Contemporary Chinese Diasporas Min Zhou, 2017-09-15 This book focuses on International migration among

the Chinese long before European colonists set foot on the Asian continent Long before European colonists set foot on the Asian continent the Chinese moved across sea and land seasonally or permanently to other parts of Asia and the rest of the world to pursue economic opportunities and alternative means of livelihood This volume addresses the new Chinese diasporas around the world offering a snapshot of the cosmopolitan and shifting nature of Chinese population dynamics from the perspectives of anthropologists sociologists and scholars of international studies *Social Capital in Singapore* Vincent Chua,Gillian Koh,Ern Ser Tan,Drew Shih,2020-12-27 How can social cohesion be achieved in a meritocratic and multicultural global city state Meritocracy poses a paradox On one hand it integrates individuals through frameworks of equal treatment equal justice and opportunity regardless of race language or religion On the other hand individuals are then segregating through academic sorting they are rewarded based on credentials and performance which also results in elite identification and bonding After a generation without mitigation action social stratification can result Distinctive circles differentiating social elites from non elites the professional classes from non professional classes emerge The remedy the authors propose is network diversity which is the organic forming of ties across class and other social boundaries built on deliberate policies programmes and platforms designed to facilitate that This social mixing forged in social infrastructure such as schools workplaces and voluntary associations pays off by producing the collective goods of national identity and trust This hypothesis has been tested in the case of Singapore society and the empirical results from the research on the power of network diversity and bridging social capital are found in this volume An insightful read for scholars and practitioners in public policy and social network analysis looking to understand the challenges faced by and the experiences that have emerged from the case of Singapore with its multicultural and cosmopolitan setting **Singapore** Garry Rodan,2017-07-12 This title was first published in 2001 A collection of valuable previously published essays analyzing the major social dynamics shaping the increasingly complex society economy and polity of contemporary Singapore Topics range from ideology and culture to the character of the state and its institutions and the possibilities for political reform *Nations, National Narratives and Communities in the Asia-Pacific* Norman Vasu,Yolanda Chin,Kam-yea Law,2013-09-05 Many states in the Asia Pacific region are not built around a single homogenous people but rather include many large varied different national groups This book explores how states in the region attempt to develop commonality and a nation and the difficulties that arise It discusses the consequences which ensue when competing narratives clash and examines the nature of resistance to dominant narratives which arise It considers the problems in a wide range of countries in the region including Indonesia Malaysia Singapore Hong Kong Korea Australia and New Zealand *Handbook of the International Political Economy of the Corporation* Andreas Nölke,Christian May,2018-09-28 Over the past few decades corporations have been neglected in studies of international political economy IPE Seeking to demystify them what they are how they behave and their goals and constraints this Handbook introduces the corporation as a unit of analysis for students of IPE Providing critical discussion of

their global and domestic power and highlighting the ways in which corporations interact with each other and with their socio political environment this Handbook presents a thorough and up to date overview of the main debates around the role of corporations in the global political economy **The Knowledge of Communities** Nancy Meyer, Leni Oman, John S. Kulcsár, Katherine J. Curtis, 2011-12-15 This is the third in an essential series of Springer handbooks that explore key aspects of the nexus between demography and social science With an inclusive international perspective and founded on the principles of social demography this handbook shows how the rural population which recently dropped below 50 per cent of the world total remains a vital segment of society living in proximity to much needed developmental and amenity resources The rich diversity of rural areas shapes the capacity of resident communities to address far reaching social environmental and economic challenges Some will survive become sustainable and even thrive while others will suffer rapid depopulation This handbook demonstrates how these future development trajectories will vary according to local characteristics including but not limited to population composition The growing complexity of rural society is in part a product of significant international variations in population trends making this comparative and comprehensive study of rural demography all the more relevant Collating the latest research on international rural demography the handbook will be an invaluable aid to policy makers as they try to understand how demographic dynamics depend on the economic social and environmental characteristics of rural areas It will also aid researchers assessing the unique factors at play in the rural context and endeavoring to produce meaningful results that will advance policy and scholarship Finally the handbook is an ideal text for graduate students in a spread of disciplines from sociology to international development
