Four British Fantasists Charles Butler, 2006-04-25 *Four British Fantasists* explores the work of four of the most successful and influential fantasy writers of the generation who rose to prominence in the second Golden Age of children's literature in Britain Susan Cooper Alan Garner Diana Wynne Jones and Penelope Lively Drawing on history archeology social geography anthropology and postcolonial theory as well as literary criticism Butler provides a series of new perspectives through which to view these writers' achievements He begins by highlighting some points of biographic coincidence e.g. all four authors were children during WWII all were born within a year or two of each other and all attended Oxford University in the early 1950s when C S Lewis and J R R Tolkien were publishing their seminal fantasies and questions if these factors play any significant role in the development of these fantasy writers The author then uses this question as the springboard for a case study in the assessment of biographical and literary influence The book also considers the role played by Britain itself in determining the shape and preoccupations of these writers' fiction Britain is a land with a long history in which contemporary life is constantly

juxtaposed with evidence of the past in the form of ancient buildings historic sites and archeological remains By placing the work of Cooper Garner Jones and Lively in the context of British culture and of their own time Butler provides a key to their fascination with history mythology and magic and to the ways in which that fascination has found expression in their fiction Students of children s literature and of fantasy literature as well as readers who are interested in the lives of these four subject authors will find this an insightful read Fantasy Fiction Frances Sinclair,2008 Handbook of fantasy fiction for teachers librarians parents and guardians and children themselves in which to find many titles of fantasy fiction that they like or may be tempted to read Includes groups such as classic fantasy comic fantasy Arthurian dark fantasy animals and dragons

World in British Children's Literature Caroline Webb,2014-09-15 This study examines the children s books of three extraordinary British writers J K Rowling Diana Wynne Jones and Terry Pratchett and investigates their sophisticated use of narrative strategies not only to engage children in reading but to educate them into becoming mature readers and indeed individuals The book demonstrates how in quite different ways these writers establish reader expectations by drawing on conventions in existing genres only to subvert those expectations Their strategies lead young readers to evaluate for themselves both the power of story to shape our understanding of the world and to develop a sense of identity and agency Rowling Jones and Pratchett provide their readers with fantasies that are pleasurable and imaginative but far from encouraging escape from reality they convey important lessons about the complexities and challenges of the real world and how these may be faced and solved All three writers deploy the tropes and imaginative possibilities of fantasy to disturb challenge and enlarge the world of their readers

Merlin's War Margaret Doner,2012-04-17 Merlin s War The Battle between the Family of Light and the Family of Dark examines the fact that the history of the human race has been manipulated by a being so clever that we have had no idea he exists In fact he has hidden behind Lucifer but Lucifer is not our devil Much of what has been told to the human race has been designed to keep the truth at bay Whose purpose did it serve to keep the human race unaware of its own origins and ignoring huge pieces of obvious evidence because there is no logical explanation for it It certainly did not serve the human race Merlin is thought of by most humans as a simple embodiment of the wizard Merlin s War reveals that he is much more he is a powerful Creator God who is responsible for creating the human template and seeding life on the Earth Moreover Dracula is thought of as a fictional vampire when he is in fact the being we call Satan responsible for creating war and chaos on Earth and in other galaxies There are two points of view to this story and in order to be fair author Margaret Doner has agreed to tell both sides Merlin s War posits that it is time for the playing field to be evened out The Family of Dark has been in control for too long it s time for the Family of Light

The Obits: New York Times Annual 2012 William McDonald, 2011-11-11 The obits It s the first section many of us turn to when we open the paper not to see who died but rather to find out about who lived to discover the interesting lives of people who ve made a mark A new annual that collects nearly 300 of the best of The New York Times obituaries from the previous year The Obits Annual 2012 is a compelling addictive as salted peanuts who s who of some of the most fascinating people of the twentieth century Written by top journalists each entry is a jewel a miniature nuanced biography filled with the facts we love to read with the surprise and serendipity of life There s David L Wolper the producer of Roots and the story of how he got his start purchasing film footage from Sputnik The jazz singer Abbey Lincoln and her change from glamorous performer she owned a dress of Marilyn Monroe s to civil rights activist she burned the Monroe dress Owsley Stanley the quirky perfecter of LSD who blamed a heart attack on the fact that his mother made him eat broccoli as a child Patricia Neal known by most as a movie star but her real life filled with tragedy adversity and incredible professional ups and downs is almost a surreal play of triumph and tragedy Arranged chronologically like the obits themselves it s a deliciously random walk through the recent past meeting the philosophers newsmen spies publishers moguls soul singers baseball managers Nobel Prize winners models and others who ve shaped the world

Written on Stone Joanne Parker, 2009-10-02 This collection of essays is not interested in the unresolved questions about the origin original use and authentic meaning of the prehistoric monuments of the British Isles It is not concerned with their prehistory Rather it deals with the history of barrows standing stones and stone circles with the ways in which they have been viewed the meanings that have been attributed to them and the significant impact that they have had over the centuries on British life and culture from motivating artists authors musicians and film makers to inspiring New Age religions It is thus as interested in stones commonly believed to be megaliths like the foundation stones of the chapel in the Dartmoor village of South Zeal as in real remains In her recent study of Stonehenge the historian Rosemary Hill asserted Stonehenge does not belong to archaeology or not to archaeology alone Likewise this book is not written primarily for archaeologists or not for the interest of archaeologists alone It will also be of interest to social and cultural historians to those interested in fine art literature or film and to anyone fascinated by the construction of national local or counter cultural identities It should also intrigue anybody who lives near one of the thousands of prehistoric remains that add beauty and mystery to Britain s countryside The book surveys over eight hundred years of rediscovery study superstition inspiration fear restoration and destruction investigating how different generations saw their own anxieties beliefs and concerns reflected in

the mysterious lives of the prehistoric builders By discussing the many different ways in which prehistoric remains have been treated in different periods the book interrogates any notion of objective approaches to archaeology Instead it asserts that what we think of as the past is in fact multiple and man made Thus if we are to effectively interpret and fully understand the prehistoric remains of the past a variety of disciplines and a range of approaches both traditional and unconventional will need to work together For this reason this book has been produced as a jointly authored text a collaboration between archaeologists folklorists historians journalists and literary critics
