Politics And Society In Early Modern Iraq:

Politics and Society in Early Modern Iraq T. Nieuwenhuis, 2012-12-06 1 This study deals with the Mamliik period in Iraqi history 1750 1831 and more particularly with later Mamliik times 1802 1831 The year 1831 marks the watershed between an era of local rule and one of restored Turkish centralization During the Mamliik period the influence of external powers in Iraq was not excessive after that year direct Turkish rule coincided with growing British influence which increasingly opened the country to the forces of the world market As an object of study the period of local rule is interesting particularly because it formed the background to and in some aspects also the start of the modern history of Iraq The literature available on Mamliik rule and tribal power is scarce and unsatisfying in various ways The best history of Ottoman Iraq is still that of Longrigg which was written in the 1920 s However although based on an admirable range of sources it provides the reader with little more than a political chronology Generally the social and political historian of early modern Iraq is confronted with a lack of information of a very basic kind if indeed he can find any 2 relevant information For example there is hardly any information on the Mamliik institution Only the most scanty evidence exists on the history of the Yanissaris of Baghdad or on the socio political history of the lower orders of the town Again almost nothing is known about the lower orders of the sedentary rural world

Minorities and the Modern Arab World Laura Robson,2016-05-18 In the wake of recent upheavals across the Arab world a simplistic media portrayal of the region as essentially homogenous has given way to a new though equally shallow portrayal casting it as deeply divided along ethnic linguistic and religious lines The essays gathered in *Minorities and the Modern Arab World* seek to challenge this representation with a nuanced exploration of the ways in which ethnic religious and linguistic commitments have intersected to create minority communities in the modern era Bringing together the fields of history political science anthropology sociology and linguistics contributors provide fresh analyses of the construction and evolution of minority identities around the region They examine how the category of minority became meaningful only with the rise of the modern nation state and find that Middle Eastern minority nationalisms owe much of their modern self definition to developments within diaspora populations and other transnational frameworks The first volume to upend the conceptual frame of reference for studying Middle Eastern minority communities in nearly two decades *Minorities and the Modern Arab World* represents a major intervention in modern Middle East studies

The Shi'is of Iraq Yitzhak Nakash, 2018-06-26 The Shi is of Iraq provides a comprehensive history of Iraq s majority group and its turbulent relations with the ruling Sunni minority Yitzhak Nakash challenges the widely held belief that Shi i society and politics in Iraq are a reflection of Iranian Shi ism pointing to the strong Arab attributes of Iraqi Shi ism He contends that behind the power struggle in Iraq between Arab Sunnis and Shi is there exist two sectarian groups that are quite similar The tension fueling the sectarian problem between Sunnis and Shi is is political rather than ethnic or cultural and it reflects the competition of the two groups over the right to rule and to define the meaning of nationalism in Iraq A new introduction brings this book into the new century and illuminates the role that Shi is could play in postwar Iraq

Democracy in Iraq Benjamin Isakhan, 2016-05-13 This book proposes a significant reassessment of the history of Iraq documenting democratic experiences from ancient Mesopotamia through to the US occupation Such an analysis takes to task claims that the West has a uniquely democratic history and a responsibility to spread democracy across the world It also reveals that Iraq has a democratic history all of its own from ancient Middle Eastern assemblies and classical Islamic theology and philosophy through to the myriad political parties newspapers and protest movements of more recent times This book argues that the democratic history of Iraq could serve as a powerful political and discursive tool where the Iraqi people may come to feel a sense of ownership over democracy and take pride in endorsing it This could go a long way towards mitigating the current conflicts across the nation and in stabilizing and legitimating its troubled democracy Taking an interdisciplinary approach and referring to some of the most influential critical theorists to question ideological assumptions about democracy and its history this book is useful to those interested in political and legal history human rights and democracy

Ottoman Land Reform in the Province of Baghdad Keiko Kiyotaki, 2019-05-15 In Ottoman Land Reform in the Province of Baghdad Keiko Kiyotaki traces the Ottoman reforms of tax farming and land tenure and establishes that their effects were the key ingredients of agricultural progress These modernizing reforms are shown to be effective because they were compatible with local customs and tribal traditions which the Ottoman governors worked to preserve Ottoman rule in Iraq has previously been considered oppressive and blamed with

failure to develop the country Since the British mandate government's land and tax policies were little examined the Ottoman legacy has been left unidentified This book proves that Ottoman land reforms led to increases in agricultural production and tax revenue while the hasty reforms enacted by the mandate government ignoring indigenous customs caused new agricultural and land problems *Islamic Societies to the Nineteenth Century* Ira M. Lapidus, 2012-10-22 First published in 1988 Ira Lapidus A History of Islamic Societies has become a classic in the field enlightening students scholars and others with a thirst for knowledge about one of the world's great civilizations This book based on fully revised and updated parts one and two of this monumental work describes the transformations of Islamic societies from their beginning in the seventh century through their diffusion across the globe into the challenges of the nineteenth century The story focuses on the organization of families and tribes religious groups and states showing how they were transformed by their interactions with other religious and political communities The book concludes with the European commercial and imperial interventions that initiated a new set of transformations in the Islamic world and the onset of the modern era Organized in narrative sections for the history of each major region with innovative analytic summary introductions and conclusions this book is a unique endeavour *The Ottoman Administration of Iraq, 1890-1908* Gökhan Çetinsaya, 2006-09-07 This is a study of the nature of Ottoman administration under Sultan Abdulhamid and the effects of this on the three provinces that were to form the modern state of Iraq The author provides a general commentary on the late Ottoman provincial administration and a comprehensive picture of the nature of its interaction with provincial society In drawing on sources of the Ottoman archives bringing together and analyzing an abundance of complex documents this book is a fascinating contribution to the field of Middle Eastern studies *The Caliphate at War* Ahmed Hashim, 2018-02-01 ISIS's astonishing and unexpected military victories in 2014 and 2015 redrew the geopolitical map of the Middle East Media attention focused on the organisation's savage treatment of its enemies and its ability to attract foreign fighters but as this dispassionate book demonstrates it also made important innovations in strategy ideology and governance Ahmed S Hashim argues that by focusing their ideology first and foremost on extreme anti Shia sectarianism rather than on Western infidels ISIS founders were able to present themselves as the saviours of what they saw as the embattled Sunni nation in Iraq This enabled them to win the support of Sunni communities Moreover ISIS stunning ability to take major cities was a result of its innovative tactics It sowed terror in advance of its attacks by using targeted assassinations to kill key city leaders and its decentralised regional command structure facilitated an unusual degree of coordination between small assault units At the same time the organisation made a serious effort to engage in state building and population control By going beyond the often starkly unpleasant current affairs of the Islamic State *The Caliphate at War* undertakes an essential investigation into the successes of the group to better understand how the movement has survived thrived and reshaped the Middle East **The Colonial and Postcolonial Middle East** Bailey Maxim, 2016-12-15 **A History of Islamic Societies** Ira M.
