Lo,2020-09-14 *The Authorship of Place* is the first monograph dedicated to the study of the politics history aesthetics and practices of location shooting for Taiwanese Mainland Chinese and coproduced art cinemas shot in rural communities since the late 1970s Dennis Lo argues that rural location shooting beyond serving aesthetic and technical needs constitutes practices of cultural survival in a region beset with disruptive and disorienting social changes including rapid urbanization geopolitical shifts and ecological crises In response to these social changes auteurs like Hou Xiaoxian Jia Zhangke Chen Kaige and Li Xing engaged in location shooting to transform sites of film production into symbolically meaningful places of collective memories and aspirations These production practices ultimately enabled auteurs to experiment with imagining Taiwanese Mainland Chinese and cross strait communities in novel and contentious ways Deftly guiding readers on a cross strait tour of prominent shooting locations for the New Chinese Cinemas this book shows how auteurs sought out their disappearing cultural heritage by reenacting lived experiences of nation building homecoming and cultural salvage while shooting on location This was an especially daunting task when auteurs encountered the shooting locations as spaces of unresolved historical social and geopolitical contestations tensions which were only intensified by the impact of filmmaking on rural communities This book demonstrates how these complex circumstances surrounding location shooting were pivotal in shaping both representations of the rural on screen as well as the production communities institutions and industries off screen Informed by cutting edge perspectives in cultural geography and media anthropology *The Authorship of Place* both revises Chinese language film history and theorizes groundbreaking approaches for investigating the cultural politics of film authorship and production This extraordinary book discusses the uses of location shooting in films by contemporary Taiwanese and Mainland Chinese directors ranging from Li Xing to Jia Zhangke It highlights the ways in which place memory and identity stances respond to social changes and geopolitical disparities In a world full of uncertainty the argument about the imaginary homeland as an experienced cinematic reality only renders it more urgent and universally relatable Ping hui Liao University of California San Diego *The Authorship of Place* is certainly a welcome intervention into the study of Chinese cinemas and their auteurs that further contributes to the wider study of location shooting as well as cultural geographies and place based imaginaries of film It is rare to find a book dealing with space place in and around cinema that is this inventive and nuanced in its methodologies Stephanie DeBoer Indiana University

open spaces from around Europe and the rest of the world There has long been a focus in urban landscape planning and urban design on the creation of high quality public spaces or place making This is supported by a growing body of research which shows how high quality public spaces are economically and socially beneficial for local communities and contribute positively to residents quality of life and wellbeing However while large amounts of capital are spent on the creation of open spaces little thought is given to and insufficient resources made available for the long term maintenance and management of public spaces or place keeping Without place keeping public spaces can fall into a downward spiral of disrepair where anti social behaviour can emerge and residents may feel unsafe and choose to use other spaces The economic and social costs of restoring such spaces can therefore be considerable where place keeping does not occur Place Keeping also provides an accessible presentation of the outputs of a major European Union funded project MP4 Making Places Profitable Public and Private Open Spaces which further extends the knowledge and debate on long term management of public and private spaces It will be an invaluable resource for students academics and practitioners seeking critical but practical guidance on the long term management of public and private spaces in a range of contexts
