Politicization Of Society:

The Politicization of Society Kenneth S. Templeton, 1979 **Max Weber's Politics of Civil Society** Sung Ho Kim, 2004-06-07 This book is an in depth interpretation of Max Weber as a political theorist of civil society On the one hand it reads Weber's ideas from the perspective of modern political thought rather than the modern social sciences on the other it offers a liberal assessment of this complex political thinker without attempting to apologize for his shortcomings Through an alternative reading of Weber's religious epistemological and political writings the book shows Weber's concern with public citizenship in a modern mass democracy and civil society as its cultivating ground Kim argues Weber's political thought thus recast was deeply informed by Kant Hegel Nietzsche and other German political thinkers and also reveals an affinity to the liberal republican tradition best represented by Mill and Tocqueville Kim has effectively resuscitated Weber as a political thinker for our time in which civic virtues and civil society have once again become one of the dominant issues **Jokes and their Relations to Society** Christie Davies, 2012-10-25 No detailed description available for Jokes and their Relations to Society **Civil Society, Religion, and the Nation**, 2022-05-20 Japan Russia and Turkey are major examples of countries with different ethnic religious and cultural background that embarked on the path of modernization without having been colonized by a Western country In all three cases national consciousness has played a significant role in this context The project of Modernity is obviously of European origin but is it essentially European Does modernization imply loss of a country's cultural or national identity If so what is the fate of the modernization process in these cases The presence of the idea and reality of civil society can be considered a real marker of Modernity in this respect because it presupposes the development of liberalism individualism and human rights But are these compatible with nationalism and with the idea of a national religion These questions are the more pressing as Japan is considered part of the Western world in many respects and Russia and Turkey are defining their relation to the European Union in different ways An investigation of these three countries set off against more general reflections sheds light on the possibilities or limitations of modernization in a non European context

Secular State and Religious Society B. Turam,2011-12-15 On the basis of original empirically rich and theoretically sound social research the chapters in this volume reveal and analyze the complex relations between the secular government of Turkey and the religious persons and society within the Turkish state Conflicts in the Knowledge Society Sebastian Haunss,2013-04-11 Sebastian Haunss demonstrates how intellectual property conflicts have brought about new cleavages in the knowledge society and new collective actors Civil Society in Comparative Perspective Bernard Enjolras,Karl Henrik Sivesind,2009-12-01 Presents a collection of comparative studies of civil society around two main issues the comparison and analysis of civil society regimes in relation to different constructions of citizenship and welfare states and the role of civil society in governance and active participation of citizens *Human Dignity, Education, and Political Society* James Greenaway,2020-07-07 A life of liberty and responsibility does not just happen but requires a particular kind of education one that aims at both a growth of the human soul and an enrichment of political society in justice and the common good This we call a liberal education Forgetfulness of liberty is also a forgetfulness of the multi dimensional nature of the human person and a diminution of political life Keeping in mind what can be lost when liberal education is lost this volume makes the case for recovering what is perennially noble and good in the liberal arts and why the liberal arts always have a role to play in human flourishing Each of the authors herein focuses on the connection of three primary themes human dignity liberal education and political society Intentionally rooted in the hub that joins the three themes each author seeks to unfold the contemporary significance of that hub As a whole the volume explores how the three themes are crucial to each other how they illuminate each other how they need each other and how the loss of one jeopardizes the wellbeing of the others In individual chapters the authors engage various relevant aspects of liberal education As a result the volume is organized into three parts Liberal Education and a Life Well Lived Thinkers on Dignity and Education in History Contemporary Topics in Dignity and Education As education is increasingly channeled into an ever more narrow focus on technical specialization and measured against professional success students themselves face a maelstrom of campus politics and competing political orthodoxies These are among the issues that tend to militate against the operative liberty of the student to think and to speak as a person This edited collection is offered as an invitation to think again about the liberal arts in order to recover the
