## The Beginning

**1** In the beginning God created the heavens and the earth. **2** Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters.

**3** And God said, "Let there be light," and there was light. **4** God saw that the light was good, and he separated the light from the darkness. **5** God called the light "day," and the darkness he called "night." And there was evening, and there was morning—the first day. **6** And God said, "Let there be an expanse between the waters to separate water from water." **7** So God made the expanse and separated the waters that were under the expanse from the waters that were above the expanse. **8** God called the expanse "sky." And he said, "Let the waters under the sky be full of living creatures, and let birds be filled with life." **9** And God created the great whales and every living creature that moves in the water, and every winged bird according to its kind. **10** And God blessed them and said, "Be fruitful and increase in number; fill the water in the seas, and let birds be fruitful and increase in number; be fruitful and increase in number on the earth."

**11** And God said, "Let the earth bring forth living creatures according to their kinds." **12** And God created the great land animals and every living creature that moves on the ground according to its kind. **13** And God blessed them and said, "Be fruitful and increase in number; fill the earth, and let them be fruitful and increase in number on the earth."

## Seeking The Genesis:

**Seeking the Genesis** ,2004      *Seeking Ezekiel* David J. Halperin,1993-11-19 In *Seeking Ezekiel* David J Halperin argues that the biblical Book of Ezekiel provides substantial information about its author s psychology and reveals his personality in considerable depth Psychoanalytic investigation of the book yields a coherent portrait of its author a marvelously gifted yet profoundly disturbed man tormented by inner conflicts over his sexual longings and fears Ezekiel Halperin argues was dominated by a pathological dread and loathing of female sexuality He expresses this emotional stance in the symbolic language of dreams his vision of a temple polluted by idolatry in a thin disguise of historical allegory his obscenely graphic representations of Israel and Jerusalem as promiscuous wives and in his self described behavior at his wife s death Ezekiel also demonstrates a deeply ambivalent attitude toward a dominant male figure Normally he projects the positive elements of his ambivalence onto his God its negative elements onto other males Yet the reverse can also take place and this does much to explain the disturbing cruelty and arbitrariness of Ezekiel s God Any psychological study of a man dead for 2500 years will run into formidable methodological difficulties Halperin establishes the legitimacy of his approach by arguing that it permits the solution of a wide range of long recognized textual problems The implications of Halperin s study extend far beyond the boundaries of Biblical scholarship The sexual pathology that he attributes to Ezekiel has afflicted humanity for most of its history tainting the relations of men and women the world over Ezekiel s powerful influence on posterity has done its part in strengthening the grip of this pathology By understanding Ezekiel people may come to a better understanding of his sickness within themselves and thus eventually come to find healing      Faith seeking understanding

Nico Vorster,Frederik van Niekerk,2023-03-01 How did it all begin How do we even start to engage the differences between creation narratives in the Christian Bible and modern scientific theory The authors of this book explore hermeneutic approaches and developments in biblical studies to set the scene for a religious approach This approach is open to the possibility that a literalist approach to Scripture is in fact the most unjustifiable reading of the Bible This may profoundly affect how we view God the cosmos and even ourselves To be able to read the Bible from the perspective of an open present and future paves the way for suppressed uncertainties to be liberated This paves the way for humankind to freely question all things without being enslaved by imposed religious dogma This is not to say that religion has served its purpose but it is far from it With the rise of technological advancements come other social and anthropological problems not to mention the challenge we face on a global scale with climate change et cetera Just as we dare to peek over the edge of a future without religion the authors bring us back to the fundamental teachings of faith traditions Christianity in particular They remind us that the solutions to these challenges are to be found in us becoming better humans Becoming better humans brings us back into the arena of faith traditions When technology may lead to social disconnection and narcissism religion calls for love of self and neighbour Where greed inspired advancements threaten the future of our planet religion teaches us to be in
