Seeking Goodness And Beauty The Use Of The Arts In Theological Ethics:

Seeking Goodness and Beauty Patricia Ann Lamoureux, Kevin O'Neil, 2005 Seeking Goodness and Beauty The Use of the Arts in Theological Ethics offers the reader a unique and innovative perspective on questions of ethics and how we can incorporate the human experience of the Arts to best live and teach the moral life Art and aesthetic experiences transcend borders and engage us rationally emotionally and sensually Novels film autobiography and music can all contribute to the moral formation of good character and virtue as well as to the skill of discerning right action by developing imagination shaping moral vision tutoring the emotions or guiding the process of moral discernment Seeking Goodness and Beauty brings together theory and practice in an approachable engaging manner and offers methods of pedagogy to encourage the use of the arts in moral education

Living Theodrama Wesley Vander Lugt, 2016-05-13 Living Theodrama is a fresh creative introduction to theological ethics Offering an imaginative approach through dialogue with theatrical theory and practice Vander Lugt demonstrates a new way to integrate actor oriented and action oriented approaches to Christian ethics within a comprehensive theodramatic model This model affirms that life is a drama performed in the company of God and others providing rich metaphors for relating theology to everyday formation and performance in this drama Different chapters explore the role of the triune God Scripture tradition the church mission and context in the process of formation and performance thus dealing separately with major themes in theological ethics while incorporating them within an overarching model This book contains not only a fruitful exchange between theological ethics and theatre but it also presents a promising method for interdisciplinary dialogue between theology and the arts that will be valuable for students and practitioners across many different fields

Art and Moral Change Ki Joo Choi, 2024-09-02 A first of its kind critical overview of how art leads to moral action in the field of theological ethics One question that remains insufficiently addressed in theological ethics is the question of how art leads to moral action While many modernist theories consider art to be a morally irrelevant activity others think that the arts and the emotions they elicit are integral to moral formation and justice Challenging both kinds of theories Art and Moral Change proposes that art is essential because it is an inevitable source of moral disagreement Drawing on the work of Jonathan Edwards and many others in theology philosophy and literary studies Art and Moral Change argues that the arts are the cultural mediums through which we can better understand what is morally possible in the midst of difference The arts in other words can serve as snapshots of a particular community's perspectives on the good life offering glimpses not only of competing moral visions within society but also of the extent to which these contested moral views are reconcilable Thus the arts reveal the limits of moral reasoning confirm the contextuality of moral discernment and necessitate moral thinking that is dialogical and dialectical Art and Moral Change provides a first of its kind critical overview of how the field of theological ethics approaches and should utilize aesthetics The core premise that paying attention to art encourages us to appreciate the ethical importance of disagreement difference and conflict will foster greater understanding

of aesthetics and ethics for students and scholars of theological social and virtue ethics

If These Walls Could Talk

Maureen H. O'Connell, 2012-06-01 Philadelphia's community muralism movement is transforming the City of Brotherly Love into the Mural Capital of the World. This remarkable groundswell of public art includes some 3,500 wall-sized canvases on warehouses and on schools, on mosques and in jails, in courthouses and along overpasses. In *If These Walls Could Talk*, Maureen O'Connell explores the theological and social significance of the movement. She calls attention to some of the most startling and powerful works it has produced and describes the narratives behind them. In doing so, O'Connell illustrates the ways that the arts can help us think about and work through the seemingly inescapable problems of urban poverty and arrive at responses that are both creative and effective. This is a book on American religion. It incorporates ethnography to explore faith communities that have used larger-than-life religious imagery to proclaim in unprecedented public ways their self-understandings, memories of the past, and visions of the future. It also examines the way this art functions in larger public discourse about problems facing every city in America. But *If These Walls Could Talk* is also theological text. It considers the theological implications of this most democratic expression of public art, mindful of the three components of every mural: the pieces themselves, those who create them, and those who interpret them. It illuminates a kind of beauty that seeks after social change or, in other words, the largely unexplored relationship between theological aesthetics and ethics.

The Way of Goodness and Holiness Richard M. Gula, 2011-01-01 How do ministers, whether lay or ordained, form their spiritual life? What practices do they need to foster in order to become good and to be holy in their service? To answer these questions, Richard Gula invites readers to think along with him about the kind of minister they want to be. If we don't know where we want to go, he writes, we will easily end up somewhere else. Gula then presents a variety of virtues, including gratitude, self-care, humor, and courage, and explains how developing these qualities is essential for a minister's moral and spiritual life. By grounding a spirituality for pastoral ministry in the virtues, Gula provides a way for ministers to bridge the gap between who they are and who they hope to become in imitation of Christ Jesus.

