Document Supply Centre,1985 **Kant and his German Contemporaries: Volume 2, Aesthetics, History, Politics, and Religion** Daniel O. Dahlstrom,2018-10-11 Kant s philosophical achievements have long overshadowed those of his German contemporaries often to the point of concealing his contemporaries influence upon him This volume of new essays draws on recent research into the rich complexity of eighteenth century German thought examining key figures in the development of aesthetics and art history the philosophy of history and education political philosophy and the philosophy of religion The essays range over numerous thinkers including Baumgarten Mendelssohn Meyer Winckelmann Herder Schiller Hamann and Fichte showing how they variously influenced challenged and revised Kant s philosophy at times moving it in novel directions unacceptable to the magister himself The volume will be valuable for all who are interested in this distinctive period of German philosophy *Sweet Land of Liberty* Thomas J. Sugrue,2009-10-13 Sweet Land of Liberty is Thomas J Sugrue s epic account of the abiding quest for racial equality in states from Illinois to New York and of how the intense northern struggle differed from and was inspired by the fight down South Sugrue s panoramic view sweeps from the 1920s to the present more than eighty of the most decisive years in American history He uncovers the forgotten stories of battles to open up lunch counters beaches and movie theaters in the North the untold history of struggles against Jim Crow schools in northern towns the dramatic story of racial conflict in northern cities and suburbs and the long and tangled histories of integration and black power Filled with unforgettable characters and riveting incidents and making use of information and accounts both public and private such as the writings of obscure African American journalists and the records of civil rights and black power groups Sweet Land of Liberty creates an indelible history *The Pursuit of Liberty* Raymond Jackson Wilson,James Burkhart Gilbert,Stephen Nissenbaum,1990-04-01 The Territorial Papers of the United States Clarence Edwin Carter,John Porter Bloom,1939 **The Samuel Gompers**

Papers Samuel Gompers, 1986 Volume 10 of the Samuel Gompers Papers focuses on the AFL's struggle to serve the nation and the labor movement during the critical period when American neutrality gave way to war. Beginning with Gompers' last minute effort to persuade German workers to avoid war with the United States, it follows the labor movement's internal debate over the meaning of American participation and the Executive Council's pragmatic and in some cases reluctant pledge of support offered just weeks before war was declared. This volume also charts the evolution of a new relation between organized labor and the federal government. Acknowledging organized labor's vital role in the war effort, government now supported labor adjustment boards that upheld the eight hour day, equal pay for equal work, and labor's right to organize and bargain collectively with employers. As organized labor's main spokesman in Washington, Gompers played a central role in the development of wartime labor policies with an eye to increasing production, reducing industrial conflict, and advancing labor's wage and hour standards. *The Territorial Papers of the United States*, 1940 *The Cambridge Edition of Early Christian Writings: Volume 2, Practice* Ellen Muehlberger, 2017-11-23 The Cambridge Edition of Early Christian Writings provides a definitive anthology of early Christian texts from c. 100 to 650 CE. Its six volumes reflect the cultural, intellectual, and linguistic diversity of early Christianity and are organized thematically on the topics of God, practice, Christ, community, reading, and creation. The series expands the pool of source material to include not only Greek and Latin writings but also Syriac and Coptic texts. Additionally, the series rejects a theologically normative view by juxtaposing texts that were important in antiquity but later deemed heretical with orthodox texts. The translations are accompanied by introductions, notes, suggestions for further reading, and scriptural indices. The second volume is focused on the topic of practice, including texts on education, advice, forming communities, and instructing congregations. It will be an invaluable resource for students, academic researchers in early Christian studies, history of Christianity, theology, religious studies, and late antique Roman history. *The Cambridge Handbook of Social Problems: A* Javier Treviño, 2018-03-22 The introduction of the Affordable Care Act in the United States, the increasing use of prescription drugs, and the alleged abuse of racial profiling by police are just some of the factors contributing to twenty-first century social problems. The Cambridge Handbook of Social Problems offers a wide-ranging roster of the social problems currently pressing for attention and amelioration. Unlike other works in this area, it also gives great consideration to theoretical and methodological discussions. This Handbook will benefit both undergraduate and graduate students eager to understand the sociology of social problems. It is suitable for classes in social problems, current events, and social theory. Featuring the most current research, the Handbook provides an especially useful resource for sociologists and graduate students conducting research. **The Optical Papers of Isaac Newton**, **Resources in Education**, 1995-10 *An Invitation to Environmental Sociology* Michael Mayerfeld Bell, Loka L. Ashwood, Isaac Sohn, Leslie, Laura Hanson Schlachter, 2020-09-23 *An Invitation to Environmental Sociology* invites students to delve into this rapidly changing field. Written in a lively, engaging style, the authors cover a broad range of topics in

