Politics And The Labor Movement In Latin America:

Politics and the Labor Movement in Latin America Victor Alba, Víctor Alba, 1968 Labor Politics in Latin America Paul W. Posner, Viviana Patroni, Jean François Mayer, 2018-08-14 Labor Politics in Latin America assesses the capacity of working class organizations to represent and advance working people's demands in an era in which capital has reasserted its power on a global scale. The book's premise is that the longer term sustainability of development strategies for the region is largely connected to the capacity of working class organizations to secure a fairer distribution of the gains from growth.

An Introduction To Latin American Politics And Development Howard J. Wiarda, 2019-08-27 This book is used as an introductory text in courses or seminars in Latin American politics, Latin American development, comparative politics, Third World politics, transitions to democracy, globalization, politics of developing areas, and social change. **Politics of Labor**

Reform in Latin America Maria Lorena Cook, 2010-11-01 *The Army and Politics in Argentina, 1928-1945* Robert A. Potash, 1969 Third volume of in-depth analysis of the army. Format is similar to previous two volumes. There is however more emphasis on the internal maneuvering which characterizes the period. The detail is based on information provided by the participants. A worthy successor to the other studies and essential for analysis of the period. For reviews of vol 1 see HLAS 31 7229 and HLAS 32 2599a. *Handbook of Latin American Studies* v 58 *Shaping the Political Arena* Ruth Berins Collier, David Collier, 1991 Illuminating the dynamics of political change in Latin America during the twentieth century, this ambitious work traces the impact of a critical juncture, a period of fundamental political reorientation in which countries are set on distinct trajectories of change. Here Ruth Berins Collier and David Collier focus on the response of national states to the newly radicalized working class and organized labor movements that arose earlier in this century in the course of capitalist modernization. They examine the incorporation of the labor movement showing how national leaders including Perón in Argentina and Vargas in Brazil sought to impose a new political and institutional framework on working class politics. Through a comparative historical analysis of eight countries, the authors show how different strategies of control and mobilization left distinct legacies in terms of political coalitions, party systems, and modes of political conflict. These outcomes in turn influenced patterns of regime change, including the democratic or authoritarian path each country followed through the turbulent 1960s and 1970s. The concluding chapter asks whether Latin America may now be entering a new critical juncture. Comparative Politics of Latin America Daniel C. Hellinger, 2014-11-27 Students will explore and understand the evolutions and revolutions that have brought the region to where it is today in the fully updated new edition of Daniel Hellinger's *Comparative Politics of Latin America*. This text offers a unique balance of comparative politics theory and interdisciplinary, country-specific context of a thematic organization and in-depth country case studies of culture and economics of scholarship and pedagogy. No other textbook draws on such a diverse range of scholarly literature to help students understand the ins and outs of politics in Latin America today. Insightful historical background in early chapters.

provides students with a way to think about how the past influences the present However while history plays a part in this text comparative politics is the primary focus explaining through fully integrated detailed case studies and carefully paced analysis such concepts as democratic breakdown and transition formal and informal institutions the rule of law and the impact of globalization Country specific narratives integrate concepts and theories from comparative politics leading to a richer understanding of both Several important features of the 2nd edition ensure student success Substantially reorganized text now with 16 chapters Focus Questions at the start of every chapter For Review boxes interspersed in every chapter to ensure comprehension New Punto de Vista boxes in every chapter showcasing competing perspectives on democratization and development throughout the region Country locator maps spread throughout the book to help students orient themselves in the region Democracy Snapshot graphics show support for democracy in each Latin American country Bolded key terms focus attention on important concepts and a glossary at the end of the book provides a useful reference Discussion questions and Further Resources at the end of each chapter Integrated case studies on most countries in the region A companion website <http://www.routledge.com/cw/hellinger> with discussion questions and other useful study aids Comparative Politics of Latin America Daniel C. Hellinger, 2011-03-07 This text offers a unique balance of comparative politics theory and interdisciplinary country specific context of a thematic organization and in depth country case studies of culture and economics of scholarship and pedagogy No other textbook draws on such a diverse range of scholarly literature to help students understand the ins and outs of politics in Latin America today The insightful historical background in early chapters provides students with a way to think about how the past influences the present However while history plays a part in this text comparative politics is the primary focus explaining through detailed case studies and carefully paced analysis such concepts as democratic breakdown and transition formal and informal institutions the rule of law and the impact of globalization Concepts and theories from comparative politics are well integrated into country specific narratives and vice versa leading to a richer understanding of both Several important pedagogical aids foster student learning Learning objectives at the start of every chapter Learning checkpoints interspersed in chapters to ensure comprehension Bolded key terms focus attention on important concepts Glossary at the end of the book provides a useful reference Discussion questions at the end of each chapter Integrated case studies on most countries in the region A companion website with practice quizzes and other useful study aids Politics and Urban Growth in Santiago, Chile, 1891-1941 Richard J. Walter, 2005 This book describes the rapid growth of Santiago Chile's capital and its largest and most important city for the period 1891-1931 Based on a wide range of original research the book describes the growth of the city both demographically and spatially and highlights the role of the local administration in this process Latin American Politics and Development Howard J. Wiarda, Harvey F. Kline, 2013-12-10 For over thirty years Latin American Politics and Development has kept instructors and students abreast of current affairs and changes in Latin America Now in its ninth edition this definitive text has been updated

