Politics In Sub Saharan Africa

Robert Dible

Politics In Sub Saharan Africa:

Politics in Sub-Saharan Africa Roger K. Tangri, 1985 *Political Communication in Sub-Saharan Africa, Volume I* Isaac Mhute, Esther Mavengano, 2024-10-12 This book is one of two volumes that examines the role of political communication media and language in transforming politics governance and democracy in Sub Saharan Africa Interdisciplinary in approach this first volume assesses themes including participatory politics mass media digital censorship and social media and politics in the region It also considers how politicians utilise language and the media to legitimate their authority influence citizens behaviour and the ways in which they vote It will appeal to all those interested in governance political communication media studies and African politics *Resource Politics in Sub-Saharan Africa* Matthias Basedau, 2005 *Political Development and the New Realism in Sub-Saharan Africa* David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression *The Politics and Policies of Sub-Saharan Africa* Robert Dibie, 2001-11-06 This book attempts to correct the impression created by Western media that Sub Saharan Africa is in a state of anarchy The text analyzes and shows that while many Sub Saharan African nations are experiencing the worst time of their history others are enjoying their best times Thus the text argues that although some parts of Africa are experiencing crisis the continent is also a fine region of major new experiments in governance peace building and free market transformation programs Finally the text focuses some of its analyses on the colonial legacy economic and ethnic transformation indigenous institutions and other forces that seem to influence the governance of Sub Saharan African nations **Democracy and Political Change in Sub-Saharan Africa** John A. Wiseman, 2002-11-01 Since the end of the 1980s the most important political development in Sub Saharan Africa has been the movement towards democracy This is something that has affected nearly all the countries in the region in varying degrees This book provides the reader with a set of case studies covering a diverse range of African states in order to identify the major causes of recent change the progress made so far and what the prospects for the future might be While changes in the global political situation has been important the greatest impetus towards democracy has been the result on internal factors For all the states covered the specific domestic social economic and political conditions are seen as vitally important *Political Opposition and Democracy in Sub-Saharan Africa* Elliott Green, Johanna Söderström, Emil Uddhammar, 2016-04-08 This book takes a closer look at the role and meaning of political opposition for the

development of democracy across sub Saharan Africa Why is room for political opposition in most cases so severely limited Under what circumstances has the political opposition been able to establish itself in a legitimate role in African politics To answer these questions this edited volume focuses on the institutional settings the nature and dynamics within and between political parties and the relationship between the citizens and political parties It is found that regional devolution and federalist structures enable political opposition to organize and gain local power as a supplement to influence at the central level Generally however opposition parties are lacking in organization and institutionalization as well as in their ability to find support in civil society and promote the issues that voters find most important Overall strong executive powers unchecked by democratic institutions in combination with deferential values and fear of conflict undermine legitimate opposition activity

This book was originally published as a special issue of Democratization Issues in the Contemporary Politics of Sub-Saharan Africa G. Harrison,2002-06-19 Graham Harrison investigates contemporary African politics by privileging the dynamics of political struggle and resistance Through the analysis of peasant politics debt and structural adjustment democratization and identity politics the author shows the importance of resistance and agency Detailed studies of Mozambique Nigeria and Burkina Faso demonstrate how political organization and resistance have been closely ingrained in particular post colonial trajectories An original and refreshing approach to the study of African politics this will be a useful textbook for upper level undergraduates and postgraduate students

