Steamship Nationalism Mark A. Russell, 2020-04-15 Steamship Nationalism is a cultural social and political history of the S S Imperator Vaterland and Bismarck Transatlantic passenger steamships launched by the Hamburg Amerikanische Packetfahrt Aktien Gesellschaft HAPAG between 1912 and 1914 they do not enjoy the international fame of their British counterparts most notably the Titanic Yet the Imperator class liners were the largest most luxurious passenger vessels built before the First World War In keeping with the often overlooked history of its merchant marine as a whole they reveal much about Imperial Germany in its national and international dimensions As products of business decisions shaped by global dynamics and the imperatives of international travel immigration and trade HAPAG s giant liners bear witness to Germany s involvement in the processes of globalization prior to 1914 Yet this book focuses not on their physical but on their cultural construction in a variety of contemporaneous media including the press and advertising on both sides of the Atlantic At home they were presented to the public as symbolic of the nation s achievements and ambitions in ways that emphasize the complex nature of German national identity at the time Abroad they were often construed as floating national monuments and as such facilitated important encounters with Germany both virtual and real for the populations of Britain and America Their overseas reception highlights the multi faceted image of the European superpower that was constructed in the Anglo American world in these years More generally it is a pointed indicator of the complex relationship between Britain the United States and Imperial Germany

Teute, 2017-08-08 The War of 1812 was one of a cluster of events that left unsettled what is often referred to as the Revolutionary settlement At once postcolonial and neoimperial the America of 1812 was still in need of definition As the imminence of war intensified the political economic and social tensions endemic to the new nation Americans of all kinds fought for country on the battleground of culture The War of 1812 increased interest in the American democratic project and

elicited calls for national unity yet the essays collected in this volume suggest that the United States did not emerge from war in 1815 having resolved the Revolution's fundamental challenges or achieved a stable national identity The cultural rifts of the early republican period remained vast and unbridged Contributors Brian Connolly University of South Florida Anna Mae Duane University of Connecticut Duncan Faherty Queens College CUNY James M Greene Pittsburg State University Matthew Rainbow Hale Goucher College Jonathan Hancock Hendrix College Tim Lanzendoerfer University of Mainz Karen Marrero Wayne State University Nathaniel Millett St Louis University Christen Mucher Smith College Dawn Peterson Emory University Carroll Smith Rosenberg University of Michigan David Waldstreicher The Graduate Center CUNY Eric Wertheimer Arizona State University
