Seeking the Absolute Love Mayeul de Dreuille,1999

Demythologizing Celibacy William Skudlarek,2017-06-15

When St Benedict compiled his Rule for Monasteries in the early decades of the sixth century the Buddhist monastic code had already been in existence for about nine hundred years Since monastic life is shaped by spiritual practices that are very similar across different religious traditions it should not be too much of a stretch to suggest that Christians can learn from the accumulated wisdom of Buddhist monasticism For Buddhists celibacy accompanied by skillful reflection on their personal reactions to it is a means of letting go of attachment to sensory pleasure Buddhist monks do not marry they strive to relinquish the desire for sexual pleasure because this form of gratification obstructs the one pointed stillness that leads to insight For Christians celibacy like marriage is ultimately about love responding to God s love for us and expressing selfless love for others In light of the Christian understanding of marriage as an authentic indeed the ordinary path to holiness Skudlarek proposes a demythologized view of celibacy presenting it as an alternate and equally valid spiritual practice for those who choose not to accept the demands of a committed sexual relationship Drawing on the monastic interreligious dialogue Skudlarek considers the Buddhist view of celibacy which is not mythologized as a response to a divine call or as a superhuman way of life He examines their regard for it as simply and profoundly a path to freedom peace and happiness As Christians become aware of the benefits of celibacy for monks who observe it without reference to the Gospel they may be able to appreciate all the more its importance and value for those who wish to follow Christ as celibates and in this way come to share in the freedom of the children of God

The Cappadocian Mothers Carla D. Sunberg,2018-01-01

The Cappadocian Fathers had great influence on the church of the fourth century having brought their passion for Christ and theological expertise to life in their ministry Their work was not devoid of influence including that of their immediate family members Within their writings we uncover the lives of seven women the Cappadocian Mothers who may have had more influence on the theology of the church than previously believed As the Cappadocians wrestle with the Christianization of the concept of deification we find the women in their lives becoming models for their theological understanding The lives of the women become points of intersection in the kenosis theosis parabola Not only are the Cappadocian Mothers uncovered in the texts but they become models of an optimistic theology of restoration for all of humanity without constraint of gender

Our Deepest Desire: Prayer, Fasting & Almsgiving in the Writings of Augustine of Hippo Sister Susan

SLG,2022-03-07 Fairacres Publication 193 This is a book about the practices of prayer fasting and almsgiving as we meet them in the teaching of St Augustine of Hippo He is generally acclaimed as someone who has had enormous influence on Christian theology and much has been written about him by scholars However apart from a number of translations of the Confessions few of his writings are accessible to the ordinary reader even though as Bishop of Hippo he constantly wrote and preached for his people The first part of this book presents Augustine s teaching on three central practices of Christian living

prayer fasting and almsgiving with reference to his sermons and his commentaries on the Psalms The second part places it alongside some recent authors who demonstrate how this triad continues to be of value to Christians today Although it has been conceived as a Lent book this text provides a reflective introduction to these ways of Christian living in whatever season of the Church's year a reader picks it up

The Monastic Footprint in Post-Reformation Movements Kenneth C.

Carvey,2022-04-19 This book examines the influence of the monastic tradition beyond the Reformation Where the built monastic environment had been dissolved desire for the spiritual benefits of monastic living still echoed within theological and spiritual writing of the seventeenth and eighteenth centuries as a virtual exegetical template The volume considers how the writings of monastic authors were appropriated in post Reformation movements by those seeking a more fervent spiritual life and how the concept of an internal cloister of monastic ascetic spirituality influenced several Anglican writers during the Restoration There is a careful examination of the monastic influence upon the Wesleys and the foundation and rise of Methodism Drawing on a range of primary sources the book will be of particular interest to scholars of monastic and Methodist history and to those engaged in researching ecclesiology and in ecumenical dialogues
