Bessant, Maggy Heintz, 2013-03-21 Science and innovation have the power to transform our lives and the world we live in for better or worse

in ways that often transcend borders and generations from the innovation of complex financial products that played such an important role in the recent financial crisis to current proposals to intentionally engineer our Earth's climate. The promise of science and innovation brings with it ethical dilemmas and impacts which are often uncertain and unpredictable; it is often only once these have emerged that we feel able to control them. How do we undertake science and innovation responsibly under such conditions towards not only socially acceptable but socially desirable goals and in a way that is democratic, equitable and sustainable? Responsible innovation challenges us all to think about our responsibilities for the future as scientists, innovators and citizens and to act upon these. This book begins with a description of the current landscape of innovation and in subsequent chapters offers perspectives on the emerging concept of responsible innovation and its historical foundations including key elements of a responsible innovation approach and examples of practical implementation. Written in a constructive and accessible way, *Responsible Innovation* includes chapters on Innovation and its management in the 21st century, A vision and framework for responsible innovation, Concepts of future oriented responsibility as an underpinning philosophy, Values sensitive design, Key themes of anticipation, reflection, deliberation and responsiveness, Multi level governance and regulation, Perspectives on responsible innovation in finance, ICT, geoengineering and nanotechnology. Essentially multidisciplinary in nature, this landmark text combines research from the fields of science and technology studies, philosophy, innovation governance, business studies and beyond to address the question: How do we ensure the responsible emergence of science and innovation in society?

Romanticism Carmen Casaliggi, Porscha Fermanis, 2016-05-12 The Romantic period coincided with revolutionary transformations of traditional political and human rights discourses as well as witnessing rapid advances in technology and a primitivist return to nature. As a broad global movement, Romanticism strongly impacted on the literature and arts of the late eighteenth and early nineteenth centuries in ways that are still being debated and negotiated today. Examining the poetry, fiction, non-fiction, drama and the arts of the period, this book considers important propositions and landmark ideas in the Romantic period. Key debates and critical approaches to Romantic studies. New and revisionary approaches to Romantic literature and art. The ways in which Romantic writing interacts with broader trends in history, politics and aesthetics. European and Global Romanticism. The legacies of Romanticism in the twentieth and twenty-first centuries. Containing useful reader friendly features such as explanatory case studies, chapter summaries and suggestions for further reading, this clear and engaging book is an invaluable resource for anyone who intends to study and research the complexity and diversity of the Romantic period as well as the historical conditions which produced it.

Republican Politics and English Poetry, 1789-1874 Stephanie Kuduk Weiner, 2005-08-03 This study explores how poets who espoused republican political ideals sought to embody and advance those principles in their verse. By examining a range of canonical and non-canonical authors including Blake, Shelley, Cooper, Linton, Landor, Meredith, Thomson and Swinburne, Kuduk Weiner connects the formal strategies of republican poems to the political theory and expressive cultures of

republican radicalism Her new study traces a strain of powerful complex political poetry that casts new light on the political and literary history of nineteenth century England **The Politics of Language in Romantic Literature** Richard Marggraf Turley,2002-12-11 This innovative study examines a range of canonical and non canonical materials to open a new narrative on the mutually illuminating interchange between Romantic literature and philological theory in the late eighteenth and early nineteenth centuries Arguing that philology can no longer be treated as something that did not happen to Romantic authors this book undertakes a substantial revision of our understanding of the intellectual and political contexts that helped determine the Romantic consciousness Classical Literature & History of English Literature For B.A. (Sem.-5) According to NEP-2020 R. If Babel Had a Form Tze-Yin Teo, 2022-04-05 The likeness of form between Chinese and English sentences writes the American Sinologist Ernest Fenollosa around 1906 renders translation from one to the other exceptionally easy If Babel Had a Form asks not if his claim may be true but what its phantasmic surprise may yet do In twentieth century intersections of China and Asia with the United States translations did more than communicate meaning across politicized and racializing differences of language and nation Transpacific translation breached the regulative protocols that created those very differences of human value and cultural meaning The result Tze Yin Teo argues saw translators cleaving to the sounds and shapes of poetry to imagine a translingual likeness of form but not of meaning or kind At stake in this form without meaning is a startling new task of equivalence As a concept equivalence has been rejected for its colonizing epistemology of value naming a broken promise of translation and false premise of comparison Yet the writers studied in this book veered from those ways of knowing to theorize a poetic equivalence negating the colonial foundations of the concept they ignited aporias of meaning into flashpoints for a radical literary translation The book's transpacific readings glean those forms of equivalence from the writing of Fenollosa the vernacular experiments of Boxer Scholar Hu Shi the trilingual musings of Shanghai born Los Angeles novelist Eileen Chang the minor work of the Bay Area Korean American transmedial artist Theresa Cha and a post Tiananmen elegy by the exiled dissident Yang Lian The conclusion returns to the deconstructive genealogy of recent debates on translation and untranslatability displacing the axiom of radical alterity for a no less radical equivalence that remains pace Fenollosa far from easy or exceptional Ultimately *If Babel Had a Form* illuminates the demanding force of even the slightest sameness entangled in the translator's work of remaking our differences