Sub-Saharan Political Cultures of Deceit in Language, Literature, and the Media, Volume II Esther Mavengano,Isaac Mhute,2023-12-12 This two volume set charts a cross disciplinary discursive terrain that proffers rich insights about deceit in contemporary postcolonial Sub Saharan African politics In an attempt to produce a nuanced and multifaceted academic dialoguing platform the two volumes have a particular focus on the aspects of treachery fear of difference oppositional politics and discourses semiotics of mis self representation The major aim of the proposed volumes is to contribute toward the often problematised conversations about the unfolding post colonial Sub Saharan world which is topical in decolonial and Pan African studies The volumes seek to place political thinking and postcolonial political systems under the scholarly gaze with the view to highlight and enhance the participation of African cross disciplinary scholarship in the postcolonial political processes of the continent Most significantly it is through such probing of the limitations of our own disciplinary perspectives which can help us appreciate the complexity of the postcolonial Sub Saharan African politics The first volume uses Zimbabwe as a case study while the second volume examines postcolonial politics in Sub Saharan Africa more broadly The first volume uses Zimbabwe as a case study while the second volume examines postcolonial politics in Sub Saharan Africa more broadly

The Politics and Policies of Sub-Saharan Africa Robert A. Dibia,2001 This book attempts to correct the impression created by Western media that Sub Saharan Africa is in a state of anarchy The text analyzes and shows that while many Sub

Saharan African nations are experiencing the worst time of their history others are enjoying their best times Thus the text argues that although some parts of Africa are experiencing crisis the continent is also a fine region of major new experiments in governance peace building and free market transformation programs Finally the text focuses some of its analyses on the colonial legacy economic and ethnic transformation indigenous institutions and other forces that seem to influence the governance of Sub Saharan African nations

Real Governance and Practical Norms in Sub-Saharan Africa Tom De Herdt, Jean-Pierre OLIVIER de SARDAN, 2015-05-15 Although international development discourse considers the state as a crucial development actor there remains a significant discrepancy between the official norms of the state and public services and the actual practices of political elites and civil servants This text interrogates the variety of ways in which state policies and legal norms have been translated into the set of practical norms which make up real governance in sub Saharan Africa It argues that the concept of practical norms is an appropriate tool for an ethnographic investigation of public bureaucracies interactions between civil servants and users and the daily functioning of the state in Africa It demonstrates that practical norms are usually different from official norms complementing bypassing and even contradicting them In addition it explores the positive and negative effects of different aspects of this real governance This text will be of key interest to academics students and researchers in the fields of development political science anthropology and development studies African studies international comparative studies implementation studies and public policy

Corruption, Good Governance, and the African State Ganahl, Joseph Patrick, 2014-02-18 African states are often called corrupt indicating that the political system in Africa differs from the one prevalent in economically advanced democracies This however does not give us any insight into what makes corruption the dominant norm of African statehood Thus we must turn to the overly neglected theoretical work on the political economy of Africa in order to determine how the poverty of governance in Africa is firmly anchored both in Africa s domestic socioeconomic reality as well as in the region s role in the international economic order Instead of focusing on increased monitoring enforcement and formal democratic procedures this book combines economic analysis with political theory in order to arrive at a better understanding of the political economic roots of corruption in Sub Saharan Africa

Religious Movements and Politics in Sub-Saharan Africa T. O. Ranger, 1985 *Democracy Works* Greg Mills, Olusegun Obasanjo, Tendai Biti, Jeffrey Herbst, 2019-03-01 *Democracy Works* asks how we can learn to nurture deepen and consolidate democracy in Africa By analyzing transitions within and beyond the continent the authors identify a democratic playbook robust enough to withstand threats to free and fair elections However substantive democracy demands more than just regular polls It is fundamentally about the inner workings of institutions the rule of law separation of powers checks and balances and leadership in government and civil society It is also about values and the welfare and well being of its citizens and demands local leadership with a plan for the country beyond simply winning the popular vote This volume addresses the political economic and extreme demographic challenges that Africa faces It is intended as a resource for

members of civil society and as a guide for all who seek to enjoy the political and development benefits of democracy in the world's poorest continent. Finally, it is for donors and external actors who have to face critical decisions especially after ill-fated electoral interventions such as Kenya 2017 about the future of observer missions and aid promoting democracy and good governance.

Africa in World Politics John W Harbeson, Donald Rothchild, 2009 Top contributors in the field of African politics write on the issues concerning this marginalized continent and its relationship to the global political and economic orders.

