*Venice NA NA*,2002-05-17 This edition of Shakespeare's *The Merchant of Venice* reprints the Bevington edition of the play accompanied by four sets of thematically arranged primary documents and illustrations designed to facilitate many different approaches to Shakespeare's play and the early modern culture out of which the play emerges The texts include maps woodcuts sermons statutes early modern documents reflecting Christian attitudes toward Jews and Jewish reactions to these attitudes excerpts from the bible on money lending as well as contemporary discourses on usury and commerce excerpts from the first account of Jewish life written in the vernacular by a Jew for a Christian audience anti Catholic tracts travel accounts diplomatic reports scenes from a morality play about the corrupting effects of money royal proclamations concerning the treatment of aliens conduct literature and contemporary treatises on the role of women **Love and Money**

Michael Tratner,2021-02-25 When people speak about love and money they usually are referring to a conflict love distorted by the desire for money Such statements imply that love has a distinct form before economics interferes but this book aims to show that such a view simplifies what is going on because people have always been deeply shaped by everything in the social order including economics So when people say that money is distorting love what they are really saying is that the current relationship of love and economics is different from an earlier relationship This book seeks then to demonstrate the intertwining of the discourses of love and money over a long history by focusing on moments when parallel conceptions appear in economic theories and love stories The two discourses intersect because both seek to define qualities and behaviors of human beings which are most valuable and hence most desirable Similar descriptions of valuable behaviors appear at roughly the same time in economic theories of how to acquire wealth and literary stories of how to find ideal lovers By tracking mutual expressions of desire value and acquisition in economics and love stories this book argues for the ubiquity of the intertwining of these discourses while exploring shifts in conceptions of value It focuses on four eras when economic and romantic conceptions of what is most desirable were actively changing in English discourses the early modern 17th century the Victorian 19th the modernist 20th and the postmodern present **Shakespeare's Stage Traffic** Janet Clare,2014-01-09 Shakespeare's unique status has made critics reluctant to acknowledge the extent to which some of his plays are the outcome of adaptation In *Shakespeare's Stage Traffic* Janet Clare re-situates Shakespeare's dramaturgy within the flourishing and competitive theatrical trade of the late sixteenth and early seventeenth centuries She demonstrates how Shakespeare worked with materials which had already entered the dramatic tradition and how in the spirit of Renaissance theory he moulded and converted them to his own use The book challenges the critical stance that views the Shakespeare canon as essentially self-contained moves beyond the limitations of generic studies and argues for a more conjoined critical study of early modern plays Each chapter focuses on specific plays and examines the networks of influence exchange and competition which characterised stage traffic between playwrights including Marlowe Jonson and Fletcher Overall the book addresses multiple perspectives relating to authorship and text performance and reception Who Was William

alleged rivalry between Marlowe and Shakespeare Sawyer examines the literary reception of the two when the writers are placed in tandem during critical discourse or artistic production Focusing on specific examples from the last 400 years the study begins with Robert Greene's comments in 1592 and ends with the post 9 11 and 7 7 era The study not only looks at literary critics and their assessments but also at playwrights such as Aphra Behn novelists such as Anthony Burgess and late twentieth century movie and theatre directors The work concludes by showing how the most recent outbreak of Marlowe as Shakespeare's ghostwriter accelerates due to a climate of conspiracy including belief echoes which presently permeate our cultural and critical discourse     *Shakespeare and the Italian Renaissance* Michele Marrapodi, 2016-04-01 Shakespeare and

the Italian Renaissance investigates the works of Shakespeare and his fellow dramatists from within the context of the European Renaissance and more specifically from within the context of Italian cultural dramatic and literary traditions with reference to the impact and influence of classical coeval and contemporary culture In contrast to previous studies the critical perspectives pursued in this volume's tripartite organization take into account a wider European intertextual dimension and above all an ideological interpretation of the aesthetics or politics of intertextuality Contributors perceive the presence of the Italian world in early modern England not as a traditional treasure trove of influence and imitation but as a potential cultural

force consonant with complex processes of appropriation transformation and ideological opposition through a continuous dialectical interchange of compliance and subversion
