**Politics and Method** Doreen Massey, Richard Meegan, 1985      Politics and Method Doreen B. Massey, Richard A. Meegan, 2015      **Politics and Method (Routledge Revivals)** Doreen Massey, Richard Meegan, 2015-04-10 This book first published in 1985 explores the connections in academic research between theoretical positions political perspectives and policy prescriptions Five different groups of authors who have written broadly in the fields of industrial and social geography discuss this relationship and illustrate it with recent work Around their contributions the editors have constructed a book that is both a guide to the research debate for students at all levels and a handbook with notes and questions for those about to undertake their own research projects Though designed primarily for use on undergraduate geography urban studies and applied economics courses its broad debate on research method is important for all professional and postgraduate researchers in the social sciences      Progress in Industrial Geography (Routledge Revivals) Michael Pacione, 2014-06-03 This edited collection first published in 1985 deals with a number of the major themes central to the study of industrial geography Topics under discussion include new methodologies the growing service industries foreign investment and the industrial geography of the developing world With a detailed introduction from Michael Pacione and comprehensive coverage the title reflects the extent to which the field of industrial geography changed over the second half of the twentieth century in response to economic change incorporating the growth of multinational enterprises and the influence of globalisation alongside traditional discussion of the manufacturing industry Providing an essential background to developments in industrial geography this title will be valuable to students with an interest in the economics characteristics and advancement of industrial change      **Visible Histories** Suzanne Mackenzie, 1989 While there has been growing interest in assimilating women s experience into the social record of human history relatively few studies have examined the environments women have built and changed in creating history Through an examination of the process of environmental change as an important part of gender relations and socio economic activity Suzanne Mackenzie shows how the environmental activity of women both increased the visibility of their historical creativity and altered existing environments in the resort city of Brighton England She documents the multitude of ways in which women changed not only themselves but also the city in which they lived during the decades between the end of the Second World War and the early 1980s      City of Revolution Jamie Peck, Kevin Ward, 2002-10-11 This book provides a comprehensive reflective and critical analysis of the far reaching process of urban transformation searching beneath the hype to expose the true character of the new Manchester Has Manchester engineered an urban renaissance having finally turned its back on the grimy factory economy Or is it on a slow motion slide into the post industrial sludge of economic insecurity and social polarization Drawing on the work of leading researchers and commentators in the field this collection provides answers to these and other questions concerning Manchester s changing political economy      *Taking Ownership* Malik Watkins,      A United Kingdom? John Mohan, 2014-04-23 The human

geography of the UK is currently being reshaped by a number of forces such as globalisation transition in the organisations of production the changing character of state intervention and changing relationships with Europe A consideration of the impacts of these forces on economic social and political landscapes is therefore an urgent task At the same time enduring institutional features of the British economy and polity are also having important influences on socio economic processes The result is a complex mosaic of uneven development which belies the notion of simplistic regional contrasts Rather than simply mapping spatial inequality A United Kingdom charts the processes underpinning uneven development at a range of scales and for a number of key topics The book draws upon and synthesises the latest contemporary research findings and places emphasis on the interrelated nature of economic social and political geographies It treats the human geographies of the UK in a coherent and integrated way and asks whether contemporary processes of change are tending towards the reduction of socio spatial divisions or their reproduction in new forms

**The SAGE Handbook of Qualitative Geography** Dydia DeLyser, 2010 The process of learning qualitative research has altered dramatically and this Handbook explores the growth change and complexity within the topic and looks back over its history to assess the current state of the art and indicate possible future directions Moving beyond textbook rehearsals of standard issues the book examines key methodological debates and conflicts approaching them in a critical discursive manner

**Social Consequences of Economic Restructuring in the Textile Industry** Cynthia D. Anderson, 2014-02-04 This book analyzes the dramatic social impacts of global economic restructuring in the US textile industry and the consequences for Southern textile mill communities With the expansion of markets in the global economy government policies such as NAFTA and GATT are greatly affecting the domestic production of textiles Increased global competitiveness has led to technological modernization plant shutdowns and downward pressure on wages Many family owned companies are merging into conglomerates some of which are international Concurrently the structure of power and domination in Southern textile communities is changing Paternalistic control typically portrayed as a form of traditional authority and benevolent protection of workers is no longer dominant With the decreased need for skilled labor textile company owners are not obligated to provide mill villages with housing electricity and water Formerly protected communities are now players on an international scale with workers competing for jobs on a global level New forms of class exploitation racism and sexism provide a contested terrain for mill employees As the industry restructures workers and their households are faced with new challenges To understand these social impacts I examine globalization restructuring and spatialization as processes embedded in multiple layers of reality The multi level analysis focuses on the Southern textile industry a leading firm its surrounding labor market area and members of the community Historical statistical and qualitative interviewing methods yield data that demonstrate redefined labor markets reconstituted race relations and household adaptations Changes in firm and industry impact shop floor labor processes including increased production pace new management strategies and technological adjustments As embedded layers of social relations the multi

level outcomes are both negative and positive creating new winners and losers in Southern communities

**Economic Geography** Sharmistha Bagchi-Sen, Helen Lawton-Smith, 2006-09-27 The impact of economic geography both within and beyond the wider field of geography has been constrained in the past by its own limitations Drawing together the work of several eminent geographers this superb collection assesses the current state of knowledge in the sub discipline and its future direction In doing so the contributors show how economic geographers have offered explanations that affect places and lives in the broader context of the global economy Offering a discussion of theoretical constructs and methodologies with the purpose to show the need to combine different approaches in understanding spatial inter dependencies contributors also demonstrate the need to engage with multiple audiences and within this context they proceed to examine how geographers have interfaced with businesses and policy This excellent collection moves economic geography from a preoccupation with theory towards more rigorous empirical research with greater relevance for public policy With excellent breadth of coverage it provides an outstanding introduction to research topics and approaches

**The Changing U.S. Auto Industry** James M. Rubenstein, 2002-03-11 In recent years car production in the United States has undergone changes on a scale unknown since the pioneering era prior to World War One New plants have been opened in the interior of the country while most of those located along the east and west coast have been closed The Changing U S Auto Industry uses concepts drawn from geography such as access to markets and shipments of parts to understand some of the reasons for the recent changes Also critical is the changing role of labour in the production process including the search by Japanese firms for a union free environment the re location of some production to Mexico and the debate over the appropriate level of union management cooperation
