

The Act of Walpole

- ✦ **Sir Robert Walpole** dominated English politics from 1721 till 1742 based on his royal support, ability to handle the House of Commons and control over government patronage
 - ◆ promoted peace at home and abroad
 - ◆ spread trade from North America to India
 - ◆ builds the military, especially the navy making Britain a world power
- ✦ the results of Walpole is England becomes a military power with both religious and political liberty

Politics And Letters In The Age Of Walpole

Paul Langford

Politics And Letters In The Age Of Walpole:

Politics and Letters in the Age of Walpole B. W. Last, 1987 **Arts and Arms** M. John Cardwell, 2004 Protagonists featured include William Pitt Henry Fox the Duke of Newcastle Lord Bute George II and III and Britain's ally Frederick II of Prussia By placing literary works in a close political context they test the accuracy of the information conveyed against the correspondence and memoirs of politicians and parliamentary debates The degree to which literature not only recorded but also helped to shape political attitudes is explored by its interaction with these and other expressions of opinion such as popular protest and extra parliamentary initiatives **Sir Robert Walpole's Poets** Tone Sundt Urstad, 1999 During Sir Robert Walpole's term as Prime Minister exorbitant amounts of money were spent on propaganda in support of his administration Since nearly all the major writers of the period adopted an anti government stance however historians have shown far more interest in the organization and contents of opposition propaganda than in its pro government counterpart This book is the first comprehensive study of the literature published in support of Walpole's administration and explores important pro government themes and also explains how the propaganda network was organized and what precisely the Old Corps Whig leadership hoped to achieve BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Politics of the People in Eighteenth-Century Britain H.T. Dickinson, 2016-01-13 This challenging and original study examines the most important aspects of popular political culture in eighteenth century Britain The first part explores the way the British people could influence existing political institutions or could exploit their existing powers by looking at the role of the people in parliamentary elections in a wide range of pressure groups in their local urban communities and in popular demonstrations The second part shows how the British people became increasingly politicised during the eighteenth century and how they tried to shape or defend their political world Politics and Literature in the Age of Swift Claude Julien Rawson, 2010-05-20 A wide range of new approaches to Swift's literary and political achievement in its English and Irish contexts A Polite and Commercial People Paul Langford, 1998 This book the first volume to appear of the New Oxford History of England offers the most authoritative comprehensive general history of England between the accession of George II and the loss of America Though conventionally seen as static and politically stable the eighteenth century was an age of extraordinary vitality and variety of contrasts and change Beneath the serene surface of aristocratic government stately manners and Georgian elegance lay a less orderly world of treasonable plots riotous mobs and Hogarthian vulgarity While rapid commercial growth and burgeoning bourgeois pretensions gave rise to the positive achievements of military success and imperial expansion cultural confidence and polite manners tensions and contradictions simmered and threatened Evangelical enthusiasm jostled with scientific rationalism oligarchical politics with popular insubordination entrepreneurial opulence with plebian poverty sentimentality with utilitarian reform Using the most up to date research Paul Langford reveals the true character of the age and demonstrates that eighteenth century society was both

strengthened and stretched by the changes to which it was subjected THE NEW OXFORD HISTORY OF ENGLAND series General Editor J M Roberts The first volume of Sir George Clark s Oxford History of England was published in 1934 Over the following fifty years that series established itself as a standard work of reference and a repertoire of scholarship for hundreds of thousands of readers The New Oxford History of England of which this is the first volume is its successor Each volume will set out an authoritative view of the present state of scholarship presenting a distillation of the new knowledge built up by a half century s research and publication of new sources and incorporating the perspectives and judgements of a new generation of scholars It is the intention of the General Editor and the Publisher that shall worthily take the place of its predecessor as the standard authoritative account of the national history and achieve a similar classic standing

Commerce and Politics in Hume's History of England Jia Wei, 2017 Illuminates the relationship between Hume the political thinker Hume the historian and Hume the political economist and highlights the social economic and institutional changes which he wove into an innovative theory of causation David Hume s six volume History of England From the Invasion of Julius Caesar to the Revolution in 1688 1754 61 is probably his most important work as a constitutional historian and political theorist Jia Wei s book shows that the History can be understood in two ways firstly as Hume s own narrative of England s state formation and secondly as his answer to the question of how eighteenth century Britain could cope with the challenges of commercial revolution It illuminates the relationship between Hume the political thinker Hume the historian and Hume the political economist and highlights the social economic and institutional changes which he wove into an innovative theory of causation The first part of the book considers Hume s account of the fundamental rationale of maritime trade and England s unique approach to liberty in the modern era The second part looks at his views concerning the profound impact of maritime trade on English politics From his perspective the problem of how to cope with the challenges posed by the commercial revolution in eighteenth century Britain was closely linked to the question of how transoceanic trade had fundamentally recast English politics from the sixteenth century onwards This study shows how these two narratives were interwoven into Hume s History and will be of interest to scholars and students not only of David Hume and political theory but of historiography eighteenth century British history and Enlightenment studies JIA WEI received her PhD from the University of Cambridge *Myth and Reality In Late Eighteenth Century British Politics* Ian R.

