Politics Feminism And The Reformation Of Gender:

Politics, Feminism and the Reformation of Gender Jennifer Chapman, 2004-08-02 Caught between their female gender and their aspirations in a public sphere founded on the gender role of men women face a problem that is more intractable than conventional feminist political analysis has fully recognized In this book Jennifer Chapman addresses both the substance of the problem and feminist strategies for change Male dominance of political elites is virtually universal and yet there is no general theory of recruitment to account for this Jennifer Chapman uses a rigorous comparative study of political recruitment to show why different models of the process among men produce near identical results irrespective of context She then looks beyond this general pattern to its gender basis and to strategies for change [The Blackwell Companion to Social Movements](#) David A. Democracy and the Rise of Women's Movements in Sub-Saharan Africa Kathleen M. Fallon, 2008-08-08 Despite a late and fitful start democracy in Africa Latin America and Eastern Europe has recently shown promising growth Kathleen M Fallon discusses the role of women and women's advocacy groups in furthering the democratic transformation of formerly autocratic states Using Ghana as a case study Fallon examines the specific processes women are using to bring about political change She assesses information gathered from interviews and surveys conducted in Ghana and assays the existing literature to provide a focused look at how women have become involved in the democratization of sub-Saharan nations The narrative traces the history of democratic institutions in the region from the imposition of male dominated mechanisms by western states to latter day reforms that reflect the active resurgence of women's political power within many African cultures to show how women have made significant recent political gains in Ghana and other emerging democracies Fallon attributes these advances to a combination of forces including the decline of the authoritarian state and its attendant state run women's organizations newly formed constitutions and newfound access to good governance funding She draws the study into the larger debate over gendered networks and democratic reform by exploring how gender roles affect and are affected by the state in Africa Latin America and Eastern Europe In demonstrating how women's activism is evolving with and shaping democratization across the region *Democracy and the Rise of Women's Movements in Sub-Saharan Africa* reveals how women's social movements are challenging the barriers created by colonization and dictatorships in Africa and beyond The Sociology of Development Handbook Gregory Hooks, 2016-09-06 This handbook brings together essays by leading contributors to development sociology by addressing intellectual challenges internal and international migration transformation of political regimes globalization changes in household and family formations gender dynamics technological change population and economic growth environmental sustainability peace and war and the production and reproduction of social and economic inequality The *Sociology of Development Handbook* includes essays that reflect the range of debates in development sociology and in the interdisciplinary study and practice of development Provided by publisher *Feminist Debates* Valerie Bryson, 1999-05-21 Are women still oppressed Is paid employment the key to liberation Should pornography be banned Do women have an absolute right to abortion Can women in government really make a difference This book draws

on a wide range of theoretical empirical and comparative material to provide a lucid account of feminist debates and the ways in which political disagreements stem from underlying theoretical assumptions Clear and balanced in its assessment of different problems and perspectives it offers an essential guide to contemporary feminist thinking and practice **political science is for everybody** amy l. atchison,2021-02-16 This book is the first intersectionality mainstreamed textbook written for introductory political science courses *Love and Politics* Fiona Mackay,2001-08-02 This volume is the first to use insights from recent feminist theory on the ethic of care to study the slow progress women have made toward political equality Using empirical case study materials including her own interviews with female politicians Mackay examines care as both a political practice and a political idea using it to explain the current situation with regard to women s representation and to offer a prescription and resource for change *Women's Political Participation and Representation in Asia* Kazuki Iwanaga,2008 The ability of a small elite of highly educated upper class Asian women to obtain the highest political positions in their country is unmatched elsewhere in the world and deserves study But there is a marked lack of relevant research as well as of comprehensive and user friendly texts Aiming to fill the gap is this timely and important study of the various obstacles and opportunities for women s political participation and representation in Asia **The Politics of Presence** Anne Phillips,1998-10-01 One of the most hotly contested debates in contemporary democracy revolves around issues of political presence and whether the fair representation of disadvantaged groups requires their presence in elected assemblies Representation as currently understood derives its legitimacy from a politics of ideas which considers accountability in relation to declared policies and programmes and makes it a matter of relative indifference who articulates political preferences or beliefs But what happens to the meaning of representation and accountability when we make the gender or ethnic composition of elected assemblies an additional area of concern In this innovative contribution to the theory of representation which draws on debates about gender quotas in Europe minority voting rights in the USA and the multi layered politics of inclusion in Canada Anne Phillips argues that the politics of ideas is an inadequate vehicle for dealing with political exclusion But rejecting any essentialist grounding to group identity or group interest she also argues against any either or choice between ideas and political presence The politics of presence then combines with contemporary explorations of deliberative democracy to establish a different balance between accountability and autonomy Series description Oxford Political Theory presents the best new work in contemporary political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied political theory The series contains work of outstanding quality with no restriction as to approach or subject matter The series editors are David Miller and Alan Ryan the latest thoughtful contribution in Anne Phillip s ongoing enquiry into issues of equality gender and democracy an excellent contribution to democratic theory Political Studies *French Women in Politics: Writing Power* Raylene L. Ramsay,2003 Although more women in France have entered political life than ever before the fact remains that there are fewer women

representatives in the French parliament than there were after the Second World War In a new and original approach the author presents an overview and analysis of the emerging body of text by or on women who have held high political office in France The argument is that writing about women and politics has not just described or reflected women's slow but now substantial entry into political life it has played a major part in shaping the parity debate and its outcomes Interviews with political women such as Huguette Bouchardeau Simone Veil or Edith Cresson inserted in the text demonstrate the emergence and circulation of a new common discourse focused on the issue of whether women in politics make or should make a difference A close reading of the various texts examined in this book and their connection to new public counter discourses in France suggest that a re writing of power is indeed occurring

Quebec Women and Legislative

Representation Manon Tremblay, 2010-07-01 Quebec women have had the right to vote and run for office in provincial and federal forums for at least six decades yet they continue to occupy a minority of seats in Quebec's National Assembly and in Canada's House of Commons and Senate To explain this situation *Women and Parliamentary Representation in Quebec* examines women's engagement in politics from 1791 to the present It begins by tracing the path that led to women achieving the right to vote and run for office and then draws on statistics and interviews with women senators and members of Parliament to complete an in depth portrait of Quebec women's under representation and its main causes political parties and the voting system This innovative account not only documents the significant democratic deficit in Canada's parliamentary systems it also outlines strategies to improve women's access to legislative representation in Canada and elsewhere
