**Networking in Late Medieval Central Europe** Beata Mozejko, Anna Orłowska, Leslie Carr-Riegel, 2023-02-10 Exploring the formation of networks across late medieval Central Europe this book examines the complex interaction of merchants students artists and

diplomats in a web of connections that linked the region These individuals were friends in business ventures occasionally families and not infrequently foes No single activity linked them but rather their interconnectivity through matrices based in diverse modalities was key Partnerships were not always friendship networks art was sometimes passed between enemies and families created for financial gain Taking an interdisciplinary approach the chapters focus on inclusion and exclusion within intercultural networks both interpersonal and artistic using a wide spectrum of source materials and methodological approaches The concept of friends is considered broadly not only as connections of mutual affection but also simply through business relationships Families are considered in terms of how they helped or hindered local integration for foreigners and the matrimonial strategies they pursued Networks were also deeply impacted by rivalry and hostility Annals of Medical History, 1928

**Union with Christ** Sung Rual Choi, 2023-11-13 Understanding union with Christ as a frame of thought as a motif or theme is important for accessing Calvin's theology While the union with Christ doctrine arises when Calvin explains the doctrine itself directly especially in light of soteriology the strong presence of this motif union with Christ union with the Triune God indicates its pervasiveness when other doctrines or theological themes are explained as well This book suggests that we approach the notion of union of Christ as a theological frame of thought that touches on most of the doctrines and theological themes of Calvin's theology This book deals with union with Christ as a motif or theme rather than as a doctrine

**The Abel Prize** Helge Holden, Ragni Piene, 2009-12-01 The book presents the winners of the first five Abel Prizes in mathematics 2003 Jean Pierre Serre 2004 Sir Michael Atiyah and Isadore Singer 2005 Peter D Lax 2006 Lennart Carleson and 2007 S R Srinivasa Varadhan Each laureate provides an autobiography or an interview a curriculum vitae and a complete bibliography This is complemented by a scholarly description of their work written by leading experts in the field and by a brief history of the Abel Prize Interviews with the laureates can be found at <http://extras.springer.com>

**The Legacy of Early Franciscan Thought** Lydia Schumacher, 2021-01-18 The legacy of late medieval Franciscan thought is uncontested for generations the influence of late 13th and 14th century Franciscans on the development of modern thought has been celebrated by some and loathed by others However the legacy of early Franciscan thought as it developed in the first generation of Franciscan thinkers who worked at the recently founded University of Paris in the first half of the 13th century is a virtually foreign concept in the relevant scholarship The reason for this is that early Franciscans are widely regarded as mere codifiers and perpetrators of the earlier medieval largely Augustinian tradition from which later Franciscans supposedly departed In this study leading scholars of both periods in the Franciscan intellectual tradition join forces to highlight the continuity between early and late Franciscan thinkers which is often overlooked by those who emphasize their discrepancies in terms of methodology and sources At the same time the contributors seek to paint a more nuanced picture of the tradition's legacy to Western thought highlighting aspects of it that were passed down for generations to follow as well as the extremely different contexts and ends for which originally Franciscan ideas came to be employed in later medieval and

