Beachum, Festus E. Obiakor, 2017-10 *Improving Educational Outcomes of Vulnerable Children* seeks to examine the plight of vulnerable

students in America's educational system. Scholars and practitioners will benefit from this in-depth and unique resource for working with diverse populations of students. The term vulnerable is the current construct used to address students who are at risk of dropping out of school or of being mislabeled because of myriad social, economic, structural, educational, cultural, racial, linguistic, and societal burdens that impinge upon their learning and survival in school environments. These populations can include students in urban areas, students with special needs, and/or at-risk students who are disenfranchised, disadvantaged, and disillusioned. While the term vulnerable is used most often, authors also address students who are oppressed. In such cases, the authors explore power relations, contexts, and situations that place students in positions of powerlessness. A few of the topics discussed include students with special needs, the scholar identity of Black males, parent perspectives, teacher preparation, and using technology in the classroom. A diverse group of contributors offer their expertise in this distinctive text. Authors include scholars and practitioners from fields such as educational leadership, special education, teacher education, educational technology, and educational psychology.

Key Features: Explores the diversity of students in today's classrooms, culturally, linguistically, and racially different students, students in urban areas, students with special needs, and/or at-risk students who are disenfranchised, disadvantaged, and disillusioned. The purpose of this book is to provide a forum for an interdisciplinary scholarly dialogue with regard to preparing teachers for early childhood special education. In addition, it is aimed at examining and making available relevant and most recent scholarship to practitioners and at addressing critical issues and perspectives around preparing effective educators for the 21st-century classroom and the future. This book intends to illuminate a complex and challenging task of preparing effective educators through the lenses of several educational disciplines, including but not limited to teacher education, general education, special education, early childhood education, and urban education. The information in this work will focus on several educational disciplines that have the most immediate implications for teacher preparation and practice. The overall educational knowledge base will be enhanced due to the educational interdisciplinary approach. The multidimensional nature of the book gives it the freedom to highlight multiple and diverse voices while, at the same time, providing a forum for different and sometimes divergent methodologies, philosophies, and ideologies.

are dedicated to helping the world save young Black males When all their ideas come together they are bound to create a storm of new thinking about how all of us can work together As a spiritual leader my role is to help young Black males understand that the same God that was in Dr King is the same God that is in them This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives This book will help us including those in the ministry to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century REVEREND ROBERT KILGORE Assistant Pastor at Hillside International Truth Center Atlanta GA