throughout and features contributions from experts in the field including twenty new and revised chapters on Mexico Central America the Caribbean and South America The fully updated foundational section includes new chapters on political economy and U S Latin American relations and covers the changing context of Latin American politics the pattern of historical development political culture interest groups and political parties government machinery the role of the state and public policy and the struggle for democracy In addition to detailed country by country chapters Latin American Politics and Development provides a comprehensive regional overview Politics, Policies, & Economic Development in Latin America, 1984 Environmental Politics in Latin America Benedicte Bull, Mariel Aguilar-Stoen, 2014-11-13 Since colonial times the position of the social political and economic elites in Latin America has been intimately connected to their control over natural resources Consequently struggles to protect the environment from over exploitation and contamination have been related to marginalized groups struggles against local national and transnational elites The recent rise of progressive left leaning governments often supported by groups struggling for environmental justice has challenged the established elites and raised expectations about new regimes for natural resource management Based on case studies in eight Latin American countries Argentina Brazil Chile Ecuador Colombia Bolivia El Salvador and Guatemala this book investigates the extent to which there have been elite shifts how new governments have related to old elites and how that has impacted on environmental governance and the management of natural resources It examines the rise of new cadres of technocrats and the old economic and political elites struggle to remain influential The book also discusses the challenges faced in trying to overcome structural inequalities to ensure a more sustainable and equitable governance of natural resources This timely book will be of great interest to researchers and masters students in development studies environmental management and governance geography political science and Latin American area studies Routledge Handbook of Latin American Politics Peter Kingstone, Deborah J. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics The region s experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles In turn Latin America s challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region The Politics of Telecommunications In Mexico J. Clifton, 2015-12-22 This text argues that instead of leading toward greater democratization Mexico s policies of privatization in the 1980s were used for

personal benefit and to lubricate the existing state labour relationship It builds its case around the privatization of Mexico s telecommunications *International Labor Organizations and Organized Labor in Latin America and the Caribbean* Robert J. Alexander,Eldon Parker,2009-09-23 The first scholarly work to focus exclusively on the roles of pan regional and worldwide labor organizations in the labor movements across the nations of the Caribbean Central America and South America With a career that covers over a half century Robert J Alexander is perhaps our foremost authority on Latin American history and politics In *International Labor Organizations and Organized Labor in Latin America and the Caribbean* A History Alexander explores one of the most fascinating and often overlooked aspects of the Latin American labor scene he has so meticulously chronicled the relationships between labor unions within specific nations region wide organizations and organized labor around the world Alexander has written many of the cornerstone works on labor movements within the nations of Latin America and this is his first volume to focus on the impact of international unions on Latin American labor issues Coverage includes the AFL offshoot Pan American Federation of Labor and the CIA backed AIFLD the role of the Russian Union Profintern European based unions like the anti Communist anti Fascist Postal Telegraph and Telephone International and intraregional organizations like the Confederacion de Trabajadores de America Latina CTAL the first attempt to form a multinational labor organization exclusively for the region *The Myth of Civil Society* O. Encarnación,2015-12-25 Almost irrespective of the geographic setting the debate about the future of democracy in post authoritarian societies is increasingly tied to the strength of civil society A strong civil society is thought to be crucial to the emergence of successful democracies while a weak civil society is deemed the cause of flawed or frozen democracies Using contrasting evidence from Spain and Brazil this study challenges these widespread assumptions about contemporary democratization It argues that it is the performance of political institutions rather than the configuration of civil society that determines the consolidation of democratic regimes *Labour Mobilization, Politics and Globalization in Brazil* Marieke Riethof,2018-05-15 This book analyses the conflicts that emerged from the Brazilian labour movement s active participation in a rapidly changing political environment particularly in the context of the coming to power of a party with strong roots in the labour movement While the close relations with the Workers Party PT have shaped the labour movement s political agenda its trajectory cannot be understood solely with reference to that party s electoral fortunes Through a study of the political trajectory of the Brazilian labour movement over the last three decades the author explores the conditions under which the labour movement has developed militant and moderate strategies **Handbook of Politics** Kevin T. Leicht,J. Craig Jenkins,2009-11-28 Political sociology is the interdisciplinary study of power and the intersection of personality society and politics The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines The contributors focus on

the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society and discussions of specific applications found in the widely scattered literature where substantive research in the field is published This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover The purpose of this handbook is to summarize state of the art theory research and methods used in the study of politics and society This area of research encompasses a wide variety of perspectives and methods that span social science disciplines The handbook is designed to reflect that diversity in content method and focus In addition it will cover developments in the developed and underdeveloped worlds

The Oxford Handbook of the Politics of Development Carol Lancaster, Nicolas van de Walle, 2018-05-01 In many discussions of nations development we often focus on their economic and social development Is it becoming wealthier Is its society modernizing Is it becoming more technologically sophisticated Are social outcomes improving for the broad mass of the public The process of development policy implementation however is always and inevitably political Put simply regime type matters when it comes to deciding on a course of development to follow Further political institutions matter When a government's institutional capacity is low the chances of success severely decline regardless of the merits of the development plan In The Oxford Handbook of the Politics of Development two of America's leading political scientists on the issue Carol Lancaster and Nicolas van de Walle have assembled an international cast of leading scholars to craft a broad state of the art work on this vitally important topic This volume is divided into five sections major theories of the politics of development organized historically e g modernization theory dependency theory the Washington consensus of policies without politics etc key domestic factors and variables key international factors and variables political systems and structures and geographical perspectives inclusive of regional dynamics A comprehensive and cross regional examination on key issues of political development this Handbook not only provides an authoritative synthesis of past scholarship but also sets the agenda for future research in this discipline

Latin American Politics Edward J. Williams, Freeman J. Wright, 1975