modern thought      *Constantine Porphyrogennetos - The Book of Ceremonies* ,2017-11-27 This is the first modern language translation of the entire text of the tenth century Greek Book of Ceremonies De ceremoniis a work compiled and edited by the Byzantine emperor Constantine VII 905 959 It preserves material from the fifth century through to the 960s Chapters deal with diverse subjects of concern to the emperor including the role of the court secular and ecclesiastical ceremonies processions within the Palace and through Constantinople to its churches the imperial tombs embassies banquets and dress the role of the demes hippodrome festivals with chariot races imperial appointments the hierarchy of the Byzantine administration the equipping of expeditions including to recover Crete from the Arabs and the lists of ecclesiastical provinces and bishoprics      **Calvinus Pastor Ecclesiae** Herman J. Selderhuis,Arnold Huijgen,2016-08-15 This volume contains the collection of papers presented at the 11th International Congress on Calvin Research that took place in Zurich in 2014 While many colleagues of Calvin addressed him in their letters as Pastor Ecclesiae Pastor of the Church this is also the position he held when he passed away 450 years before the congress in Zurich took place The first part of the book consists of the plenary papers In the second part the seminars held at the Congress are published and the third part consists of a selection of short papers      *An Invitation to Fractal Geometry* Michel L. Lapidus,Goran Radunović,2024-12-30 This book offers a comprehensive exploration of fractal dimensions self similarity and fractal curves Aimed at undergraduate and graduate students postdocs mathematicians and scientists across disciplines this text requires minimal prerequisites beyond a solid foundation in undergraduate mathematics While fractal geometry may seem esoteric this book demystifies it by providing a thorough introduction to its mathematical underpinnings and applications Complete proofs are provided for most of the key results and exercises of different levels of difficulty are proposed throughout the book Key topics covered include the Hausdorff metric Hausdorff measure and fractal dimensions such as Hausdorff and Minkowski dimensions The text meticulously constructs and analyzes Hausdorff measure offering readers a deep understanding of its properties Through emblematic examples like the Cantor set the Sierpinski gasket the Koch snowflake curve and the Weierstrass curve readers are introduced to self similar sets and their construction via the iteration of contraction mappings The book also sets the stage for the advanced theory of complex dimensions and fractal drums by gently introducing it via a variety of classical examples including well known fractal curves By intertwining historical context with rigorous mathematical exposition this book serves as both a stand alone resource and a gateway to deeper explorations in fractal geometry      **Divine Epiphany in Greek Literature and Culture** Georgia Petridou,2016-01-28 In ancient Greece epiphanies were embedded in cultural production and employed by the socio political elite in both perpetuating pre existing power structures and constructing new ones This volume is the first comprehensive survey of the history of divine epiphany as presented in the literary and epigraphic narratives of the Greek speaking world It demonstrates that divine epiphanies not only reveal what the Greeks thought about their gods they tell us just as much about the preoccupations the preconceptions and the assumptions of

ancient Greek religion and culture In doing so it explores the deities who were prone to epiphany and the contexts in which they manifested themselves as well as the functions narratives and situational they served addressing the cultural specificity of divine morphology and mortal immortal interaction Divine Epiphany in Greek Literature and Culture re establishes epiphany as a crucial mode in Greek religious thought and practice underlines its centrality in Greek cultural production and foregrounds its impact on both the political and the societal organization of the ancient Greeks

Watson, 2009-11-10 History of Biblical Interpretation provides detailed and extensive studies of the interpretation of the Scriptures by Jewish and Christian writers throughout the ages Written by internationally renowned scholars this multivolume work comprehensively treats the many different methods of interpretation the many important interpreters from various eras and the many key issues that have surfaced repeatedly over the long course of biblical interpretation This second installment contains essays by fifteen noted scholars discussing major methods movements and interpreters in the Jewish and Christian communities from the beginning of the Middle Ages until the end of the sixteenth century Reformation The authors examine such themes as the variety of interpretive developments within Judaism during this period the monumental work of Rashi and his followers the achievements of the Carolingian era and the later scholastic developments within the universities beginning in the twelfth century

**Islam and Politics in Indonesia** Remy Madinier, 2015-08-31 The Masyumi Party which was active in Indonesia from 1945 to 1960 constitutes the boldest attempt to date at reconciling Islam and democracy Masyumi proposed a vision of society and government which was not bound by a literalist application of Islamic doctrine but rather inspired by the values of Islam It set out moderate policies which were both favourable to the West and tolerant towards other religious communities in Indonesia Although the party made significant strides towards the elaboration of a Muslim democracy its achievements were nonetheless precarious it was eventually outlawed in 1960 for having resisted Sukarno's slide towards authoritarianism and the refusal of Suharto's regime to reinstate the party left its leaders disenchanted and marginalised Many of those leaders subsequently turned to a form of Islam known as integralism a radical doctrine echoing certain characteristics of 19th century Catholic integralism which contributed to the advent of Muslim neo fundamentalism in Indonesia This book examines the Masyumi Party from its roots in early 20th century Muslim reformism to its contemporary legacy and offers a perspective on political Islam which provides an alternative to the more widely studied model of Middle Eastern Islam The party's experience teaches us much about the fine line separating a moderate form of Islam open to democracy and a certain degree of secularisation from the sort of religious intransigence which can threaten the country's denominational coexistence
