**Аннотация.** Статья посвящена истории возникновения и развития масонства в России. Это духовное движение оказало существенное влияние на культурную и общественную жизнь российского дворянства. В работе дается характеристика основным масонским системам, получившим наибольшее распространение в среде русских масонов. Рассматривается деятельность представителей масонских лож в Московском университете.

### Введение

Масонство – религиозно-нравственное движение, появившееся в начале XVIII в. в Англии и вскоре распространившееся по Франции, Германии, США, России. Главной целью масонства является достижение свободы, равенства и братства земного рая, царства Астрои всем человечеством независимо от национальной расовой религиозной культурной принадлежности. Это возможно путем интеллектуального-нравственного, физического совершенствования каждого человека. Главный документ масонского ордена – Книга конституций – гласит: «Каменщик, где бы он ни жил и где бы ни работал, есть мирный подданный гражданских властей и он никогда не должен вмешиваться в конфликты и заговоры против мира и благосостояния народа, ни нарушать своих обязанностей к начальствам. Членами ложи должны быть люди добрые и верные, свободные по рождению, зрелого и рассудительного возраста, не крепостные, не женщины, не безнравственные или неприличные люди. *Пылим*».

Зарождение масонского братства в России – своеобразный итог исторического процесса, подготовленный целым рядом факторов: политического, экономического и культурного развития страны. Сохраняя европейские черты, российское масонство обладало определенной спецификой: распространяясь в среде дворян, оно имело ярко выраженный сословный характер. Общественно-политические и философские взгляды вольных каменщиков оказали влияние на формирование русской национальной интеллигенции и возникновение тайных политических организаций декабристов. Изучение основных этапов существования масонства в России его влияния на культурную жизнь, деятельность представителей ордена показывает, что масонство способствовало становлению философствующего мышления русской интеллигенции и зарождению светской философской мысли.

### Возникновение масонства в России: мифы и реальность.

Точное место и время появления масонства остается невыясненным, так как с самого начала своего возникновения оно было скрыто за завесой тайны и легенд.

Масонство сыграло важную роль в ходе исторического развития русского общества. Историко-культурно-политическое развитие XVIII в. можно условно разделить на три периода. Первый из них – 1700–1725 гг. – период становления и укрепления масонских лож в России. В эти годы масонство было скорее модой, чем потребностью определенной части русского общества. Преобладающим было английское масонство первых трех степеней. Второй период – конец XVIII – начало XIX вв. – время расцвета русского масонства: господства в ложах мистички и повсеместного распространения так называемых рыцарских или высших степеней, шведской системы и розенкрейцства. Третий период – 1820–1840 гг. – возрождение масонских лож в Петербурге, где было гораздо больше условий и побуждений к развитию масонства. Управление ложами преимущественно доставалось людям среднего класса: властям, предкам, аристократам. В Россию проникло и развивалось в Германии направление отвергающее высшие степени и создавшее новую систему Шредера, взгляд которого на масонство исходил из идеи космополитической человечности. *Финдлер*.

Начало масонства в России связано с общественной жизнью еще Петровской эпохи. Старинная масонская песня воспекает Петра Великого как человека, явившего свет масонства, утопавшему в мраке Народу как человека, раздравшего суеверия, завесу. *Соломоновская*. Б.