Hermeneutics, History, and Technology Armin Grunwald, Alfred Nordmann, Martin Sand, 2023-06-01 For better and worse the future is often conceived in technological terms Technology is supposed to meet the challenge of climate change or resource depletion And when one asks about the world in 20 or 100 years answers typically revolve around AI genome editing or geoengineering There is great demand to speculate about the future of work the future of mobility Industry 4.0 and Humanity 2.0 The humanities and social sciences science studies and technology assessment respond to this demand but need to seek out a responsible way of taking the future into account This collection of papers interviews debates grew out of disagreements about technological futures speculative ethics plausible scenarios anticipatory governance and proactionary and precautionary approaches It proposes Hermeneutic Technology Assessment as a way of understanding ourselves through our ways of envisioning the future At the same time a hermeneutic understanding of technological projects and prototypes allows for normative assessments of their promises Is the future an object of design This question can bring together and divide policy makers STS scholars social theorists and philosophers of history and it will interest also the scientists and engineers who labor under the demand to deliver that future **Islamic Education and Indoctrination** Charlene

Tan, 2012-01-26 Islamic schools especially madrasahs have been viewed as sites of indoctrination for Muslim students and militants Some educators and parents in the United States have also regarded introductory courses on Islam in some public schools as indoctrinatory But what do we mean by indoctrination And is Islamic education indoctrinatory This book critically discusses the concept of indoctrination in the context of Islamic education It explains that indoctrination occurs when a person holds to a type of beliefs known as control beliefs that result in ideological totalism Using Indonesia as an illustrative case study the book expounds on the conditions for an indoctrinatory tradition to exist and thrive Examples include the Islamic school co founded by Abu Bakar Ba'asyir and the militant organisation Jemaah Islamiyah The book further proposes ways to counter and avoid indoctrination through formal non formal and informal education It argues for the creation and promotion of educative traditions that are underpinned by religious pluralism strong rationality and strong autonomy Examples of such educative Muslim traditions in Indonesia will be highlighted Combining philosophical inquiry with

empirical research this book is a timely contribution to the study of contemporary and often controversial issues in Islamic education

Contemporary Islamic Discourse in the Malay-Indonesian World Azhar Ibrahim, 2022-11-24 While many books have probed the role of Islam in political and social change in Southeast Asia over the past three decades few have focused on the power of the religious discourse itself in shaping this transformation Contemporary Islamic Discourse in the Malay Indonesian World captures the interplay between religion and social thought in comparative case studies from Malaysia Indonesia and Singapore Drawing on a critical sociology of knowledge and a profound understanding of historical contexts the central focus is on Muslim intellectuals who have grappled with the impact of modernity in these societies between those seeking to reform Islam's role and those who take a hardline defensive stance The discussion deals successively with the role of religious traditionalism the upsurge of dakwah revivalism and the public sphere attitudes towards democracy and pluralism and finally the ideas advanced by liberal Islam and its opponents Above all Azhar Ibrahim offers the reader a creative way of understanding the modern Islamic discourse and its relationship to the remaking of society at large Azhar Ibrahim's book cuts through the noise of much discourse on Islam and puts perspective to a vast amount of materials effectively constructing their actual social and historical meaning It should be read by all those seeking an in depth understanding of contemporary Southeast Asia even beyond the particular issues of Islam and Muslims

Shaharuddin Maaruf Academy of Malay Studies University of Malaya This book is a must read for all those interested in a critical evaluation of the force and implications of religious traditionalism conservatism and revivalism on the development of plural and democratic Muslim societies in Southeast Asia and the challenges they pose to critical voices struggling for the relevance of ethical and humanist traditions of Islam
