Finding Identity Through Directing Soseh Yekanians, 2020-05-10 *Finding Identity through Directing* is a practice led autoethnographical monograph that provides an in depth exploration into the field of theatre directing and an individual's endless creative pursuit for belonging The book specifically examines how a culturally displaced individual may find a sense of identity through their directing and addresses the internal struggles of belonging acceptance and Self that are often experienced by those who have confronted cultural unhoming The first half of the story scrutinises Dr Yekanians own identity as an Iranian born Armenian Australian and how she struggled with belonging growing up in a world that for the most part was unaccepting of her differences The second half looks at how theatre directing aided her re discovery of Self While evidence shows that within the past decade there has been a growing interest in the vocation of theatre directing embarking on a career within this field while exciting can often be a daunting and experimental vocation *Finding Identity through Directing* questions this

conundrum and specifically asks in a competitive artistic profession that is rapidly developing what attracts an individual to the authoritative role of the director and what are the underlying motivations of this attraction By uncovering that there is more to the role of the director than the mere finality of a production we can observe that the theatre is a promising setting for cultural exchanges in dialogue and for personal development Theatre directing as the vehicle for these expansions and progressions of self can potentially address the internal struggles of identity often experienced by those who in some form have encountered cultural displacement

Against Identity Alexander Douglas, 2025-06-19 A philosopher explains why the search for identity is meaningless and how we should escape the self Modern life encourages us to pursue the perfect identity Whether we aspire to become the best lawyer or charity worker life partner or celebrity influencer we emulate exemplars that exist in the world hoping it will bring us happiness But this often leads to a complex game of envy and pride We achieve these identities but want others to imitate us We disagree with those whose identities contradict ours leading to polarisation and even violence And yet when they thump against us we are ashamed to ring hollow In *Against Identity* philosopher Alexander Douglas seeks an alternative wisdom Searching the work of three thinkers ancient Chinese philosopher Zhuangzi Dutch Enlightenment thinker Benedict de Spinoza and 20th Century French theorist Ren Girard he explores how identity can be a spiritual violence that leads us away from truth Through their worlds and radically different cultures we discover how at moments of historical rupture our hunger for being grows and yet it is exactly these times when we should make peace with our indeterminacy and discover the freedom of escaping our selves

Regaining Your Self Ira Sacker,2010-12-23 You are not what you don t eat Never has there been a mental disorder so controversial in the theories surrounding its causes treatments and recovery than that of the eating disorder Its mysterious nature onset and lack of predictability make this an elusive epidemic that causes frustration and fear in those who are afflicted and those who love and treat them This is exactly why patients families and treatment professionals need to be privy to the observations of one of the foremost eating disorder specialists in the world and bestselling author of Dying to Be Thin Ira M Sacker M D It is he who continues to be at the forefront of true treatment breakthroughs the latest of which is evidenced in his latest book Regaining Your Self Over the last several decades as theories and books circulated and speculated on whether it is perfectionism trauma genetics biology or social pressures of

the media that has caused the rapid spread of anorexia bulimia and related disorders Dr Sacker was busy making a breakthrough in identifying the true culprit in eating disorders The Eating Disorder Identity With Eating Disorder Identities victims attach to their disorder and view it as part of who they are ultimately coming to identify with that persona exclusively Sometimes individuals will even name the disease Ana Mia or Ed in order to personify the new identity Just as a musician cannot live without his instruments an eating disorder individual will feel inauthentic and lost if ever they give up their eating disorder contributing to a higher rate of relapse In Regaining Your Self Dr Sacker explains the phenomenon of the Eating Disorder Identity and describes why this is the least identified concept in traditional treatment methods yet most detrimental aspect of the disorder Further Sacker explains how in an attempt to substitute their former identity many eating disorder patients adopt their eating disorder as a more acceptable definition of who they are therefore blurring the lines between their disorder and their self Like any thing that is viewed as intrinsic the eating disorder becomes nearly impossible to cut off and turn away from To combat this crisis Sacker lays out his effective program called PIRT or Personal Interaction Rational Therapy which assists families clinicians medical doctors and therapists in identifying the issue of identity the lack of one the disdain for the one they have exhibited by patients and offers them techniques on replacing the eating disorder identity with a new and healthier one the major component in facilitating recovery In addition Dr Sacker created a brand new workbook section exclusively for this paperback edition which offers both interactive and introspective exercises to help treatment professionals and patients successfully execute the bold new approach of Regaining Your Self
