essential information for students and general readers *Sum of the Parts* Kent C Ryden, 2011-04-01 Proponents of the new regional history understand that regional identities are constructed and contested multifarious and not monolithic that they involve questions of dominance and power and that their nature is inherently political In this lively new book writing in the spirit of these understandings Kent Ryden engagingly examines works of American regional writing to show us how literary partisans of place create and recreate attack and defend argue over and dramatize the meaning and identity of their regions in the pages of their books Cleverly drawing upon mathematical models that complement his ideas and focusing on both classic and contemporary literary regionalists Ryden demonstrates that regionalism in the cultural sense retains a great deal of power as a framework for literary interpretation For New England he examines such writers as Robert Frost and Hayden Carruth Mary E Wilkins Freeman and Edith Wharton and Carolyn Chute and Russell Banks to demonstrate that today s regionalists inspire closer more democratic readings of life and landscape For the West and South he describes Wallace Stegner s and William Faulkner s use of region to respectively exclude and evade or confront and indict For the Midwest he focuses on C J Hribal William Least Heat Moon Paul Gruchow and others to demonstrate that midwesterners continually construct the past anew from the materials at hand filling the seemingly empty midlands with history and significance Ryden reveals that there are many Wests many New Englands many Souths and many Midwesterns all raising similar issues about the cultural politics of region and place Writing with appealing freshness and a sense of adventure he shows us that place and the stories that emerge from and define place can be a source of subversive energy that blunts the homogenizing force of region inscribing marginal places and people back onto the imaginative surface of the landscape when we read it on a place by place landscape by landscape book by book basis **Old-Fashioned Modernism** Andy Oler, 2019-06-12 The Midwest holds two conflicting positions in the American cultural imagination both of which rob the region of its distinctiveness Often it is seen as the heartland a pastoral ideal standing in for all of American culture Alternatively the Midwest can represent flyover country part of an expansive undifferentiated mass between the coasts In *Old Fashioned Modernism* Rural Masculinity and Midwestern Literature Andy Oler challenges both views by pairing fiction and poetry from the region with cultural and material texts that illustrate the processes by which regional modernism both opposes and absorbs prevailing models of twentieth century manhood Although it acknowledges a tradition of Midwestern urban literature *Old Fashioned Modernism* focuses on representations of life on farms and in small towns that generate specific forms of rural modernity Oler considers a series of male protagonists who both fulfill and resist conventional American narratives of economic advancement spatial experience and gender roles The writers he studies portray the onset of socioeconomic and mechanical modernity by merging realist and naturalist narratives with upwellings of modernist form and style His analysis charts a trajectory in which Midwestern literature depicts experiences that appear dependent on nostalgic pastoralism but actually foreground the ongoing fragmentation and emerging anxieties of the countryside In detailed readings of novels by Sherwood

Anderson William Cunningham Langston Hughes Wright Morris and Dawn Powell as well as the poetry of Lorine Niedecker Oler highlights images of men from the rural Midwest who face the tensions between agricultural production and mass industrialization These works of literature which Oler examines alongside pieces of material culture like advertisements for farm implements and record labels feature communities that support self made as well as corporate identities As portraits of the Midwest that resist the totalizing trajectory of industrialization these texts generate spaces that meld rural and urban economics land use and affective experiences Old Fashioned Modernism reveals how Midwestern regionalism negotiates the anxieties and dominant narratives of early and midcentury rural masculinities as regional literature and culture alter the forms and spaces of literary modernism

Peculiar Whiteness Justin Mellette, 2021-03-01 *Peculiar Whiteness Racial Anxiety and Poor Whites in Southern Literature 1900-1965* argues for deeper consideration of the complexities surrounding the disparate treatment of poor whites throughout southern literature and attests to how broad such experiences have been While the history of prejudice against this group is not the same as the legacy of violence perpetrated against people of color in America individuals regarded as white trash have suffered a dehumanizing process in the writings of various white authors Poor white characters are frequently maligned as grotesque and anxiety inducing especially when they are aligned in close proximity to blacks or to people with disabilities Thus as a symbol much has been asked of poor whites and various iterations of the label e.g. white trash tenant farmers or even people with a little less money than average have been subject to a broad spectrum of judgment pity compassion fear and anxiety *Peculiar Whiteness* engages key issues in contemporary critical race studies whiteness studies and southern studies both literary and historical Through discussions of authors including Charles Chesnutt Thomas Dixon Sutton Griggs Erskine Caldwell Lillian Smith William Faulkner and Flannery O'Connor we see how whites in a position of power work to maintain their status often by finding ways to recategorize and marginalize people who might not otherwise have seemed to fall under the auspices or boundaries of white trash
