 The eight essays in *Gambling Space and Time* use a global and interdisciplinary approach to examine two significant areas of
 gambling studies that have not been widely explored the ever changing boundaries that divide and organize gambling spaces
 and the cultures perceptions and emotions related to gambling The contributors represent a variety of disciplines history
 geography sociology anthropology political science and law The essays consider such topics as the impact of technological
 advances on gambling activities the role of the nation state in the gambling industry and the ways that cultural and moral
 values influence the availability of gambling and the behavior of gamblers The case studies offer rich new insights into a
 gambling industry that is both a global phenomenon and a powerful engine of local change **Nuclear Country** Catherine
 McNicol Stock, 2020-09-18 Militarization and nuclearization were the historical developments most essential to the creation
 of the rural New Right Both North Dakota and South Dakota have long been among the most reliably Republican states in the
 nation in the past century voters have only chosen two Democrats Franklin Roosevelt and Lyndon B Johnson and in 2016 both
 states preferred Donald Trump by over thirty points Yet in the decades before World War II the people of the Northern Plains
 were not universally politically conservative Instead many Dakotans including Republicans supported experiments in
 agrarian democracy that incorporated ideas from populism and progressivism to socialism and communism and fought
 against bigness in all its forms including bonanza farms out of state railroads corporations banks corrupt political parties and
 distant federal bureaucracies but also surprisingly the culture of militarism and the expansion of American military power
 abroad In *Nuclear Country* Catherine McNicol Stock explores the question of why between 1968 and 1992 most voters in the
 Dakotas abandoned their distinctive ideological heritage and came to embrace the conservatism of the New Right Stock
 focuses on how this transformation coincided with the coming of the military and national security states to the countryside
 via the placement of military bases and nuclear missile silos on the Northern Plains This militarization influenced regional
 political culture by reinforcing or re contextualizing long standing local ideas and practices particularly when the people of
 the plains found that they shared culturally conservative values with the military After adopting the first two planks of the

New Right national defense and conservative social ideas Dakotans endorsed the third plank of New Right ideology fiscal conservatism Ultimately Stock contends that militarization and nuclearization were the historical developments most essential to the creation of the rural New Right throughout the United States and that their impact can best be seen in this often overlooked region s history **Governing Idaho** James Benjamin Weatherby,Randy Stapilus,2005 Distributed by the University of Nebraska Press for Caxton Press Idaho is a state with many varied interests vying for political control Whether it be in the politically liberal north the staunchly conservative southeast or the rapidly changing southwest of the state the social and political factors that determine who gains power in the Gem state often flies in the face of logic and makes for an interesting study in contrasts **Nevada** Michael S. Green,2015-03-23 Nevada A History of the Silver State has been named a CHOICE Outstanding Title Michael S Green a leading Nevada historian provides a detailed survey of the Silver State s past from the arrival of the early European explorers to the predominance of mining in the 1800s to the rise of world class tourism in the twentieth century and to more recent attempts to diversify the economy Of the numerous themes central to Green s analysis of Nevada s history luck plays a significant role in the state s growth The miners and gamblers who first visited the state all bet on luck Today the biggest contributor to Nevada s tourist economy gaming still relies on that same belief in luck Nevada s financial system has generally been based on a one industry economy first mining and more recently gaming Green delves deeply into the limitations of this structure while also exploring the theme of exploitation of the land and the overuse of the state s natural resources Green covers many more aspects of the Silver State s narrative including the dominance of one region of the state over another political forces and corruption and the citizens often tumultuous relationship with the federal government The book will appeal to scholars students and other readers interested in Nevada history Religion and Politics in the United States Kenneth D. Wald,Allison Calhoun-Brown,2014-03-04 From marriage equality to gun control to immigration reform and the threat of war religion plays a fascinating and crucial part in our nation s political process and in our culture at large Now in its seventh edition Religion and Politics in the United States includes analyses of the nation s most pressing political matters regarding religious freedom and the ways in which that essential constitutional freedom situates itself within modern America The book also explores the ways that religion has affected the orientation of partisan politics in the United States Through a detailed review of the political attitudes and behaviors of major religious and minority faith traditions the book establishes that religion continues to be a major part of the American cultural and political milieu while explaining that it must interact with many other factors to influence political outcomes in the United States Utah in the Twentieth Century Brian Q. Cannon,Jessie Embry,2009-06-15 The twentieth could easily be Utah s most interesting complex century yet popular ideas of what is history seem mired in the nineteenth One reason may be the lack of readily available writing on more recent Utah history This collection of essays shifts historical focus forward to the twentieth which began and ended with questions of Utah s fit with the rest of the nation In between was an extended period of getting

acquainted in an uneasy but necessary marriage which was complicated by the push of economic development and pull of traditional culture demand for natural resources from a fragile and scenic environment and questions of who governs and how who gets a vote and who controls what is done on and to the contested public lands Outside trade and a tourist economy increasingly challenged and fed an insular society Activists left and right declaimed constitutional liberties while Utah s Native Americans become the last enfranchised in the nation Proud contributions to national wars contrasted with denial of deep dependence on federal money the skepticism of provocative writers with boosters eager for growth and reflexive patriotism somehow bonded to ingrained distrust of federal government
