Told by the Director of the national campaign to create it and of the Federal Commission that developed it the story captures the beliefs and values of the major players responsible for USIP In the early stages of the COVID world the reality of the important work ahead should be clear to all of us It is worth repeating that today our American Democracy is caught in an unpleasant and entangled web Each strand has been woven with remarkable tensile strength by cultural and economic dynamics each sustaining their own complexity and entanglements We face enmeshed processes of racism discrimination excessive military spending corporate influence runaway capitalism environmental degradation and the system straining cycles of poverty and injustice Creating political will is one means to leverage the resistance we need to break these bonds
