Lyons,2016-04-08 In the Renaissance and early modern periods there were lively controversies over why things happen Central to these debates was the troubling idea that things could simply happen by chance In France a major terrain of this intellectual debate the chance hypothesis engaged writers coming from many different horizons the ancient philosophies of Epicurus the Stoa and Aristotle the renewed reading of the Bible in the wake of the Reformation a fresh emphasis on direct empirical observation of nature and society the revival of dramatic tragedy with its paradoxical theme of the misfortunes that befall relatively good people and growing introspective awareness of the somewhat arbitrary quality of consciousness itself This volume is the first in English to offer a broad cultural and literary view of the field of chance in this period The essays by a distinguished team of scholars from the U S Britain and France cluster around four problems Providence in Question Aesthetics and Poetics of Chance Law and Ethics and Chance and its Remedies Convincing and authoritative this collection articulates a new and rich perspective on the culture of sixteenth and

Adventure Narratives in the Early Soviet Union Riccardo Nicolosi, Brigitte Obermayr, 2024-11-12. In the early 1920s, Soviet writers and literary theorists were convinced that adventure fiction held the key to developing a new kind of narrative. The call for a Russian Stevenson, Lev Lunts, profoundly impacted the theory of prose and different notions of the literary hero. It also led theorists like Shklovsky to write dime novels and convinced writers of various backgrounds to explore Soviet topography in a new light, harnessing the synergies between imperialism and adventure. Despite the inherently anarchist nature of adventure and its bourgeois offspring, the magic of adventure found its way into socialist realism under different guises, demanding recognition and resisting neglect, especially in the case of socialist realist film. This book offers a critical historical reconstruction of the early Soviet adventure craze and its lasting popularity in socialist realism. It also offers innovative theoretical propositions for a philological analysis of adventure fiction that arise from this unique historical context.

Narratives of Nostalgia and Repair in American Comics and Literature Aanchal Vij, 2025-08-21 Through a study of both novels and comic books of 20th and 21st century this book claims that it is not possible to create any narrative of exceptionalism without also manufacturing a sense of nostalgia for a past that may or may not have existed Acts of personal or historical repair are central to such nostalgia and symptomatic of a desire to both escape and confront difficult pasts The myth of American exceptionalism is one such narrative of nostalgia that in its conception of damage and acts of repair disables histories Through works by Michael Chabon Art Spiegelman Philip Roth Alan Moore and Ta Nehisi Coates this book reframes the idea of heroism and locates it outside of the hegemonic narrative of American exceptionalism This book puts comics studies and literature in dialogue with disability studies to argue that an able history just like an able body is a myth The figure of the superhero or the trope of heroism is central to the moments of historical repair as well as the identity politics of who repairs the damage The corpus illustrates how American escapism and counterfactual conception of a nation s past can prolong the trauma of beleaguered communities cultures bodies and histories This book reveals how prostheticising one version of history can amputate another there is no narrative of exceptionalism that is also not simultaneously a narrative of disability
