

What works is not perspective-taking but perspective-seeking: actually talking to people to gain insight into the nuances of their views. That's what good scientists do: instead of drawing conclusions about people based on minimal clues, they test their hypotheses by striking up conversations.

40 Years of Research on Rent Seeking 1 Roger D.

Congleton, Arye L. Hillman, Kai A. Konrad, 2008-08-01 The last survey of the rent seeking literature took place more than a decade ago Since that time a great deal of new research has been published in a wide variety of journals covering a wide variety of topics The scope of that research is such that very few researchers will be familiar with more than a small part of contemporary research and very few libraries will be able to provide access to the full breadth of that research This two volume collection provides an extensive overview of 40 years of rent seeking research The volumes include the foundational papers many of which have not been in print for two decades They include recent game theoretic analyses of rent seeking contests and also applications of the rent seeking concepts and methodology to economic regulation international trade policy economic history political competition and other social phenomena The new collection is more than twice as large as any previous collection and both updates and extends the earlier surveys Volume I contains previously published research on the theory of rent seeking contests which is an important strand of contemporary game theory Volume II contains previously published research that uses the theory of rent seeking to analyze a broad range of public policy and social science topics The editors spent more than a year assembling possible papers and although the selections fill two large volumes many more papers could have been included

Phenomenology and the Extreme Sport Experience Eric Brymer, Robert

Schweitzer,2017-03-27 Understanding the motivations behind those who partake in extreme sports can be difficult for some. If the popular conception holds that the incentive behind extreme sports participation is entirely to do with risking one's life, then this confusion will continue to exist. However, an in-depth examination of the phenomenology of the extreme sport experience yields a much more complex picture. This book revisits the definition of extreme sports as those activities where a mismanaged mistake or accident would most likely result in death. Extreme sports are not necessarily synonymous with risk, and participation may not be about risk-taking. Participants report deep inner transformations that influence world views and meaningfulness, feelings of coming home, and authentic integration, as well as a freedom beyond the everyday. Phenomenologically, these experiences have been interpreted as transcendent of time, other space, and body. Extreme sport participation therefore points to a more potent life-enhancing endeavour worthy of further investigation. This book adopts a broad hermeneutic phenomenological approach to critique the assumed relationship to risk-taking, the death wish, and the concept of No Fear in extreme sports, and repositions the experience in a previously unexplored manner. This is valuable reading for students and academics interested in Sports Psychology, Social Psychology, Health Psychology, Tourism, Leisure Studies, and the practical applications of phenomenology.

The Ordering of Love Madeleine L'Engle,2005-03-15 From the beloved author of *A Wrinkle in Time* comes the definitive edition of her inspirational and timeless poetry featuring more than 200 original poems, a new Foreword by Sarah Arthur, and a new reader's guide by Lindsay Lackey. Madeleine L'Engle's writing has always translated the invisible, quiet corners of our hearts into a vivid, stunning experience. Her fiction invites readers into new universes, while her spiritual memoirs unveil the tenderness and resilience of the human spirit. In her poetry, L'Engle's craft proves just as striking as she traverses the full breadth of the soul, with her words intimately exploring the contours of hope, doubt, and love. It is written out of pain, joy, and experience too great to be borne until it is ordered into words, she says of her poetry. And then it is written to be shared. Open-hearted and vulnerable, *The Ordering of Love* is a meditation on beauty, loss, faith, and devotion. A prayerful and powerful portrait of a writer who served her work and served it well. May we strive to do the same. Sarah Arthur from the Foreword.

New Directions in Human Information Behavior Amanda Spink, Charles Cole,2006-07-11 *New Directions in Human Information Behavior*, co-edited by Drs. Amanda Spink and Charles Cole, provides an understanding of the new directions, leading-edge theories, and models in human information behavior. Information behavior is conceptualized as complex, human information-related processes that are embedded within an individual's everyday social and life processes. The book presents chapters by an interdisciplinary range of scholars who show new directions that often challenge the established views and paradigms of information behavior studies. Beginning with an evolutionary framework, the book examines information behaviors over various epochs of human existence, from the Palaeolithic Era and within pre-literate societies to contemporary behaviors by 21st-century humans. Drawing upon social and psychological science theories, the book presents a more integrated and holistic approach to the understanding of information

behaviors that include multitasking and non linear longitudinal processes individuals information ground information practices and information sharing digital behaviors and human information organizing behaviors The final chapter of the book integrates these new approaches and presents an overview of the key trends theories and models for further research This book is directly relevant to information scientists librarians social and evolutionary psychologists Undergraduate and graduate students academics and information professionals interested in human information behavior will find this book of particular benefit

