Political Visions Illusions A Survey And Christian Critique Of Contemporary Ideologies:

Political Visions & Illusions David T. Koyzis, 2019-05-07 In this freshly updated comprehensive study political scientist David Koyzis surveys the key political ideologies of our era unpacking the worldview issues inherent to each and pointing out essential strengths and weaknesses Writing with broad international perspective Koyzis is a sensible guide for Christians working in the public square culture watchers and all students of modern political thought **Hopeful Realism** Jesse Covington, Bryan T. McGraw, Micah Watson, 2025-01-07 Natural law as a rich tradition of Christian thought has often been neglected by evangelicals But in this time of deep polarization this generous guide brings together robust natural law theory and practical cases for the evangelical concerned with bringing together their theological commitments to bear on their political judgments **Integrating Theology, Church, and Ministry in a Chinese Seminary** Peter L. H. Tie, Kevin S. Chen, 2024-10-21 A perennial challenge for theological education is the integration of what is learned in the classroom with students church life and ministry Is there a connection How can greater connection be fostered Many seminaries earnestly wrestle with these questions Whereas some of the underlying issues are common to all seminaries others are influenced by the cultural context in which theological education church life and ministry take place In addition to cultural factors the history lifstage and current state of the church and of theological education are different in each context The integration of theology church and ministry is crucial to the effectiveness of a Chinese seminary The great need for theological education for Chinese Christian leaders has rightly been sounded and should continue to be but simultaneously seminaries must think seriously about how to promote quality theological education Beginning with a programmatic article by Dr David Dockery a leading proponent for effective integration this book represents the efforts and reflection of experienced scholar practitioners who work out a vision for integration in the context of a diaspora Chinese seminary in San Jose California **The Kingdom of God** Christopher W. Morgan, Robert A. Peterson, 2012-11-30 The kingdom of God is a very large biblical category indeed Accordingly a comprehensive understanding of the kingdom would illuminate many aspects of theology With this in mind Bruce Waltke Robert Yarborough Gerald Bray Clinton Arnold Gregg Allison Stephen Nichols and Anthony Bradley have collaborated to articulate a full view of the kingdom of God across multiple disciplines One of the most important books on the kingdom since G E Ladd this volume offers a robust theology and is corroborated by the very series in which it stands Fourth in the noted *Theology in Community* series **The Kingdom of God** establishes the significance of the kingdom from the perspectives of biblical theology systematic theology history pastoral application missiology and cultural analysis Part of the *Theology in Community* series **Development as Peace** Wole Adegbile, 2023-08-04 The colonial definition of development has not served Africa well While Western assessments have generally revolved around a nation's GDP infrastructure and the like African cultures and the Yoruba people in particular have traditionally measured development in relation to the amount of peace experienced in a society and the wellbeing of its people In this study Dr Wole Adegbile examines the political

theological and cultural contexts of contemporary development activity in Africa including the impact of modernization theory on African nation states He then draws on traditional Yoruba political thoughts and practices including the similarities between the Yoruba conception of a thriving community and the biblical principle of shalom to formulate a contextual political theology of development that would holistically address cultural identity and spiritual restoration Rooted in the intersection of Scripture and traditional African values this book suggests a way forward for African society its political leaders and the church

Christians, the State, and War Gordon L. Heath, 2022-03-14 In *Christians the State and War An Ancient Tradition for the Modern World* Gordon Heath argues that the pre Constantinian Christian testimony regarding the state's just use of violence was remarkably uniform and that it was arguably a catholic or universal tradition More specifically that tradition had five interrelated and intertwined constitutive areas of consensus that can best be understood as parts of one collective tradition Heath further argues that those five related areas of an early church tradition shaped all subsequent theological developments on views of the state its use of violence and the conditions of Christian participation in said violence Whereas the sorry and sordid instances in the church's history related to violence were times when the church drifted from those convictions of consensus the cases when Christians had a more stellar record of responding to the horrors of the world were times when they lived up to them Consequently the way forward today is for Christians to forgo beginning with the just war pacifist debate and instead to begin by letting their views on war and peace be shaped by that ancient tradition