Christie, 2023-11-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1970 **Horace Walpole's Letters** George E. Haggerty, 2011-05-12 In

looking closely at Horace Walpole s Correspondence George E Haggerty shows how these letters when taken in aggregate offer an astonishingly vivid account of the vagaries of eighteenth century masculinity Walpole talks about himself obsessively

his wants his needs his desires his physical and mental pain his artistic appreciation and his critical responses It is impossible to read these letters and not come away with a vivid impression of a complex personality from another age Haggerty examines the ways in which Walpole presents himself as an eighteenth century gentleman and considers his personal relationships his needs and aspirations his emotionalism and his rationality in short his construction of himself in order to see what it tells us about the age in general and more specifically about masculinity in an era of social flux This study of Walpole and his epistolary relations offers a unique window into both the history of masculinity in the eighteenth century and the codification of friendship as the preeminent value in western culture Recent studies have tried to rewrite Walpole in a twenty first century mold while this work looks at the writer and the ways in which he constructs himself and his relations not in hopes of uncovering a lurid secret but rather in pursuit of the figure that he created and that has fascinated generations of readers and writers since the eighteenth century

A Political Biography of Eliza Haywood Kathryn R King,2015-10-06

While under arrest in 1750 on suspicion of producing a seditious pamphlet Eliza Haywood insisted she never wrote any thing in a political way This study of the life and works the first full length biography of Haywood in nearly a century takes the measure of her duplicity

Hutcheson: Two Texts on Human Nature Francis Hutcheson,1993-07-29 Francis Hutcheson 1694 1746 was the first major philosopher of the Scottish Enlightenment and one of the great thinkers in the history of British moral philosophy He firmly rejected the reductionist view common then as now that morality is nothing more than the prudent pursuit of self interest arguing in favour of a theory of a moral sense The two texts presented here are the most eloquent expressions of this theory The *Reflections on our Common Systems of Morality* insists on the connection between moral philosophy and moral improvement and was a preview of his first major work the *Inquiry* of 1725 The lecture *On the Social Nature of Man* arguing against the psychological egoism of Hobbes appears here in an English translation for the first time Thomas Mautner s introduction and editorial apparatus provide a mass of new information helping to give the reader a sense of the intellectual climate in which Hutcheson lived

A Political Biography of Samuel Johnson Nicholas

Hudson,2015-10-06 Johnson rose from obscure origins to become a major literary figure of the eighteenth century Through a detailed survey of his major works and political journalism Hudson constructs a complex picture of Johnson as a moralist forced to accept the realistic nature of politics during an era of revolutionary transition

British Politics in the Age of Anne Geoffrey Holmes,1987-01-01 *British Politics in the Age of Anne* is a book that anyone with an interest in the period will wish to possess completely authoritative yet as attractive to the student and the general reader as to the specialist The author has both revised the text and written a substantial new introduction to this edition Geoffrey Holmes reveals how little the structure and contents of politics under Queen Anne had in common with the connexion ridden scene of the mid eighteenth century as portrayed by Namier He depicts a period of fierce and genuine party conflict in which society at many levels was divided by great issues of principle and policy Through frequent and hotly contested elections and long parliamentary

campaigns both Whigs and Tories enjoyed triumphs and suffered disasters And while struggling against one another each had to contend with internal factions and pressure groups the divisive thrust of personal ambitions and the hostility of the queen to single party rule British politics in the Age of Anne is more than a major work of analysis and a historiographical landmark By liberal use of quotation eye for detail sense of atmosphere and vivid character sketches of both leading and lesser personae Professor Holmes recreates the unique political life of the high Augustan age The Saturday Review of Politics, Literature, Science, Art, and Finance ,1904 The Living Age ,1846 An Oxford Companion to the Romantic Age ,1999 **Passages from My Autobiography** Lady Morgan (Sydney),1859 **Johnsonian News Letter** James Lowry Clifford,1990 *The Edinburgh Review* ,1848 **Sex, Money and Personal Character in Eighteenth-Century British Politics** Marilyn Morris,2015-01-28 How and why did the Anglo American world become so obsessed with the private lives and public character of its political leaders Marilyn Morris finds answers in eighteenth century Britain when a long tradition of court intrigue and gossip spread into a much broader and more public political arena with the growth of political parties extra parliamentary political activities and a partisan print culture The public s preoccupation with the personal character of the ruling elite paralleled a growing interest in the interior lives of individuals in histories novels and the theater Newspaper reports of the royal family intensified in intimacy and its members became moral exemplars most often paradoxically when they misbehaved Ad hominem attacks on political leaders became commonplace politicians of all affiliations continued to assess one another s characters based on their success and daring with women and money And newly popular human interest journalism promoted the illusion that the personal characters of public figures could be read by appearances

Eventually, you will unconditionally discover a other experience and feat by spending more cash. nevertheless when? do you say yes that you require to get those all needs in the same way as having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will lead you to comprehend even more on the globe, experience, some places, subsequent to history, amusement, and a lot more?

It is your entirely own get older to behave reviewing habit. in the course of guides you could enjoy now is **Politics And Letters In The Age Of Walpole** below.
