlooked, and so the pursuit of understanding, insight, and awareness was his perpetual preoccupation. Being sensitive to the boundaries and possibilities of perception, he believed that it really was possible, albeit in a limited way, to see things as they are. Duncan Reyburn, marrying Chesterton's unique perspective with the discipline of philosophical hermeneutics, aims to outline what Chesterton can teach us about reading, interpreting, and participating in the drama of meaning as it unfolds before us in words and in the world. Chesterton's unique interpretive approach seems to be the implicit fascination of all Chesterton scholarship to date, and yet this book is the first to comprehensively focus on the issue. By taking Chesterton back to his philosophical roots via his marginalia, his approach to literary criticism, his Platonist-Thomist metaphysics, and his Roman Catholic theology, Reyburn explicitly and compellingly tackles the philosophical assumptions and goals that underpin his unique posture towards reality.