The Good of Politics (Engaging Culture) James W. Skillen, 2014-03-18 In this addition to the acclaimed *Engaging Culture* series a highly respected author and Christian thinker offers a principled biblical perspective on engaging political culture as part of one's calling James Skillen believes that constructive Christian engagement depends on the belief that those made in the image of God are created not only for family life agriculture education science industry and the arts but also for building political communities justly ordered for the common good He argues that God made us to be royal stewards of public governance from the outset and that the biblical story of God's creation judgment and redemption of all things in Jesus Christ has everything to do with politics and government In this irenic nonpartisan treatment of an oft debated topic Skillen critically assesses current political realities and helps readers view responsibility in the political arena as a crucial dimension of the Christian faith

Disarming Leviathan Caleb E. Campbell, 2024-07-02 Christian nationalism a worldview rooted in un-Christian ideas about power race and property has taken over large swaths of the United States Introducing the basics of Christian nationalism and its talking points pastor Caleb Campbell equips Christians to confront these claims with compassion and the truth of the good news of Jesus

Political Church Jonathan Leeman, 2016-03-02 What is the nature of the church as an institution What are the limits of the church's political reach Drawing on covenant theology and the new institutionalism in political science Jonathan Leeman critiques political liberalism and explores how the biblical canon informs an account of the local church as an embassy of Christ's kingdom

God and the EU Jonathan Chaplin, Gary

Wilton,2015-12-14 The current political economic and financial crises facing the EU reveal a deeper cultural indeed spiritual malaise a crisis in the soul of Europe Many observers are concluding that the soul of Europe cannot be restored to health without a new appreciation of the contribution of religion to its past and future and especially that of its hugely important but widely neglected Christian heritage which is alive today even amidst advancing European secularization This book offers a fresh constructive and critical understanding of Christian contributions to the origin and development of the EU from a variety of theological and national perspectives It explains the Christian origins of the EU documents the various ways in which it has been both affirmed and critiqued from diverse theological perspectives offers expert theologically informed assessments of four illustrative policy areas of the EU trade finance environment science and also reports on the place of religion in the EU including how religious freedom is framed and how contemporary religious including Muslim actors relate to EU institutions and vice versa The book fills a major gap in the current debate about the future of the European project and will be of interest to students and scholars of religion politics and European studies *American Exceptionalism and Civil Religion* John D. Wilsey,2015-10-22 The idea of America s special place in history has been a guiding light for centuries With thoughtful insight John D Wilsey traces the concept of exceptionalism including its theological meaning and implications for civil religion This careful history considers not only the abuses of the idea but how it can also point to constructive civil engagement and human flourishing *The Crisis of Evangelical Christianity* Keith C. Sewell,2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orb ed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century *The Kuyper Center Review, Volume 4* Gordon Graham,John Bowlin,2014-04-20 This volume of essays is a new step by the Abraham Kuyper Center for Public Theology at Princeton Theological Seminary to stimulate new work in the broad area of Reformed theology and public life The contributions here deal largely with political themes some contemporary some historical *The Religious Problem with Religious Freedom* Robert Joustra,2017-08-17 Rival understandings of the meaning and practice of the religious and the secular lead to rival public perspectives about religion

and religious freedom in North America This book explores how debates over the American Office of Religious Freedom and its International Religious Freedom Act IRFA 1998 and very recent debates over the Canadian Office of Religious Freedom 2013 have pitted at least six basic but very different meanings of the religious and the secular against each other in often undisclosed and usually unproductive ways Properly naming this religious problem is a critical first step to acknowledging and conciliating their practically polar political prescriptions It must be considered how we are to think about religion in political offices both the Canadian and the American experience as an essentially contested term and one which demands better than postmodern paralysis what the author terms political theology This is especially critical since both of these cases are not just about how to deal with religion at home but how to engage with religion abroad where real peril and real practical policy must be undertaken to protect increasingly besieged religious minorities Finally a principled pluralist approach to the religious and the secular suggests a way to think outside the religious problem and productively enlist and engage the forces of religion resurging around the globe The book will be of great use to scholars and students in religion and foreign affairs secularization political theology and political theory as well as professionals and policy makers working in issues relating to religion religious freedom and foreign affairs **Something Seems Strange** Anthony B.

