Bibliografía española, 2002 *Libros españoles en venta*, 1998 *The Politics of World Heritage* Elif Kalaycioglu, 2025-02-24 What does it take to construct humanity's cultural history and what do these efforts produce in the world In *The Politics of World Heritage* Elif Kalaycioglu analyzes UNESCO's flagship regime which seeks to curate a cultural history of humanity attached to outstanding universal value and tethered to goals of peace and solidarity Kalaycioglu's analysis tracks that construction across fifty years of the regime and maps it onto three distinct visions humanity as a rarified transhistorical subject humanity as a diverse subject and humanity as a subject that is adequately represented by the community of nation states In each of these constructions experts and states take up the cultural and historical resources that circulate within the regime to narrate a humanity into being and position themselves as its adjudicators contributors and custodians Each construction comes with remainders that is parts of humanity excluded from this cultural history and internal hierarchies between those at its center and others that remain on the margins These hierarchies challenge the aspiration to peace and solidarity While these aspirations have changed across the three iterations of humanity across the different forms the regime's structures and participants have been ill equipped and hesitant to engage with the underbellies of humanity towards robust visions of peace and solidarity In contrast to this general tendency Kalaycioglu excavates from select nomination files nested constructions of humanity that hold onto the globality and unevenness of its political conditions

and presents the possibility of robust visions of peace and solidarity and humanity's different futures Marketing and Smart Technologies José Luís Reis, Eduardo Parra López, Luiz Moutinho, José Paulo Marques dos Santos, 2022-03-29 This book includes selected papers presented at the International Conference on Marketing and Technologies ICMarkTech 2021 held at University of La Laguna Tenerife Spain during December 2-4 2021 It covers up to date cutting edge research on artificial intelligence applied in marketing virtual and augmented reality in marketing business intelligence databases and marketing data mining and big data marketing data science web marketing e commerce and v commerce social media and networking geomarketing and IoT marketing automation and inbound marketing machine learning applied to marketing customer data management and CRM and neuromarketing technologies *Bridge Engineering* Leonardo Fernández Troyano, 2003 Bridge Engineering A Global Perspective is a comprehensive review of how we create and maintain bridges one of the most vital yet vulnerable parts of our infrastructure and how we got where we are today Its 800 illustrated pages in full colour provide a unique and authoritative reference for practitioners researchers and students alike on the state of the art of bridge engineering world wide from local community footbridges to vast multi modal crossings between nations *The Palgrave Handbook of Global Sustainability* Robert Brinkmann, 2023-04-04 The field of sustainability continues to evolve as a discipline The world is facing multiple sustainability challenges such as climate change water depletion ecosystem loss and environmental racism The Handbook of Sustainability will provide a comprehensive reference for the field that examines in depth the major themes within what are known as the three E's of sustainability environment equity and economics These three themes will serve as the main organizing body of the work In addition the work will include sections on history and sustainability major figures in the development of sustainability as a discipline and important organizations that contributed or that continue to contribute to sustainability as a field The work is explicitly global in scope as it considers the very different issues associated with sustainability in the global north and south
