Seeking Many Inventions The Idea Of Community In America:

Seeking Many Inventions Philip Abbott, 1987 *Seeking Many Inventions* Philip Abbott, **A Particular Place** Nancy L. Eiesland, 2000 Focusing on how the religious congregations all Protestant of a particular town adapted to a rapid influx of newcomers this book makes a significant contribution to sociological literature in an interesting narrative style Eiesland's work is the perfect complement to that of other major contributors in the field such as Robert Wuthnow Wade Clark Roof William McKinney David A Rootzen Jackson Carroll and Nancy T Ammerman **Fugitive Theory** Christopher M. Duncan, 2000-01-01 The group known as the Southern Agrarians came out of Vanderbilt University in the wake of the 1925 Scopes Trial in Dayton Tennessee In response to attacks on the South and Southern culture these scholars and poets including Allen Tate Donald Davidson John Crowe Ransom Robert Penn Warren Andrew Lytle Frank Owsley and others turned their attention to the defense of the South and its political tradition in numerous essays and books Christopher Duncan's *Fugitive Theory* situates the Agrarians' political thought within the larger context of the Western political tradition in general and in the context of American political thought in particular Duncan argues that the political theory of the Southern Agrarians is best understood in terms of a civic republicanism that has its roots in the thought of theorists such as Aristotle Machiavelli James Harrington and Thomas Jefferson In exploring this fascinating chapter of twentieth century American history Duncan recovers a vision that included a commitment to private property in land autonomy and decentralized power a vision that pitted itself against the call for centralization and materialism implicit in the ascendant industrial order **Gay Life in the Former USSR** Daniel Schluter, 2019-01-04 This work describes and analyzes the individual identities social ecological landscape and group undertakings among the homosexual population of the Soviet Union during the final years of the communist regime **The Dance with Community** Robert Booth Fowler, 1991-07-25 Contemporary intellectuals have rushed to embrace the concept of community What does this tell us about American political thought Why are intellectuals uneasy with modern liberal individualism and its institutional policy results Why is political intellectual discourse dominated today by complaint In *The Dance with Community* Robert Booth Fowler reflects upon these and related questions My goal he writes is to present contemporary political thought about community for what it is a conversation interactive spirited and sometimes tough There have been many interpretations of the much discussed decline in community spirit Rather than offer another Fowler steps back to look at the debate itself He examines from the perspective of an intellectual historian the attention to community in current American political thought and explores the setting of that attention He also identifies five alternative models of community integral to the current debates and sketches a clear image of each its relationship to others the logic of its appeal and its emphases and problems In each instance he places the model into the larger conversation over alternative communities and the value of community itself **Bridging the Gap Between Practice and Research** Committee on Community-Based Drug Treatment, Institute of Medicine, 1998-08-25