Understanding FDI-Assisted Economic Development Sanjaya Lall,Rajneesh Narula,2013-09-13 It is nowadays well accepted that both economic growth and development are highly dependent on improving not just the availability of capital but also access to technological capabilities infrastructure and resources This has gone hand in hand with an increasing economic liberalization of most developing countries The role of the MNE as a viable source of both capital and technology is one of the key features of this new openness In the process of embracing FDI as a solution to the myriad of economic ills something even the World Bank has begun to do little attempt is made to understand the rationale and the costs associated with this policy stance Simply put FDI is not a condition sine qua non for development Too much emphasis has been placed on attracting FDI and not on understanding how to optimise the benefits for the host economy This volume aims to encourage and promote research related to these issues This volume was previously published as a special issue of the European Journal of Development Research

Confronting Corruption in Business Alan T. Belasen,Roxana Toma,2015-12-07 Confronting Corruption in Business focuses on the contextual issues that trigger corruption to give the reader a more thorough understanding of destructive leadership It provides students with a unique critical perspective on issues of leadership corruption and policy in different countries industries and companies While there isn't a universally agreed upon definition of corruption in social sciences it generally refers to efforts to secure wealth or power through misusing public power for private gain This kind of destructive leadership is typically treated as an anomaly but this book closes the gap in our understanding by highlighting the wider consequences of this behavior within business and on an international level Armed with this understanding one also learns how to mitigate its causes and consequences Edited by leading experts the book includes contributions from scholars with international expertise on leadership strategy political science finance organizational change and public policy It is the first book to focus on corruption on the country level and within business and students in international business management ethics and leadership classes will find it a valuable read

The Inquiring Organization Chun Wei Choo PhD, 2015-11-20 Organizations behave as knowledge seeking communities when their members share beliefs about cause and effect relationships norms for evaluating information and values that guide the translation of knowledge to practice What are the practices arrangements and mechanisms that make up how an organization knows what it knows What are the underlying values and norms that shape the character and orientation of these methods What can we learn from failures and disasters in organizational learning and how do organizations become susceptible to common learning traps such as the self fulfilling prophecy groupthink group polarization learning myopia and selective information processing In *The Inquiring Organization* Chun Wei Choo examines how an organization s knowledge acquisition and information seeking leads to the construction of beliefs and the formation of epistemic practices that can affect its capacity to learn and grow The book explores the epistemology of organizational learning and information seeking how organizations acquire and justify knowledge and how information is sought and shaped to warrant as well as to question beliefs It starts from the premise that organizations are truth seeking they seek beliefs which are well supported by reasoning evidence and experience in order to act more effectively It then makes the case for a normative view of organizational knowledge which identifies the epistemic norms that an organization needs to pursue in

order to acquire valid knowledge and true belief The book progressively develops a set of information and epistemic features that are used to describe an inquiring organization An inquiring organization is one that is motivated to acquire knowledge where this motivation for knowledge includes not only the pursuit of truth but also understanding creativity and curiosity It has developed norms and practices of information seeking and knowledge acquisition that are truth conducive granting it reliable success in acquiring knowledge that is advantageous to the organization It sees knowledge as the result of an ongoing process of inquiry in which knowledge is always provisional and always being improved upon where beliefs are linked to experience and the seeking of knowledge is an inclusive collective enterprise

Popular Film Music and Masculinity in Action Amanda Howell, 2015-02-11 Amanda Howell offers a new perspective on the contemporary pop score as the means by which masculinities not seen or heard before become a part of post World War II American cinema *Popular Film Music and Masculinity in Action* addresses itself to an eclectic mix of film from Elvis and Travolta star vehicles to Bruckheimer produced blockbuster action including the work of musically innovative directors Melvin Van Peebles Martin Scorsese Gregg Araki and Quentin Tarantino Of particular interest is the way these films and their representations of masculinity are shaped by generic exchanges among contemporary music music cultures and film combining American cinema's long standing investment in violence as spectacle with similarly body focused pleasures of contemporary youth music Drawing on scholarship of popular music and the pop score as well as feminist film and media studies Howell addresses an often neglected area of gender representation by considering cinematic masculinity as an audio visual construction Through her analyses of music's role in action and other film genres that share its investment in violence she reveals the mechanisms by which the pop score has helped to reinvent gender and gendered fictions of male empowerment in contemporary screen entertainment