Bradley, 2016-09-21 Life happens at the intersection of faith and culture Whether we are Christians or not we all have some narrative about the way the world ought to be that shapes how we view the world and live our lives In this book Anthony Bradley explores those intersections in ways that analyze and direct our imaginations toward the best practices that lead to human flourishing Economics political philosophy sociology psychology and theology are just a few of the disciplines used in an attempt to make sense of a world where things are not the way they are supposed to be Something does seem strange about the world but we are not left without tools and principles that we need to make life work at the intersections of faith and culture The aim of *Something Seems Strange* is to provide a model of thinking about life at those intersections so that people can live freely according to their God given design Herman Dooyeweerd Jonathan Chaplin, 2016-02-15 The twentieth century Dutch philosopher Herman Dooyeweerd 1894 1977 left behind an impressive canon of philosophical works and has continued to influence a scholarly community in Europe and North America which has extended critiqued and applied his thought in many academic fields Jonathan Chaplin introduces Dooyeweerd for the first time to many English readers by critically expounding Dooyeweerd's social and political thought and by exhibiting its pertinence to contemporary civil society debates Chaplin begins by contextualizing Dooyeweerd's thought first in relation to present day debates and then in relation to the work of the Dutch philosopher Abraham Kuyper 1837 1920 Chaplin outlines the distinctive theory of historical and cultural development that serves as an essential backdrop to Dooyeweerd's substantive social philosophy examines Dooyeweerd's notion of societal structural principles and sets forth his complex classification of particular types of social structure and their various interrelationships Chaplin provides a detailed examination of Dooyeweerd's theory of the

state its definitive nature and its proper role vis vis other elements of society Dooyeweerd's contributions Chaplin concludes assist us in mapping the ways in which state and civil society should be related to achieve justice and the public good

Living Under Water Kevin J. Adams, 2022-01-25 Our truest identity isn't something we create or build ourselves It's a gift we receive We live under water What does baptism mean And what do we do with it Kevin Adams an experienced pastor and church planter who has baptized people of all ages and spiritual origins makes the case that baptism isn't merely a one time ceremony but something to be lived and affirmed throughout one's life In *Living under Water* Adams shares stories that illustrate how baptism shapes one's identity and enters us into an alternate narrative one ongoing since the dawn of creation through which we understand our truest selves with all our joy and trauma and by which we are united with a group of people unbound by race or language continent or generation Foregrounding baptism in the lives of Christians means foregrounding baptism in the life of the church Anchored in both theology and real world experience Adams shows how that can happen while engaging honestly with the history and ongoing reality of baptism's corruptions and abuses This book is for pastors and parishioners of any Christian tradition who long for baptism to be bigger than a set of doctrinal bullet points nothing less than the gospel story enacted with water

Calvinism for a Secular Age Jessica R. Joustra, Robert J. Joustra, 2022-02-08 Pastor politician and Dutch Neo Calvinist theologian Abraham Kuyper's lectures on the role of Christian faith in politics science and art have become a touchstone of contemporary Reformed theology Revisiting these lectures Jessica and Robert Joustra bring together theologians historians scientists and others to consider Kuyper's ongoing importance and complex legacy for today

Church and Civil Society Michael Walker, 2017-07-31 Germany and South Africa experienced drastic social transitions with the fall of the Berlin Wall in 1986 and the end of Apartheid in 1994 This book consists of a collection of essays from German and South African theologians who analyse the role that religious communities had and are still playing within the respective civil societies The concept and texture of civil society are analysed case studies are presented theological perspectives are given on the relation between church state and civil society and guidelines are provided for the healing role that Christian religious communities can play in Germany and South Africa This book is mainly directed at theologians and scholars in religious studies however sociologists and political philosophers may also find the essays informative Besides the wide variety of theological approaches sociological and empirical data and practical theological perspective the book also yields interesting comparative analysis on two societies in transition

We Answer to Another David T. Koyzis, 2014-03-13 The quest to escape authority has been a persistent feature of the modern world animating liberals and Marxists Westerners and non Westerners alike Yet what if it turns out that authority is intrinsic to humanity What if authority is characteristic of everything we are and do as those created in God's image even when we claim to be free of it What if kings and commoners teachers and students employers and employees all possess authority This book argues that authority cannot be identified with mere power is not to be played off against freedom and is not a mere

social construction Rather it is resident in an office given us by God himself at creation This central office is in turn dispersed into a variety of offices relevant to our different life activities in a wide array of communal settings Far from being a conservative bromide the call to respect authority is foundational to respect for humanity itself