Today most substance abuse treatment is administered by community based organizations. If providers could readily incorporate the most recent advances in understanding the mechanisms of addiction and treatment the treatment would be much more effective and efficient. The gap between research findings and everyday treatment practice represents an enormous missed opportunity at this exciting time in this field. Informed by real life experiences in addiction treatment including workshops and site visits *Bridging the Gap Between Practice and Research* examines why research remains remote from treatment and makes specific recommendations to community providers, federal and state agencies and other decisionmakers. The book outlines concrete strategies for building and disseminating knowledge about addiction for linking research, policy development and everyday treatment implementation and for helping drug treatment consumers become more informed advocates. In candid language the committee discusses the policy barriers and the human attitudes, the stigma, suspicion and skepticism that often hinder progress in addiction treatment. The book identifies the obstacles to effective collaboration among the research, treatment and policy sectors, evaluates models to address these barriers and looks in detail at the issue from the perspective of the community based provider and the researcher. *Media Knowledge* James Schwoch, Mimi White, Miriam White, Susan Reilly, 1992-03-02 This book calls for a way of reading and responding to the media culture that is more than passive reception. It argues for the fostering of critical citizenship as the key to engaging, debating and ultimately reconstructing the concepts and beliefs society brings to bear upon popular culture. The authors analyze contemporary media culture including television news and dramatic programming, advertising, Hollywood film and discuss the relationships between technology, culture and society. **Representing Popular Sovereignty** Daniel Lessard Levin, 1999-01-01 Using the events of the Constitution's Bicentennial from 1987 to 1991 as a case study *Representing Popular Sovereignty* explores the contradiction between the Constitution's importance as a political document and its weakness as a symbol in American popular culture. Re-Forming the Body MR Philip A Mellor, Philip A. Mellor, Chris Shilling, Professor Chris Shilling, 1997-02-14 Enriches the conceptual arsenal for interdisciplinary analysis of political, social and cultural change, stimulates more nuanced thinking about the cultural and political legacy of the Reformation era, manages both to clarify tensions surrounding cultural and social integration in the late 20th century while underscoring the real historical complexity of modern bodies. *American Journal of Sociology* Through an analysis of successive reformations of the body, this innovative and penetrating book constructs a fascinating and wide ranging account of how the creation and evolution of different patterns of human community are intimately related to the somatic experience of the sacred. The book places the relationship between the embodiment and the sacred at the crux of social theory and casts a fresh light on the emergence and transformation of modernity. It critically examines the thesis that the rational projects of modern embodiment have died and gone to cyberspace and suggests that we are witnessing the rise of a virulent effervescent form of the sacred which is changing how people see and keep in touch with the world around them. *Radical Conversion* Christopher M.

Duncan,2021-07-13 *Radical Conversion* utilizes both analytic and normative philosophic theoretical frameworks to study the relationship between Christian Catholic conceptualizations of politics citizenship faith and religion as viewed through a quasi theological lens The work is situated in the context of the American liberal tradition and in conversation and debate with the public philosophy that attempts to sustain it and provide a rationale for its perpetuation In a single sentence the book s thesis is that for America to fully realize its authentic and unique moral and political mission and secure it into the future it will need to become both more Catholic and more catholic Concordantly that mission properly understood is nothing less than the recognition and protection of the idea of the sacredness of every individual human person and their right to flourish and realize the fullness of their particular vocation as a child of God

Closing an Era Richard J. Cox, 2000-09-30 The importance of records in modern society is explored by re examining some of the historical antecedents for critical functions in the modern records professions The motivation for writing this book comes from a conviction of the importance of records and records professionals in organizations and society as well as the need to possess a stronger sense of the events trends people debates and controversies producing the modern records professions Archivists and records managers have tended to discount the importance of their historical antecedents ignoring the fact that many of the current debates and issues before the profession are not new but embedded in the historical evolution of the records professions Re examining some of the historical origins helps records professionals to re examine their mission to manage records for the benefit of organizations and of all of society Such re evaluation also helps to remind records professionals and others that the concerns generated by new electronic recordkeeping technologies are not new at all but built deep within the fabric of traditional records creation and administration

Civil Rights and Politics at Hampton Institute Hoda M. Zaki, 2007 Civil Rights and Politics at Hampton Institute presents the story of how one of the preeminent and historically conservative private institutions of black higher education came to play an important part in the struggle for full racial equality Hoda Zaki traces Hampton Institute s progressive impact to its first black and alumnus

president Alonzo G. Mason who used his office to launch a powerful and sustained attack against segregation. A brilliant man who was uncompromising in his beliefs about creating a more inclusive democracy, Mason struggled against conservative forces both outside of and within his own institution before his ouster by Hampton's predominantly white governing board in 1959, just a year before the Greensboro sit-ins signaled the death knell for the segregationist era in which his institution had prospered. Hoda Zaki details the significance of Mason's complicated career through discussions of his theories of citizenship, education, his work in promoting equal rights as a mission for the college, and the political philosophy as evidenced in his speeches that he shared with other civil rights leaders of the era.
