During this period, the number of cases grew fast compared to 2006 to 2010. This book provides a comprehensive and detailed analysis of selected cases. The analysis of those cases is on a case-by-case basis. For each case, an English summary of the judgment is provided. In the comment, the People's Courts' approach to the interpretation and application of the CISG is emphasized. Comments of the individual case are written either by scholars or judges or lawyers from international and comparative perspective to discuss the successes and pitfalls of the interpretation and application of the CISG.

Contemporary Chinese Art Peggy Wang, 2021-01-26 A revelatory reclaiming of five iconic Chinese artists and their place in art history During the 1980s and 1990s a group of Chinese artists Zhang Xiaogang Wang Guangyi Sui Jianguo Zhang Peili and Lin Tianmiao ascended to new heights of international renown Even as their fame increased they came to be circumscribed by simplistic Western interpretations of their artworks as social and political critiques a perspective that privileged stories of dissidence over deep engagement with the art itself Through in depth case studies of these five artists Peggy Wang offers a corrective to previous appraisals demonstrating how their works address fundamental questions about the forms meanings and possibilities of art By the end of the 1980s Chinese artists were scrutinizing earlier waves of Western influence and turning instead to their own heritage and culture to forge their own future histories As the national trauma of the 1989 Tiananmen Square massacre converged with the mounting expansion of the global art world these artists turned to art as a profoundly generative site for grappling with their place in the world Wang demonstrates how they consciously and energetically sought to make their own ideas about art and art history visible in contemporary art Wang s argument is informed by extensive primary research including close examination of the artworks analysis of Chinese language documents and archives and deeply personal interviews with the artists Their words uncover layers of meaning previously obscured by the popular and often recycled assessments that many of these works have received until now Beyond Wang s reinterpretation of these individual artists she contributes to an urgent conversation on the future direction of art history how do we map engagements between art from different parts of the world that are embedded within different art histories What does it mean for histories of contemporary art and art history more generally to be inclusive The new understandings offered in this book can and should be engaged when considering current hierarchies in histories of Chinese art the global art world and the intersections between them

twentieth century's leading female performers. Impeccably researched, passionate and personal, this aptly titled book provides readers with an exciting and thought-provoking look at jingju history and performance practice through its focus on the lives and work of six controversial leading artists. Elizabeth Wichmann Walczak, University of Hawai'i at Manoa. Any traditional theatre has to engage the changing world to avoid becoming a living fossil. How has Beijing Opera, a highly stylized theatre with breath-taking acrobatics and martial arts, fabulous costumes and striking makeup, survived into the new millennium while coping with a century of great upheavals and competition from new entertainment forms? Li Ruru's *The Soul of Beijing Opera* answers that question, looking at the evolution of singing and performance styles, make-up and costume, audience demands as well as stage and street presentation modes amid tumultuous social and political changes. Li's study follows a number of major artists' careers in mainland China and Taiwan, drawing on extensive primary print sources as well as personal interviews with performers and their cultural peers. One chapter focuses on the illustrious career of Li's own mother and how she adapted to changes in Communist ideology. In addition, she explores how performers as social beings have responded to conflicts between tradition and modernity and between convention and innovation. Through performers' negotiation and compromises, Beijing Opera has undergone constant re-examination of its inner artistic logic and adjusted to the demands of the external world. **The Publisher**, 1902 **The Nation**, 1870 **Cumulative Index to a Selected List of Periodicals**, 1902 **A History of Modern Tibet, Volume 2** Melvyn C. A group of academics inspired by Western thought turned to the study of folklore, popular songs, beliefs and customs to rally people around the flag. *Saving the Nation through Culture* opens a new chapter in the history of the Folklore Movement by exploring the evolution of the discipline's Chinese branch. Gao reveals that intellectuals in the New Culture Movement influenced the founding folklorists with their aim to repudiate Confucianism following the Chinese Republic's failure to modernize the nation. The folklorists, however, faced a unique challenge: advocating for modern academic methods while upholding folklore as the key to the nation's salvation. Largely unknown in the West and underappreciated in China, the Modern Folklore Movement failed to achieve its goal of reinvigorating the Chinese nation. But it helped establish a modern discipline promoting a spirit of academic independence that influences Chinese intellectuals today.