Public Religion and the Politics of Homosexuality in Africa Adriaan van Klinken, Ezra Chitando, 2016-04-14 Issues of same sex relationships and gay and lesbian rights are the subject of public and political controversy in many African societies today. Frequently these controversies receive widespread attention both locally and globally such as with the Anti Homosexuality Bill in Uganda. In the international media these cases tend to be presented as revealing a deeply rooted homophobia in Africa fuelled by religious and cultural traditions. But so far little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them. This is the first book with multidisciplinary perspectives on religion and homosexuality in Africa. It presents case studies from across the continent from Egypt to Zimbabwe and from Senegal to Kenya and covers religious traditions such as Islam, Christianity and Rastafarianism. The contributors explore the role of religion in the politicisation of homosexuality, investigate local and global mobilisations of power, critically examine dominant religious discourses and highlight the emergence of counter discourses. Hence they reveal the crucial yet ambivalent public role of religion in matters of sexuality, social justice and human rights in contemporary Africa.

Democracy, Governance, and Economic Policy John Michael Healey, Mark Robinson, 1994 Examines the political dimensions of economic policy making in the 1970s and 1980s.

North African Politics Yahia H. Zoubir, Gregory White, 2015-09-16 In the aftermath of the turmoil that shook North Africa in late 2010 and early 2011, commentators and analysts have sought explanations to the factors that triggered the uprisings and to understand why a region seemingly characterized by relative stability for decades would suddenly erupt in convulsions. Had an underlying dynamism in the region overwhelmed what were ostensibly stable authoritarian regimes? What were the connections to events and dynamics beyond the region such as countries in the Middle East, international commodity markets and environmental factors amongst others? Why had allies abetted authoritarianism for so long and what were the implications for such alliances? *North African Politics: Change and Continuity* brings together experts to explore these questions providing in-depth analyses of important developments in the region which build upon and complement the 2008 companion volume *North Africa: Politics, Region and the Limits of Transformation*. This 21 chapter volume is a key contribution that responds to the need in the Anglo-American sphere for sustained critical studies on North Africa and examines political, economic, security, social and military aspects of the region. Focused studies on individual countries allow detailed discussion of regional factors. The book also examines extrinsic trans-regional dynamics such as North Africa's influential interdependencies with the Levant and the Gulf, Europe

Sahelian and sub Saharan Africa and North Africa Its innovative approach provides new perspectives on North Africa extending its research scope to include Egypt and exploring China s evolving role in the region Providing an important contribution in the assessment of the ever shifting political and social tectonics within and beyond North Africa North African Politics is an essential resource for students scholars and policy makers in Middle Eastern and North African Studies and beyond The International Relations of Sub-Saharan Africa Ian Taylor,2010-04-01 Despite the myth of marginality and irrelevance Africa has always been inextricably linked to the global stage and has long played an important often vital role in international politics Critically analyzing the modalities of governance in large parts of Africa the book provides a comprehensive overview of the continent s international relations arguing that contra to the notion that Africa is a passive bystander to global processes its elites have generally proven themselves excellent arch manipulators of the international system Chapters on American British French Chinese Indian and European interactions with the continent engage with chapters on the role of the World Bank and IMF and the new scramble for Africa s oil to explain such processes Book Jacket

African Politics Gus Liebenow,1986-09-22 A well balanced presentation especially notable for its succinct review of the factors currently controlling the South African political situation The Nation authoritative work Foreign Affairs broad enough in its reach to be useful to teaching in interdisciplinary African studies courses for undergraduates Perspective Gus Liebenow has produced a winner eminently suitable for classroom use with enough substance to be of interest to both teachers and students Africa Today A sympathetic but hardheaded analysis of the crisis issues common to the continent as a whole the struggle for national identity poverty the unresolved festering issue of white supremacy in Southern Africa the problem of political community in the African urban setting and the struggle for popular control over government
