Microsoft Reference Architecture For Commerce Version :

Microsoft Reference Architecture for Commerce, Version 2.0 Microsoft Corporation, 2001 The Microsoft Reference Architecture for Commerce Version 2.0 consists of code and documentation designed to accelerate the development of e-commerce solutions for medium to large businesses. This volume includes an e-commerce application which contains reusable and customizable components and was designed to address many of the general business requirements that are common to e-commerce solutions. It also provides complete documentation including a thorough explanation of the application components and the decisions behind the code design and development process. Also instructions for using modifying and testing the code and procedures for setting up the development environment and installing the application. Special Edition Using Microsoft Commerce Server 2002 Don Jones, Mark D. Scott, 2002 Microsoft Commerce Server 2002 provides a platform for the rapid development of e-Commerce web sites. Using the design patterns found in the sample sites and lessons learned from years of field experience, this book defines a path for mapping an e-commerce project. Building Portals, Intranets, and Corporate Web Sites Using Microsoft Servers James J. Townsend, Dmitri Riz, Deon Schaffer, 2004 Corporate Web portals are increasingly common, providing employees and customers with one easy-to-use online access point. Provides a high level yet practical overview of the concepts, technologies, and products used in building successful portals. **Enterprise Architecture for Global Companies in a Digital IT Era** Yoshimasa Masuda, Murlikrishna Viswanathan, 2025-08-22 This book investigates solutions incorporated by architecture boards in global enterprises to resolve issues and mitigate related architecture risks while also proposing and implementing an adaptive integrated digital architecture framework AIDAF and related models and approaches, platforms covering Big Data and AI such as Generative AI, unstructured data analytics, and HCI AI etc, which can be applied in companies to promote IT strategies using cloud, mobile, IT, digital IT. The book is divided into three main parts, the first of which, Chapters 1-2, addresses the background and motivation for AIDAF aligned with digital IT strategies while involving AI and Design Thinking approach. The second part, Chapter 3, provides an overview of strategic enterprise architecture EA frameworks for digital IT, elaborates on the essential elements of EA frameworks in the digital IT era, and advocates using AIDAF models for architecture assessment, risk management, and knowledge management on digital platforms while involving the new models introduced with the Design Thinking approach covering AI and Digital Transformation process. In turn, the third part, Chapters 4-9, demonstrates the application and benefits of AIDAF and related models involving the above new ones for AI and Digital Transformation process as shown in more than six case studies. I found this book to be a very nice contribution to the EA community of practice. I can recommend this book as a textbook for digital IT strategists, practitioners, EA practitioners, students in universities and graduate schools. From the Foreword by Scott A. Bernard: In this new age of the digital information society, it is necessary to advocate a new EA framework.