Through a Catholic Lens Peter Malone, 2007-04-16 Movies are often examined for subtext and dramatizations of social and psychological issues as well as current movements. Studies of well-known Catholic directors such as Alfred Hitchcock and John Ford have made the search for Catholic themes a reputable field of examination. *Through a Catholic Lens* continues the search for these themes and examines the Catholic undercurrents by studying nineteen film directors from around the world. Although these directors may or may not be practicing Catholics, their Catholic background can be found in their writing and directing. Each chapter, written by a different contributor, analyzes one film of each director for its Catholic motifs. With the recent increase in cinema studies, this collection will be of interest to students and academics as well as cinema buffs.

Being Human David G. Kirchhoffer, Robyn Horner, Patrick McArdle, 2013-08-09 What does it mean to be human The traditional answers from the past remain only theoretical possibilities unless they come to mean something to today's generation Moreover in light of new knowledge and circumstances a new generation may call these old answers into question and seek to reinterpret or indeed provide alternatives to them In the 1960s the Catholic Church's Second Vatican Council attempted such a reinterpretation an *aggiornamento* for the post war generation of the mid twentieth century by proposing in *Gaudium et Spes* a theological anthropology founded upon the ideas of human dignity and the common good Fifty years later is an appropriate time to revisit those answers and

Art, Emotion and Ethics Berys Gaut, 2007-05-24 Art Emotion and Ethics is a systematic investigation of the relation of art to morality a topic that has been of central and recurring interest to the philosophy of art since Plato Berys Gaut explores the various positions that have been taken in this debate and argues that an artwork is always aesthetically flawed insofar as it possesses a moral defect that is aesthetically relevant Three main arguments are developed for this view these involve showing how moral goodness is itself a kind of beauty that artworks can teach us about morality and that this is often an aesthetic merit in them and that our emotional responses to works of art are properly guided in part by moral considerations Art Emotion and Ethics also contains detailed interpretations of a wide range of artworks including Rembrandt s Bathsheba and Nabokov s Lolita which show that ethical criticism can yield rich and plausible accounts of individual works Gaut develops a new theory of the nature of aesthetic value explores how art can teach us about the world and what we morally ought to do by guiding our imaginings and argues that we can have genuine emotions towards people and events that we know are merely fictional Characterised by its clarity and sustained argument this book will be of interest to anyone who wants to understand the relation of art to morality *Anthropos*, 2006 [The British National Bibliography](#) Arthur James Wells, 2005

Book Review Index, 2006 Every 3rd issue is a quarterly cumulation *Perspectives on Religion* University of Iowa. Department of Religious Studies, 2002 [Theological Aesthetics](#) Richard Viladesau, 1999-03-25 This book explores the role of aesthetic experience in our perception and understanding of the holy Richard Viladesau s goal is to articulate a theology of revelation examined in relation to three principal dimensions of the aesthetic realm feeling and imagination beauty or taste and the arts After briefly considering ways in which theology itself can be imaginative or beautiful Viladesau concentrates on the theological significance of aesthetic data provided by each of the three major spheres of aesthetic perception and response Throughout the work the underlying question is how each of these spheres serves as a source however ambiguous of revelation Although he frames much of his argument in terms of Catholic theology from the Church Fathers to Karl Rahner Hans urs von Balthasar Bernard Lonergan and David Tracy Viladesau also makes extensive use of ideas from the Protestant theologian of the arts Gerardus van der Leeuw and draws insights from such diverse thinkers as Hans Goerg Gadamer Wolfhart Pannenberg and Iris Murdoch His analysis is enlivened by the artistic examples he selects the music of Mozart as contemplated by Karl Barth Schoenberg s opera Moses und Aron the sculptures of Chartres Cathedral poems by Rilke and Michelangelo and many others What emerges from this

study is what Viladesau terms a transcendental theology of aesthetics In Thomistic terms he finds that beauty is not only a perfection but a transcendental That is any instance of beauty rightly perceived and rightly understood can be seen to imply divinely beautiful things as well In other words Viladesau argues God is the absolute and necessary condition for the possibility of beauty
